

Political Internship Offered to Students

Students who are particularly interested in the "political fever" will have an opportunity to be exposed to it this summer via an internship plan being offered by the Eastern Pennsylvania Citizenship Clearing House.

The organization, which is affiliated with the national Citizenship Clearing House, pays students during their internship while also giving them a chance to see politics in action.

Three different plans are being offered. Internship for a period of six weeks with the Congressmen from Eastern Pennsylvania in their offices in Washington, D.C. will begin on May 30 (or as soon as possible thereafter) and will be completed on July 8. Salaries will be approximately \$75 a week.

A second plan offers internships for an 8-week period with the respective state committee headquarters in Harrisburg. Compensation during this period, which will run from July 18 to Sept. 9, will be a minimum of \$50.

Internships in selected Pennsylvania counties in the county headquarters are also available. Although this period extends from Aug. 22 to Nov. 8, students will be expected to work full time only until Sept. 16. After that

time, the intern will be expected to spend 12 to 15 hours per week in the program. Compensation will be \$375 for the entire period and students will be paid on a bi-monthly basis.

All three types of internships are open to students not graduating this June. Those who are graduating in June may apply for the Washington and Harrisburg internships but are not eligible for the third category.

According to Dr. Frank J. Sarauf, assistant professor of political science, these internships are open to all students even if they are not majoring in political science. "It is, however, to the students' advantage if they have had any prior experience in practical politics," he said.

Sarauf explained that the Citizenship Clearing House was established by Arthur Vanderbilt, onetime chief justice of the New Jersey Supreme Court, who believed that "politics needs educated, able, interested and active young people."

Applications are now available at 128 Sparks. They must be mailed to the EPCCH offices by March 14. Applicants must specify the type of internship which they prefer.

Sarauf said that he would be glad to explain any further details to anyone who is interested.

WSGA to Sponsor Faculty Reception

All junior and senior women will be given a chance to meet members of the administration and faculty in informal surroundings at 7:30 p.m. tomorrow at the Junior-Senior Reception in the Hetzel Union main lounge.

This annual event to provide better understanding between students and teachers is sponsored by Women's Student Government Association.

In the receiving line will be Dr. Robert Bernreuter, vice president in charge of student affairs; President Eric A. Walker, and Dorothy J. Lipp, dean of women. Professors from all colleges have been invited.

The Commonwealth of Pennsylvania furnishes approximately one-third of the University's annual operating budget.

Yaverbaum to Discuss CPA Examinations

Irving Yaverbaum, of Yaverbaum and Co. of Harrisburg, will speak to the Accounting Club at 7:15 p.m. tomorrow at Alpha Sigma Phi, 328 E. Fairmount Ave.

Yaverbaum will speak on "The Education and Experience Requirements for Taking CPA Exams," and "Current Developments in the Accounting Profession."

The new officers of the Accounting Club are president, Bernard Quire; vice president, William Sleight; and secretary-treasurer, Sandra Binder.

Niebel Writes Paper

Benjamin W. Niebel, professor and head of the Department of Industrial Engineering, is author of a paper, "Industrial Engineering Techniques in the Design of New Products" published in the January issue of the magazine, "Ingenieria."

If enough of us help . . .

The S.S. Hope leaves for the Far East this year.

JOB OPPORTUNITIES!

A General Motors representative will be on campus
 February 15, 16, 17, 18, 19
 Contact your college placement office to arrange an interview.

shaping the course of power
 ...in hydraulics

General Motors engineers measure the torque and efficiency characteristics of torque converter blade designs with high velocity fluid flow, using electronic measurement devices to solve for unknowns in highly complex mathematic design problems.

What's your specialty, your first love in science and engineering? Astronautics? Automobiles? Electronics? Jet Power? Refrigeration? Basic Research? You'll find opportunities in all of these fields and many more at General

Motors. Because GM is a company where you and your talent can really go places. There's no dead-ending here. You can go forward by working on a variety of challenging projects, moving up through your division, and there's also a possibility of moving across to other divisions. Interested in postgraduate studies? GM provides financial aid. There's also a summer program for undergraduates. You gain work experience while vacationing from school. Get the story on a rewarding GM career from your Placement Officer or write to General Motors, Personnel Staff, Detroit 2, Michigan.

GENERAL MOTORS

GM positions now available in these fields for men holding Bachelor's, Master's and Doctor's degrees: Mechanical, Electrical, Industrial, Metallurgical, Chemical, Aeronautical and Ceramic Engineering • Mathematics • Industrial Design • Physics • Chemistry • Engineering Mechanics • Business Administration and Related Fields.
