

ChemPhys Wants SGA Seat

By JOEL MYERS

The Chemistry-Physics Student Council seemed to be in favor of having a representative sit on the SGA Assembly according to opinion expressed in its bi-monthly meeting last night.

Although not put to a vote, the majority of council members felt that the college councils should have a seat on the Assembly.

Walton Davis, president of the council, said he felt that ICCB personnel were of a higher quality than those of SGA. He attributed this superiority to "experience." He said that most council presidents have worked up through the ranks while many of the SGA members are fresh-

man and sophomores who lack experience.

In other business, the council decided to try to secure space on an existing bulletin board rather than purchase a new one. Previously they had planned to buy their own board.

Robert Black, editor of the chemistry-physics newsletter for the past year, submitted his resignation. Since this is an elected position, the resignation won't become effective until a new editor is chosen at the next meeting.

It was announced that Erwin Mueller, professor of physics, will present a talk on March 1 entitled "World's Most Powerful Microscope" as a part of the Chemistry-Physics Lecture Series.

LUCKY STRIKE presents

Dear Dr. Frood:

Dr. Frood, Ph.T.T.

Dear Dr. Frood: Would you please explain Einstein's theory of relativity in simple terms.

Physics Major

Dear Physics: Gladly. It is a theory. It is about relativity. It was thought up by a man named Einstein.

o o o

Dear Dr. Frood: I wear button-down shirts. I wear grey flannel trousers. I wear fine tweed jackets. I wear British-made shoes. I wear thin striped ties. But still I have no friends. Why?

Friendless

Dear Friendless: Your ties must be a trifle too thin.

o o o

Dear Dr. Frood: My sociology Professor says parents should be held responsible for juvenile delinquency. Do you agree?

Soc. Major

Dear Soc: Only if they are very young.

OBFUSCATED ENGLISH PROF. FAILS TO FOOL FROOD

(see below)

Dear Dr. Frood: Very soon the major corporations will be scouting the colleges for capable seniors. They'll be offering fabulous salaries, big titles, golden opportunities. Whom should I work for to guarantee myself a secure future and top income?

Capable

Dear Capable: Dad.

o o o

Dear Dr. Frood: Recently I saw this slogan for Lucky Strike: "Remember how great cigarettes used to taste? Luckies still do." I wonder if the Lucky Strike people realize there is a most serious obfuscation here. The modifier is awkward. Does "great" modify "taste"? Or does "great" modify "cigarettes"?

English Professor

Dear English: You can answer that one yourself. Simply put a match to a Lucky Strike and puff.

o o o

Dear Dr. Frood: For many months I have worked nights in the lab, developing the formula that I am convinced will make possible the perfect crime. It is a deadly poison that works externally, rather than internally. To test my formula, I have placed a large amount of the poison on this letter that you are now holding in your hands. Sorry it had to be you, old man.

Wolfgang

Dear Wolfgang: My secretary received your letter. Now that there is no one to care for them, I'm sending you her 14 cats.

COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco.

TOBACCO AND TASTE TOO FINE TO FILTER!

Product of The American Tobacco Company—"Tobacco is our middle name"
