

# University Grants Reprieve to Student

A seventh semester student in hotel administration who had been suspended from the University for two semesters by the Academic Discipline Committee of the College of Home Economics was granted a partial reprieve Friday.

The student had been suspended for falsifying a term report which was a requirement for a course in which he was enrolled in last semester. The committee felt the report and the certified and signed information included in it was fraudulent.

When confronted, the student wrote and signed a statement on the matter which the committee also felt to be of doubtful validity. Frank J. Simes, dean of men, said.

Upon his suspension the student immediately appealed to the Central Discipline Committee, a subcommittee of the Committee on Student Affairs.

This committee decided to suspend the student for the current spring semester, but to permit him to re-enter the University in the fall. At that time, however, he would be on disciplinary probation for one semester, Simes said.

Though meant to be fiction, the plot could well be reality in an hour or a month.
