

# Parkinson to Speak Tonight in Schwab

Three hundred sixty-one student tickets and 85 non-student tickets remain for the C. Northcote Parkinson lecture scheduled for 8 tonight in Schwab Auditorium.

Parkinson, an eminent historian and author of the recent best-seller, "Parkinson's Law," will speak on his famous study of spreading bureaucracy in the 20th century. Doors will open at 7:30 for the lecture.

According to Parkinson, the idea of his now-famous "law" came to him while serving as a major in the British Army during World War II. The discovery

C. Northcote Parkinson

prompted him to do research in other areas of administration, and this produced further results.

He investigated the productivity of boards of directors, committees, councils and cabinets. He developed a "cocktail party formula" designed to simplify identifying the really important people present.

Parkinson was characterized in The New York Times Book Review as "Bugs Bunny with a PhD, nonchalantly nibbling his carrot." His interests are as varied as his career, which has included training as an artist, museum assistant and schoolmaster.

## Parties Hold Meetings For First Registration

Campus and University parties held preliminary registration meetings Sunday.

Fifty-five students registered for Campus party and 351 registered for University party, Robert Umstead, Elections Committee chairman, said.

Final registration and preliminary nomination meetings will be held Sunday at 7 p.m. Campus party will meet in 121 Sparks and University party will meet in 119 Osmond.

## 8 Men Seek IFC Positions

The Interfraternity Council heard last night self-nominations of eight fraternity men who are seeking IFC offices.

Running for president are Ronald Novak, president of Theta Xi; Howard Mears, president of Sigma Phi Epsilon; and Adrien Tewksbury, president of Pi Sigma Upsilon.

Nominated for vice president are Chester Lucido, treasurer of Phi Kappa Psi; Donald Orr, vice president of Pi Kappa Alpha; and Neal Keitz, president of Zeta Beta Tau. Nominated for secretary-treasurer were Benjamin Bronstein, president of Phi Sigma Delta, and Edward Knoepfle.

Elections will be held by secret ballot at the next IFC meeting which will be held next Monday.

## Tickets Now Available For TIM Spring Dance

Free tickets to the Town Independent Men's spring dance, to be held 9 p.m. to 12 a.m. Saturday in the Hetzel Union ballroom, will be distributed today and tomorrow at the HUB desk to town independents.

Beginning Thursday, free tickets will be available to everyone.

Stan Barton and the AIM band will play at the dance and conduct a "So You Want to Lead a Band" Contest in which volunteer band-leaders will compete with each other. They will be judged by the audience.

## Hourly Wage Payroll Available for Students

The payroll for students employed by the University on an hourly wage will be available from 7:45 a.m. to 4:45 p.m. beginning tomorrow at the busar's office, 4 Willard.

Hourly wages for part-time employment are distributed by the busar on the 10th and 25th of each month.

## Arch Student Gets Winter Seal Prize

Theodore Litzenberger, ninth semester student in architecture from Allentown, has received the \$500 second prize in the first Winter Seal Mobile Homes Design Competition.

The competition was entered by students from 35 colleges and universities in 15 states.

Litzenberger's entry was cited by the judges for original thinking, outstanding presentation and workmanlike engineering.

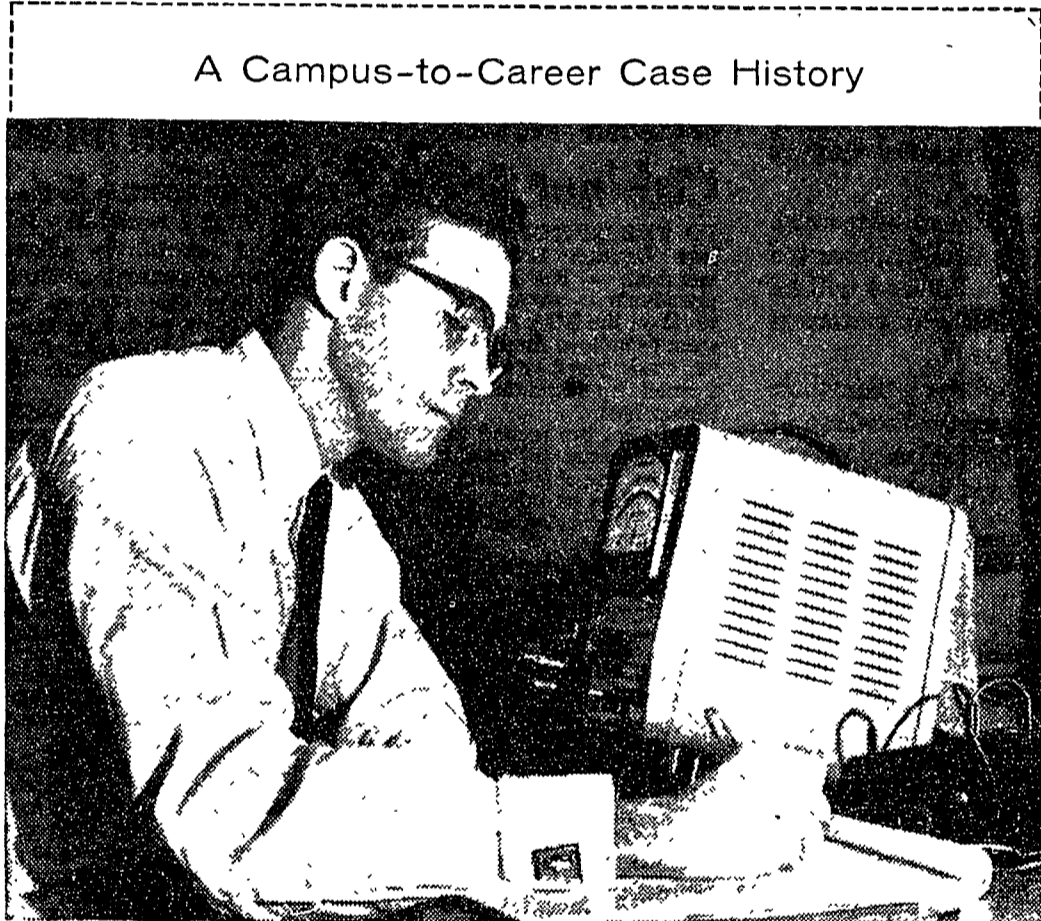

He designed a mobile home with a hinged unit that would permit a permanent-looking home with a patio.

### Concert Tickets Available

Thirty-eight student tickets and 86 non-student tickets remain for the Benno Moisewitsch Artists Series concert at 8:30 p.m. tomorrow in Schwab Auditorium.

A Campus-to-Career Case History

Field assignments, plus theoretical lab work (above), keep Larry Carmody's engineering career stimulating.

## If your future is engineering, put yourself in Larry Carmody's shoes

Lawrence M. Carmody formed some firm convictions about his future engineering career while a senior at Illinois Institute of Technology.

"I wanted to do significant work," he says, "and have a variety of assignments that would broaden me and keep my job interesting. I wanted to make good use of my schooling and express my own ideas. And, like anyone with ambition, I wanted all the responsibility I could handle and real opportunities to keep moving ahead."

Larry got his B.S.E.E. degree in June, 1955, and went with Illinois Bell Telephone Company in Chicago. He first worked in the Radio and Special Services Group of the Transmission Engineering Division. There, in addition to receiv-

ing more advanced training, he:

- designed mobile radio systems
- did path studies of radio circuit routes
- worked on a special air-to-ground communications project for an airline
- did field work for a new, transistorized walkie-talkie system developed by Bell Laboratories.

Today, Larry is gaining further valuable experience by planning and designing statewide long-distance facilities involving microwave, carrier, and cable systems—projecting circuit needs as far ahead as 20 years. His recommendations often represent hundreds of thousands of dollars in equipment and facilities.

"Telephone company engineering is 'tops' in my book," says Larry.

Like to be in Larry's shoes? Many young college men are pursuing careers just as rewarding with the Bell Telephone Companies. Why not find out about opportunities for you? Have a talk with the Bell interviewer when he visits your campus—and read the Bell Telephone booklet on file in your Placement Office.

**BELL TELEPHONE COMPANIES**

be it known  
and  
loudly proclaimed  
along  
with  
the blare of bugles  
that  
from hereon  
the beauteous  
damsels who from now on  
appear in our  
display case  
as well as those  
whose countenance  
may grace our  
column or  
whose name has  
been mentioned  
in said column . . .

ALL of these  
fair maidens  
are eligible  
to be the winner  
of our **EASTER  
IN PUERTO  
RICO** contest
