

'Italian Straw Hat' To Open Friday

French comedy is full of surprises and no one can really tell what is going to happen next, according to Joseph Servello, who has the leading role of Ferdinand in the Player's production of "An Italian Straw Hat" which opens Friday at Center Stage.

Other French comedies in which Servello has appeared are "Carnival of Thieves" which he did several years ago for Players, and "Tovarich" which he played in this past summer at the Community Theater.

Sociology Prof to Talk At Brotherhood Banquet

Dr. John J. Kane, head of the Department of Sociology at Notre Dame University, will speak on "Promoting Harmony in Interreligious Relations" at the 7th annual Brotherhood Banquet at 6 p.m. Feb. 24 in the Hetzel Union Building.

The banquet is sponsored by the Committee on Interreligious Affairs. Admission is \$2.50 per person. Tickets may be obtained at the Helen Eakin Eisenhower Chapel or the HUB.

Spring Week--

(continued from page one) for good taste, originality and adherence to theme. Points for tickets will be given by deriving a percentage of points of all tickets collected up to 850.

The amount permitted to be spent on Spring Week is the same as last year. Groups will be allowed to spend \$75 for construction and \$10 for publicity.

Servello said that in "An Italian Straw Hat" there is a bit of satirizing, but it doesn't get in the way of the comedy. He said that each character in the play has something different about them that adds to the play.

"French comedy isn't a new thing," said Servello, "but there is a certain flare which the director has to pull out of his character." Servello said that he feels as though director Frank S. Neusbaum has pulled out this flare in "An Italian Straw Hat."

The part of Ferdinand is completely different from that of "Gramps" which Servello played in the Players' opening production of their fall season, "On Borrowed Time."

The biggest difference between them is that Gramps was a character with a strong personality who won in a struggle to get "death up a tree." Ferdinand is a very young and weak character who gets very confused on his wedding day.

Deadline for Insurance Extended

The deadline for obtaining student insurance has been extended to March 1 to allow students sufficient time to confer with their parents.

Information and enrollment forms are available at the Hetzel Union desk and at Doty and Hench, 108 S. Allen St.

All full-time undergraduate and graduate students are eligible to purchase the insurance. Three plans of insurance are offered with over 90 per cent of the students selecting Plan 1.

Those who purchased the insurance during registration should receive their certificate of insurance this week. The enrollment was reopened at this time to allow new students and those who recently became ineligible under their parents' insurance to enroll.

International Ladies' Garment Workers' Union

David Dubinsky, President

MEMO TO: Editor,

FROM: Gus Tyler, Director,
ILGWU Training Institute

Subject: A CAREER WITH A CHALLENGE.

Your readers, especially those under the age of 35, have been a source of talent, inspiration and raw material for us during the last few years. Each year, we have heard from your readers in response to our appeal for dedicated young men and women to work in the labor movement.

We are convinced that in every generation there is a segment of young people who would like to play a courageous and active role in changing the shape of things, and we are therefore renewing our invitation to a career that others—in this decade—have found a rewarding way of life.

The International Ladies' Garment Workers' Union conducts its own "West Point," to prepare young men and women for careers in labor leadership. The one-year course combines classroom and field work. Those who complete the course are assigned to a full-time job with the union.

With the job comes the challenge—to provide the kind of dedicated and ethical leadership that will make the American labor movement the creative social force it seeks to be.

The Training Institute is now in its tenth year. 140 of its graduates now hold union office in the ILGWU. Virtually all started as organizers—to learn the labor movement at the grass roots. While some continue at this mission as their first and enduring love, others branch out to take on responsibilities as business agents, local union managers, educational and political directors, area supervisors, time study experts, etc.

There is nothing soft or cushy about any of these jobs. But then we are not looking for young people who want the easy plush life. We want those who will enjoy the sting of challenge.

To these, we open the doors of the Institute. Write before April 15: ILGWU Training Institute, 1710 Broadway, New York 19, N. Y.

General Motors engineers measure the torque and efficiency characteristics of torque converter blade designs with high velocity fluid flow, using electronic measurement devices to solve for unknowns in highly complex mathematic design problems.

What's your specialty, your first love in science and engineering? Astronautics? Automobiles? Electronics? Jet Power? Refrigeration? Basic Research? You'll find opportunities in all of these fields and many more at General

Motors. Because GM is a company where you and your talent can really go places. There's no dead-ending here. You can go forward by working on a variety of challenging projects, moving up through your division, and there's also a possibility of moving across to other divisions. Interested in postgraduate studies? GM provides financial aid. There's also a summer program for undergraduates. You gain work experience while vacationing from school. Get the story on a rewarding GM career from your Placement Officer or write to General Motors, Personnel Staff, Detroit 2, Michigan.

GENERAL MOTORS

GM positions now available in these fields for men holding Bachelor's, Master's and Doctor's degrees: Mechanical, Electrical, Industrial, Metallurgical, Chemical, Aeronautical and Ceramic Engineering • Mathematics • Industrial Design • Physics • Chemistry • Engineering Mechanics • Business Administration and Related Fields.
