

# Defense Publicity Means Deplored by Eisenhower

WASHINGTON (AP)—President Eisenhower's news conference swung into the subject that has been getting more attention lately than any other at Eisenhower's sessions with reporters—the arguments in Congress and the Pentagon over defense and the missile program.

What Eisenhower had to say distilled down to something like this: It's fair to say the Pentagon people are experts in this field—which left the implication that congressmen aren't so expert. But the Pentagon people have different ideas about particular weapons or weapons systems and exploit and publicize them. Leaks and arguments ensue.

This Eisenhower deploras — particularly methods of publicizing varying viewpoints.

His many decisions on weapons come after he has heard all the arguments, pro and con, "and I have done the best I can, and I am doing it with one idea in mind only—America."

Whereas he has been criticized on grounds he is skimping on defense to balance the budget, he said he never puts a budget together "on the basis of just achieving a balanced budget."

Eisenhower dismissed a question whether publication of missile figures has damaged national security and whether he expects to do anything about it. "I don't think the figures mean a lot," he said.

"I think we should be big enough not to seek headlines," he said at another point. "I think we should be big enough to put our heads together and see if we can get a real solution."

# Khrushchev Calls For Disarmament

NEW DELHI, India (AP) — Following in President Eisenhower's footsteps, Soviet Premier Nikita Khrushchev swung into his South Asian tour here yesterday with a call for world disarmament. He said disarmament is now strictly up to the West.

At airport welcoming ceremonies, before India's Parliament, and at a banquet given in his honor by Prasad, Khrushchev held that war must be abandoned as madness.

Looking weary and in a somber mood, the 65-year-old Soviet leader told India's Parliament: "It is our firm conviction that the principles of peaceful coexistence should be the basis for settling all disputed international issues."

"This means that the way to solve them should be through negotiations on an equal footing rather than through pressure and dictation tactics."

Speaking of the 10-nation, East-West disarmament conference to open in Geneva March 15, Khrushchev said: "Let me assure you the Soviet Union will do everything in its power to assure that these talks result in a treaty of general and complete disarmament."

# FCC Recommends Fines For Payola, Fixed Shows

WASHINGTON (AP) — Stiff present authority extends only to fines and prison terms were recommended by the Federal Communications Commission yesterday as a deterrent to payola and fixed quiz shows.

The commission proposed that Congress provide for fines of up to \$5000 and imprisonment for up to one year for deceptions in broadcasting.

It said in a statement that this would enable it to punish any guilty networks, advertisers, show introducers and disc jockeys. All of these, it said, are now beyond its reach.

The commission contended its proposal

# Sub Reported Seen In Argentine Waters

BUENOS AIRES, Argentina (AP)—An unconfirmed press report said a mystery submarine, hunted by the Argentine navy for 10 days, surfaced in Argentina waters yesterday and was attacked by warships and naval aircraft.

This was the latest story in a bizarre naval operation that has prompted wild speculation as well as serious political questions on what the submarine—if it is a submarine—is doing in Argentine waters. Interest is fed by the Argentines' delicate sense of nationalism.

All that the navy would say is that it is still pursuing the submarine believed trapped in Golfo Nuevo, a 20 x 40-square-mile body of water separated from the Atlantic by a narrow entrance. Argentina claims the gulf as territorial waters.
