

**MAYBE THEY WILL HAVE A JOB FOR ME!** This is the hope of every senior waiting for his employment interview. Almost 200 students daily pass through the placement office in 112 Old Main.

## 6 More Sororities To Get New Suites

Delta Zeta, Kappa Alpha Theta, Phi Mu, Pi Beta Phi, Sigma Delta Tau, Zeta Tau Alpha sororities will move into new suites in the Pollock Residence Halls after having drawn lots for them Saturday.

Six other sororities drew for new suites earlier in the semester. They are Alpha Delta Pi, Alpha Epsilon Phi, Alpha Gamma Delta, Alpha Phi, Alpha Xi Delta and Delta Gamma.

## Gift Suggestions To Be Taken

Seniors may make suggestions for their class gift until March 11 at the Hetzel Union desk.

At the end of this week the Senior Class Advisory Board will consider the suggestions and pick about 10 possible ones.

These suggestions will be presented to the Executive Committee of the Board of Trustees for approval, Theodore Haller, senior class president said.

This past week two suggestions were received.

Last year's senior class gift of \$2500 was used for a collection of books by contemporary American authors. This plan had received 318 votes out of the 565 cast.

Other gift suggestions made by last year's class included a set of reference books for each residence hall and a collection of religious studies for the library.

The Pollock residence halls will be ready for occupancy in September.

**Dorothy J. Lipp, dean of women, said yesterday that the suites still in use in Simmons and McElwain will be improved for next year.**

At least two suites will be located near outside exits, she said. They will have a workroom across from the suite. It will be converted from a student's room. The suite will be blocked off from the students' room for privacy and so men can be invited into the suites, she said.

Dean Lipp said that these improvements are definite for at least two suites, and they are quite possible for two others.

She also said that by the fall of 1961 new residence halls may be completed near the new Beaver Stadium. Suites for sorority women are planned for them, Dean Lipp said.

## Transfer Protest Discussed

By CAROL BLAKESLEE

After a half-hour debate last night the SGA Cabinet voted to oppose a recommendation that Assembly protest the University ruling on transfer housing.

SGA President Leonard Julius explained that it was an "economic necessity" for the University to require all transfers to live in the residence halls. The ruling excepted those who wished to join a fraternity or those who gave a valid reason for not wanting to live in the halls.

The main opposition to the ruling was voiced by Harald Sandstrom, president of the Association of Independent Men. If the University needs to fill the halls, he asked, why is it offering any option at all?

**The halls could be made more attractive to get students to live in them, he said.**

ICCB President David Epstein suggested that SGA was not being very discriminating by "constantly running to the administration" with opposition to their plans.

Cabinet took no stand on a Rules Committee proposal to rescind the ruling which limits the SGA President's debate at Assembly. Two Cabinet members suggested that the Supreme Court, rather than Assembly, should decide the constitutionality of the ruling.

In other action Cabinet approved a bill to have more telephones made available in the Hetzel Union Building, but added that students should be able to call downtown on the phones — and that the funds should come from the administration, if possible, and from SGA if not.

## Cold Weather Will Continue

It's too early to determine whether March will go out like a lamb, but there's little doubt that she'll come in like a roaring Nittany lion.

Present indications point to a continuation of sub-freezing temperatures for at least three more days. And to make things worse, some snow may fall tomorrow night.

Today will be mostly cloudy and quite cold with a few brief snow flurries and a high of 28 degrees.

Very cold weather is due tonight as the mercury slips to the 14 degree mark.

## Pledge Date Set by IFC

By KAREN HYNCKEAL

March 27 will be the earliest possible date that men may be pledged by fraternities this semester, the Interfraternity Council decided last night.

In other business, the Council discussed a new plan in regard to transfer students who wish to join fraternities.

## SGA Extends Flight Deadline To March 15

The deadline for making deposits on the SGA sponsored flight to Europe this summer has been tentatively extended to March 15.

With two-thirds of the necessary applications already received, SGA President Leonard Julius said he expects many more by the end of the week.

Assemblymen and members of the SGA Flight Committee visited fraternities last night to give first-hand information on the proposed flight.

SGA is offering round trip tickets to Europe on a flight scheduled to leave New York for London June 13 and to return from Paris July 23. The cost per person will be about \$285, based on a minimum of 75 passengers.

A \$100 deposit is required to reserve a seat on the plane. The balance is payable by April 15.

Anyone who has been officially associated with the University for at least six months and his or her husband, children or parents may take advantage of the special rates.

## Students May Obtain Contracts for Dorms

Housing contracts are available to students until March 11.

Both men and women who wish re-assignment to their present rooms and those who wish different rooms may apply.

Sorority women are not to submit contracts individually, Otto E. Mueller, director of housing, said. They should be turned in together, he said.

Greek Week Chairman Ronald Novak explained the difficulties in obtaining a room in which to hold the IFC sings.

A motion to move the pledging date up to March 13 was proposed by James Cober, president of Tau Kappa Epsilon. Heated discussion followed with many presidents protesting that this change would make rushing "more frantic than it already is."

**Others objected that it would not give the rushees time to see as many houses as possible.**

The motion was defeated by a 30 to 22 vote. David Espenshade, president of Delta Tau Delta, then moved that the date be moved up to April 10. This motion was also defeated.

The Council finally voted to begin pledging men at noon, March 27.

**Steven Ott, IFC rushing chairman, emphasized that "rushing does not end on March 27, but this simply means that rushees who have accepted bids may become pledges on or after this date."**

"By our deferred rushing system, rushing continues all semester and thus gives rushees ample time to make a wise decision," he said.

IFC President Gary Gentzler reminded all freshmen who are the least bit interested in joining a fraternity to wait before signing their housing contracts. Once a contract has been signed, the man is bound by it to live in the residence hall for the entire year.

**"Since these contracts do not have to be signed immediately, I would advise the freshmen to give careful thought to their future plans regarding fraternity life before deciding,"** Gentzler said.

In regard to transfer students, a new 3-week plan has been adopted, Gentzler said. Under this system, any man who is transferring here from a center may designate beforehand that he

## Nittany Improvement May Cost \$150,000

By NICKI WOLFORD

The plans for improving living conditions in the Nittany area will cost a "minimum" of \$150,000, Albert E. Diem, vice president for business administration, said.

The plans have been completed and are now being estimated, Diem said, and as soon as estimates are complete a formal request for the appropriation will be filed.

Diem explained that an informal request for the necessary funds had already been made and he expects a definite answer within the next two weeks.

When asked whether or not he thought the money would be granted, Diem said: "I have a suspicion it will, and if so the work will be done this summer."

A more complete plan of the projected improvement work will not be released until it is begun in late spring, but it includes general landscaping and painting, he said.

"There will always be a difference in the quality of housing in the Nittany area," Diem said, "but the difference in cost will probably widen in the future."

He said the rates charged for living in Nittany would not be lowered, but that they would

probably not be raised if and when the rates are raised in other areas.

In discussing complaints made by some Nittany men, Diem said that a lot of little complaints had piled up. He explained that the water problem in the area had already been taken care of.

The Nittany Area Council decided at its last meeting to send a letter to each of the state legislators in Harrisburg, describing their living conditions and asking for increased appropriations for the University.

When asked for a comment on this action, Diem said: "The legislature hasn't anything to do with residence halls. They might be interested, but none of the state appropriations goes for this."

## Ike Gets Rousing Reception in Chile

SANTIAGO, Chile (AP)—Chileans turned on a rousing reception for President Eisenhower yesterday.

Pouring out in unexpected numbers—estimates ranged from 500,000 to 700,000—the crowds greeted his motorcade with shouts of "Ee-key!" and by throwing flowers all over his car.

The thousands massed along roped-off Alameda Bernardo O'Higgins, the broad main thoroughfare named for Chile's Irish-fathered independence leader they raised full-throated cheers at sight of the President's famous grin.

Factories and shops disgorged their workers, and whistles blew

as Eisenhower reached the third stop on his 4-nation tour.

**One knot of dissent created an incident at headquarters of the Communist Central Workers Union, where a group yelled: Down with the United States!** as Eisenhower and Chilean President Jorge Alessandri rode by.

Part of the crowd rushed forward after the motorcade had passed and stoned a picture of Cuban Prime Minister Fidel Castro displayed at the headquarters. Police surrounded the building. Clotario Blest, president of the union, said police also broke into the headquarters, went through desks, and arrested a number of persons.

**Four persons also were reported arrested for daubing anti-**

United States slogans on walls Sunday night.

President Eisenhower stood waving and smiling the whole hour-long ride to the U.S. Embassy, despite 76-degree heat and occasional bumps in the street.

During a formal call later at the Presidential Palace, the President reiterated that the Americas are determined, "to oppose any aggression from outside, no matter what form it may take."

"A principal purpose of my visit here," he said, "is to demonstrate our eagerness to remove from our mutual relations any possible suspicion, fear or restraint—to demonstrate our hope to work with you in perfect trust. In this effort a primary factor is the observance by all of the principle of non-intervention."
