

Curry, Weyl Get Research Grants

Two faculty members have been named Evan Pugh research professors, President Eric A. Walker said today.

They are Dr. Haskell B Curry, professor of mathematics, who has been designated Evan Pugh research professor in mathematics and Dr. Woldemar A. Weyl, research professor of mineral sciences, who has been named Evan Pugh research professor in physical science.

The Evan Pugh Research Professorships recognize outstanding research done by members of the faculty and provide support for the continuation of their research.

They are a part of a program designed to strengthen research at the University just as the Distinguished Visiting Professorships, authorized in 1957, and the Superior Teaching Award, started in 1958, are designed to improve teaching.

Curry plans to continue his investigations into the fundamental aspects of mathematical logic, particularly in the special field of combinatory logic.

His work in this field, supported largely by grants from the National Science Foundation, has resulted in the first volume of a 2-volume treatise on combinatory logic.

Weyl has conducted research in the fields of solid state chemistry and physics, dealing particularly with surface and high temperature chemistry of metal

oxides, glasses, and clays; semiconductors and defects in crystals and glasses; pigments; fluorescent materials; radiation indicators; and mineral synthesis.

His work has led to the publication of more than 100 papers and the granting of 12 patents. Weyl has written a book, entitled "Coloured Glasses," and has contributed chapters to seven other books dealing with solid luminescent materials, rheology, high polymer physics, fluorine chemistry, phase transformation in solids, and the structure and properties of solid surfaces.

3 Profs Will Attend Viking Awards Dinner

Dr. Clarence R. Carpenter, director of the division of academic research and services, Dr. Frederick R. Matson, assistant dean for research in the College of the Liberal Arts, and Margaret B. Matson, assistant professor of sociology, will represent the University at a dinner in New York tonight honoring the three recipients of the 1959 Viking Fund Medals and Awards.

The awards are presented by the Wenner-Gren Foundation for Anthropological Research on the recommendation of professional societies in the fields.

Now the Latest, Learning Machines--

(continued from page four)
One would give an electric shock if we gave the wrong answer. Others would dispense bubble gum for little children who hit the proper button. We complained about huge

lecture classes... we still have them. We complained about television courses... we still have them. We're complaining about teaching machines... It looks like the end for the PTA.

Fraternity Penalties--

(continued from page two)
beverages at a fraternity function. The fraternities have not lost their rushing or pledging privileges but only the right to have women at their houses for four weeks.

COLLEGIAN CLASSIFIEDS

FOR SALE

1960 VW Deluxe, red, whitewalls, radio. Best offer. Call Frank AD 7-7553.

1936 DODGE coupe. Stock rebuilt-6 engine. Brand new tires, battery and motor parts. One owner-original 48,000 miles \$195. Phone Scott UN 5-5213.

1949 CONTINENTAL House trailer, 30 ft., one bedroom, washer & dryer. 102 Trailer Park. Best offer takes it. AD 8-1636.

FOR RENT

FURNISHED APARTMENT - suitable young married couple or two male students. Block from campus, available immediately. Call AD 8-2108.

ROOM IN desirable neighborhood. Parking included. Private entrance, bath, linen, towels, furnished. \$7.00 per week. AD 8-9689.

ONE LARGE double room. Ideal for 2 roommates, one block from campus. 230 S. Pugh St. AD 7-3052.

ONE HALF double room one block from campus. 224 S. Pugh St. AD 7-3052.

DOUBLE ROOM with study facilities; either two boys or two girls. Also, single room. New home with no children. Available immediately. Parking facilities. AD 7-5794 after 6.

NICELY FURNISHED single room and 1 double for male students, near campus, reasonable, parking privileges. Call AD 7-7906 or EL 5-4302.

MISCELLANEOUS

WANT TO work on Cape Cod this summer? For mailing list of good hotels, etc. call Loretta UN 5-4138. Cost \$1.00.

STUDENTS WHO participated in the experimental testing conducted by D.O.C. and Student Affairs Research may arrange appointments for interpretation of their test results by calling UN 5-7576 or stopping in 110 Old Main.

400 BOARD FEET of walnut lumber, varied width up to 15 inches. Very reasonable price. Call AD 8-1762.

SEWING AND alterations. Call for appointment. AD 7-4823.

NON-THESIS TYPING, 30c per page, 5c per carbon. AD 8-0497.

MEET ME at the Pow Wow, Beaver Avenue.

ANGEL FLIGHT spring rushing program applications available at HUB desk. Registration closes March 8. Tea for all applicants March 10 7-8 p.m. in Simmons Lounge.

JUST RELEASED 1960 State College cross indexed directory, \$3.00 plus tax. Mrs. Grace Wagner, 835 W. Foster Ave. AD 7-3388.

IT'S BACK - Gala Nightclub Club Hubana, HUB ballroom Saturday, 9:30 p.m., March 5. Reservations available HUB desk. \$1.25 couple.

ENROLL NOW for ballroom dancing, tap, toe or acrobatic lessons. Professional School of Dance. AD 8-1078.

LOST

ENGRAVED FLORENTINE lighter Wed. afternoon-Library, E.E. Waring. Important for family peace. Reward UN 5-4097. Carolyn.

GREY CHECKED car coat-Berkley brand, lost at Theta Chi Sat. afternoon. Call Ron AD 7-7417.

FOUND

LADIES' WITNAUR Wristwatch. Found on South Hall walk. Can be claimed at UN 5-4822.

WANTED

WILL DO typing. Quick, accurate work. AD 8-9998.

15 MEN to escort 15 lovely ladies to Phi Kappa Theta's St. Patrick's Day party March 12. Phone UN 5-5878 ask for social director.

WORK WANTED

TUTORING IN German & French for courses and graduate language requirements. Call AD 8-1254 after 5 p.m.

ROOM & BOARD

RESERVATIONS NOW being taken for room & board for spring semester at 317 E. Beaver Ave. & 220 S. Allen St. For complete information ask for Mrs. Petriksky at 317 E. Beaver Ave.

Flurries and Cold--

(Continued from page one)
ple who live in low lying areas. The snow that is now on the ground represents 2 1/2 inches of water, if melted. Rapid melting could result in a disastrous flood.

Partly cloudy skies and quite cold weather is due tonight with the mercury dropping to 8 degrees above zero. Winds should diminish late tonight and the snow flurries will come to an end.

Tomorrow, skies are expected to be partly cloudy and the weather will continue to be cold with a high of 26 degrees.

REFUND !

of all toll charges on calls for deliveries of over \$2.00

WHERE?

at Morrell's, of course

foot-long hoagies, steak sandwiches and the new, delicious Berger Boats!

Delivery 9 - 12
AD 8-8381

ROLLER SKATE

Every Wed., Fri. & Sun.

7:30 to 10:30 p.m. E.S.T.
Also Sun. afternoons 2-4 E.S.T.
We RENT Chicago Shoe Skates

HECLA PARK

1 1/2 miles East of State College Rt. 64
Rink Available for Private Parties
Phone Zion - Fulton 3-2318

ENGINEERS • SCIENTISTS

BRIDGING THE GAP

...from components, equipments, and subsystems to fully integrated, large-scale systems

Air defense missiles, unmanned interceptors, manned interceptors, early warning aircraft, long-range radar, gap filler radar, Texas towers, vast communication nets, high-speed computers and advanced information display devices are a few of the integral parts in an air defense system. Each of these has its individual operational characteristics and it is the responsibility of The MITRE Corporation to provide the basic system engineering and design necessary to integrate these many diverse and complex parts into a mutually compatible, fully-integrated air defense system.

Formed under sponsorship of the Massachusetts Institute of Technology, MITRE employs the skills of engineers, mathematicians, physicists and psychologists on large-scale system projects ranging from design through prototype engineering and subsystem development to test and evaluation of the total on-line system. The growing scope of MITRE's technological effort affords the opportunity to establish a rewarding professional career in one of these areas of long-term importance:

- Component Research • Advanced System Design
- System Test and Evaluation • Computer Programming
- Human Engineering • Radar Systems and Techniques
- Subsystem Development • Communications
- Air Traffic Control Systems

CAMPUS INTERVIEWS

Friday, April 8
