

Netherlands Choir

Group Enjoys Its Music Says Director de Noble

By **BARB YUNK**

If you make music without enjoying it, then it's not the right kind of music, Felix de Nobel, director of the Netherlands Chamber Choir, said Tuesday night.

The choir showed that it could enjoy anything from sacred music and music with a latin beat to Negro spirituals during their performance in Schwab Auditorium.

One of the members of the choir said, "We are professional singers and we are all soloists." Yet, this group of 18 soloists blended their voices in a capella singing of Dutch folk songs and dancing songs of all nationalities.

Members of the choir pantomimed some of the parts they sang, acting out everything from irate farmers to fighting cats and dogs. The language barrier was no problem as facial expressions and hand gestures revealed much of the meaning of the music.

The choir began its first tour of the United States when they landed in New York on Jan. 19. They gave their first concert in Montreal on Jan. 20. The tour

includes performances in 22 different cities.

The choir travels by bus. In addition to the time they spend traveling, the members practice three hours every day.

Carnival Applications Available for Indies

Carnival applications for independent groups are now available at the Hetzel Union desk. They must be completed and returned by March 4.

"Once Upon a Time" will be the general theme for Spring Week, April 28 to May 3.

The three categories of the general theme are nursery rhymes, legends and children's stories.

Cover Girl Contest Photos Due Today

The deadline for turning in photographs for the Cover Girl Contest, sponsored by the Pittsburgh Press Roto Magazine, has been extended to 5 p.m. today.

The pictures should be brought to the office of The Daily Collegian in Carnegie Building. The photographs should be 5 x 7 or 8 x 10 glossy or mat-finish prints.

Twenty-three photographs have been entered already but there is still room for many more.

Chem Society to Meet

A monthly meeting of Phi Lambda Upsilon, honorary chemical society, will be held at 7:30 tonight in 111 Boucke.

Dr. Raymond Pepinsky will speak on the "Groth Institute."

MacNeil Will Address Pre-Law Group Tonight

Pi Lambda Sigma, pre-law honorary society, will meet at 7:30 tonight in 205 Boucke.

Mr. Ian R. MacNeil of the Cornell University Law School will speak on "Contracts and Freedom."

Council Nominates Queen

The Home Economics Student Council elected Elizabeth Egelman, junior in home economics from Womelsdorf, as their candidate for the Home Economics Queen.

For Graduates Seeking

GROWTH TYPE CAREER OPPORTUNITIES IN CHEMICAL INDUSTRY!

Approaching its 50th year of specialization in industrial chemicals and commercial explosives, ATLAS is constantly on the alert for graduate engineers seeking unusual growth opportunities. Here at ATLAS in Wilmington, as well as in our nine manufacturing facilities and four research centers throughout the United States, we are planning and looking, as always, to the future.

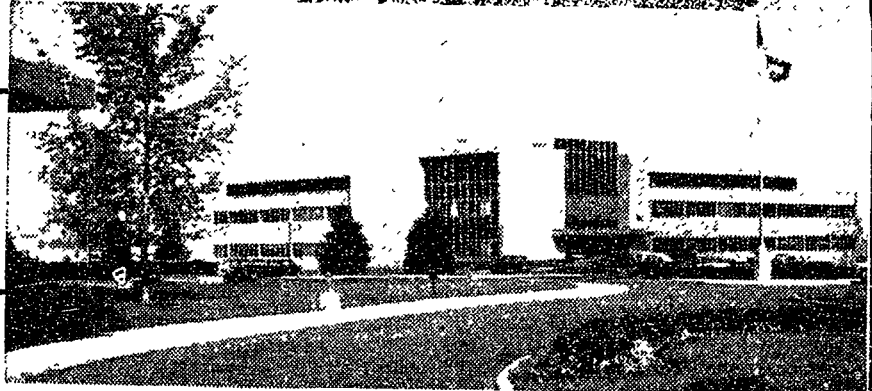

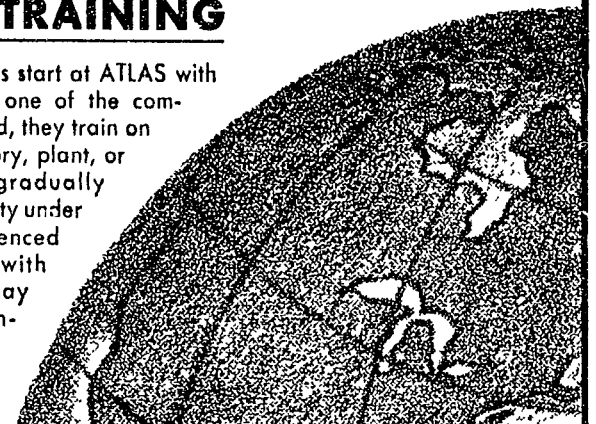

Since YOUR future, as well as OUR OWN, could be closely linked together in the expansive period ahead, we invite your consideration of our opportunities.

For those who have degrees in Chemistry and Chemical Engineering, we have a wide range of openings. Our present need is for qualified men at every level for work in Research, Development, Sales, Management, Staff Functions and Production. We also need imaginative graduates who seek unusual experiences in Civil, Mechanical and Mining engineering.

Our financial rewards are many. Salaries are competitive with the industry; our benefits are unsurpassed. And, opportunity for rapid advancement depends on you . . . our planned program of management development will prepare you for the responsibilities you are capable of assuming.

ON-THE-JOB-TRAINING

Most new technical employees start at ATLAS with a formal training course at one of the company's laboratories. Afterward, they train on the job at an ATLAS laboratory, plant, or sales office, where they gradually assume increasing responsibility under the guidance of an experienced ATLAS staff member. Men with specialized qualifications may immediately begin the on-the-job phase of the training program.
