

Test Ban Proposal Rejected by Reds

GENEVA (AP) — The Soviet Union offered a major technical concession yesterday in rejecting President Eisenhower's plan for a partial nuclear test ban treaty.

Senyon K. Tsarapkin told the three-nation talks the Soviet Union will accept no treaty unless all tests, whatever their size and location, are outlawed simultaneously.

Then he offered to allow a limited number of mobile Western inspection teams to go freely to the site of virtually any earth tremor in the Soviet Union to check for possible test violations. This was a complete reversal of the previous Soviet position.

A U.S. spokesman said the new Soviet proposal is unacceptable in its present form.

Tsarapkin acknowledged his concession was intended to cut the ground from under Eisenhower's Feb. 11 proposal. The Eisenhower plan would restrict the treaty to those nuclear tests which can be policed with present scientific knowledge.

Small tests underground and some tests in outer space could continue under the Eisenhower plan as long as there was no known way of policing them.

Tsarapkin said the American plan was completely unacceptable to the Soviet Union. But he sug-

Ike Asks 1-Cent Hike

WASHINGTON (AP) — The Eisenhower administration proposed yesterday to raise the cost of mailing a letter to five cents. It now costs four.

The Senate GOP leader, Sen. Everett M. Dirksen of Illinois, and his House counterpart, Rep. Charles A. Halleck of Indiana, declined to predict what Congress would do about raising the rates.

gested a three-year program of joint East-West research to improve scientific knowledge of natural and artificial earth tremors.

Western officials said the catch in Tsarapkin's counterproposal is that many hundreds of inspections would be needed every year to probe the site of a reasonable proportion of natural earth tremors in the Soviet Union.

Despite pleas from U.S. Ambassador James J. Wadsworth and Britain's Sir Michael Wright, Tsarapkin refused to be drawn out on the annual quota of on-the-spot inspections his proposal would allow.

Details Released On Ike's S.A. Trip

WASHINGTON (AP) — President Eisenhower will address joint sessions of the congresses of Argentina, Chile and Uruguay during his South American journey Feb. 22-March 3.

Details of the visit to the three countries were released yesterday by the White House.

The President also will visit Brazil for three days in his four-nation, 10-day flying trip to the south, and details of that stay are expected today.

Burma Greet's 'K' As Peacemaker

RANGOON, Burma (AP) — Soviet Premier Nikita Khrushchev was greeted in neutralist Burma Tuesday by a 21-gun salute and a tribute as a man in quest of peace.

Khrushchev arrived from India aboard his jet airliner for a 36-hour stay. The airport was decked with Soviet and Burmese flags.

About 1000 sarong-clad Burmese watched as Khrushchev chatted with Prime Minister Ne Win and Win Maung.

Physics Prof to Speak

The American Chemical Society will hear Dr. Edwin R. Fitzgerald, associate professor of physics, speak on "The Viscoelastic Behavior of Solids" at 8 p.m. tomorrow in 119 Osmond.
