

NYU Offers Junior Year In Spain

Applications are now being accepted for the third "Junior Year in Spain" program sponsored by New York University's Washington Square College of Arts and Sciences.

The 1960-61 program, which will run from September to June, offers the American college student an opportunity to study Spanish civilization at its source. Credits earned during the year are applicable toward a bachelor of arts degree at the student's home university or college.

Hosting the "Junior Year in Spain" will be the University of Madrid. The program of study has been formulated according to American requirements and credit systems and is accredited by NYU's Washington-Square College.

The program is intended for students with a major or minor in Spanish, but other students who have adequate preparation in the Spanish language will be accepted.

Requests for further information and applications for admission to the program should be sent to: Dr. J. Richard Toven, "Junior Year in Spain," Foreign Student Center, 15 Washington News, New York University, New York 3, N.Y.

Olver to Attend Meeting On Occupational Safety

Dr. Elwood F. Olver, director of the Department of Security, has been invited by President Dwight D. Eisenhower to attend the President's Conference on Occupational Safety that opens today and continues through Thursday in Washington, D.C.

THIS PIECE OF SCULPTURE is among the works in the new art exhibit at the HUB.

—There are 2000 magazine publishing firms in the United States with a total volume of more than \$1.5 billion annually.

Rush Date Set By Angel Flight Education Panel To Be Telecast

Applications for spring tryouts for Angel Flight are now available at the Hetzel Union desk and must be returned by March 8. Any coed with a 2.3 All-University average is eligible.

Angel Flight is an auxiliary to the Arnold Air Society and has no connection with the Air Force Reserve Officers Training Corps for Women.

The rushing program will include a series of teas and interviews, the first tea being at 7 p.m., March 10, in Simmons lounge.

Entrants will be judged on poise, beauty, personality and interest in the Air Force. They have been asked to wear tailored suits or dresses and hose and heels for the teas and interviews.

A half-hour discussion on the Soviet Challenge in Education will be telecast from the campus Sunday.

The program is part of the weekly series, "Eye of Channel 10." It will be presented by WFBG-TV, Altoona, at 5 p.m.

Dr. Vernon V. Aspaturian, professor of political science; Harry K. Hutton, specialist in comparative education, and Dr. Thomas F. Magner, professor of Russian, will take part in the discussion.

The panel moderator will be Gilbert S. Aberg, radio-television specialist in the Department of Public Information.

Greek Week Changes--

(Continued from page eight) Harrison, co-chairman of the projects committee. Approval of these projects is slated for tomorrow night.

According to a change made in the point system last week, a sorority or fraternity must have 25 per cent of its membership on campus participate in the projects in order to win the full 20 points for this part of Greek Week.

—Federal Hall in New York City served as the first Capitol of the United States, after the Constitution was adopted.

Engineers Offered \$700 Scholarships

The American Society of Tool and Manufacturing Engineers is offering 20 scholarships to students who are planning careers in these fields, Carl R. Moss, associate professor of industrial engineering, said.

Moss said that scholastic achievement and financial need are two of the main factors affecting consideration of the applicant.

Ten scholarships of \$700 each will go to students in a 4 or 5-year college or university and 10 other scholarships will go to students in junior colleges.

Applications must be made by today. Further details are available at Moss's office, 207 Engineering 'C'.

A Campus-to-Career Case History

Dick Petzold discusses time charges for a customer's telephone installation with an administrative assistant.

How to avoid a "dead end" career: read Dick Petzold's story

While a senior at the University of Maryland, accounting major Richard G. Petzold made some definite decisions about his future. "I wanted to work for an established company," he says, "but I didn't want to get lost in a 'dead end' job."

Dick joined the Chesapeake and Potomac Telephone Company in Washington, D. C., right after graduating in June, 1956. Following three months of orientation, he became a supervisor in Revenue Accounting, where he continued training in a productive capacity, with 15 people reporting to him. Here, he suggested a number of methods improvements which were adopted.

Far from a "dead end" career, Dick's took him into many operating areas:

- to General Accounting, where he handled market research projects, includ-

ing a Customer Opinion Survey for four Bell System companies...

- to Disbursements Accounting, for IBM-equipment training and, later on, the supervision of Payroll Deduction procedures...

- to Personnel Relations, where he coordinated a special, four-company "absentee" study and presented findings to an important, top-level conference...

- to Disbursements Accounting again, where he is now Supervisor, Labor and Material, with an administrative assistant and 10 clerks under his guidance.

"The telephone company brings out the best in you," says Dick. "I've developed new skills, acquired self-reliance, and learned how to supervise and work with people. What's the opposite of a 'dead end' career? Well, I've got it!"

Dick Petzold earned a B.S. degree in Accounting while in college. He's one of many young men with varied college backgrounds who are finding rewarding careers with the Bell Telephone Companies. Learn about opportunities for you. See the Bell interviewer when he visits your campus—and read the Bell Telephone booklet in your Placement Office.
