Lipp Foresees Houses for Sororities

By SUE LINKROOM
Fourth in a Series

In 10 years sororities may be living in houses and the suite plan will be obsolete, predicts Dorothy J. Lipp, dean of women.

As sorority chapters grow larger and larger with the increasing enrollment, houses will be needed to handle all the members. The suites which house the sororities now will be too small to hold the expanding chapters, Dean Lipp said.

New suites will open in the Pollock area residence halls next fall and in the turf plot halls in the fall of 1961. But these will probably be the last suites built on campus, Dean Lipp said.

About 10 years are needed for the Panhellenic chapters to acquire the necessary funds to finance a move into houses. Generally, the local groups will make the initial down payment and mortgage on the house and their national organization will finance the second mortgage, Dean Lipp said.

At the present, all sororities now on campus with the exception of one are bound by a housing agreement with the National Panhel-

lenic Conference to live in suites. Within the next few years this agreement must be nullified before the sorority house plan is realized.

Dean Lipp said that for several years sorority chapters at Penn State have been aiding chapters on other campuses to build houses through fees to their respective national organizations. She said it is about time "our chapters were given funds toward a building program."

She stressed the fact that the acquisition of sorority houses is

through long-range planning and that building funds must be started soon.

Dean Lipp believes that under the current suite plan, the social program of a sorority is limited.

Sorority members are missing the experience of living in their own house and having the responsibility of the care and upkeep of it, she said. They lack the opportunities to invite men to the houses and to hold dinners and parties.

She said that the diversity of living experience in college is important to the student and that spending four years in a residence hall does not aid in developing a coed to her fullest potential.

Recruiting Officer To Visit Campus

Capt. Clinton W. Hammond, officer procurement officer for Detachment 208, U.S. Air Force Recruiting, will be on campus from 10 a.m. to 3 p.m., tomorrow in the Hetzel Union recreation area.

He will interview and talk to applicants interested in obtaining a commission in the Air Force.

Programs available are the Officer Training School and Navigator Programs for men, and the Officer Training School and Nurse Program for women.

ODK Meets--

(Continued from page one)
night's banquet. Entertainment at the banquet will be provided by the Pi Beta Phi sorority quartet. A dance will follow the banquet at Tau Kappa Epsilon fraternity with music by the Ivy Rocks.

A closing general session will be held at 9 a.m. Saturday with the presentation of a conference summary by Arthur M. Wellington, professor of counseling education and adviser to the local Circle. A business meeting will precede the closing of the conference at noon Saturday.

Dr. George K. Brown of Carnegie Institute of Technology is the Province 1 Deputy which includes 16 colleges and universities in the eastern United States. Martin Leshner is general chairman of the conference for the Penn State Circle.

Discussion on Algeria

The International Relations Club will hold an informal student discussion on the "Algerian Crisis and United States Foreign Policy."

The discussion will take place at 7:30 tonight in 215 Hetzel Union Building.

The 1 out of 20 that didn't get smoked

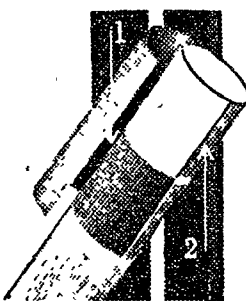

There's a lot of satisfaction in pointing out something good to a friend. That's why it often happens that one cigarette out of a pack of Dual Filter Tareytons never does get smoked.

People break it open to demonstrate its unique Dual Filter containing Activated Charcoal. They may not know why it works so well, but they do know this: It delivers far more than high filtration . . . it brings out the best taste of the best tobaccos—as no single filter can!

Try a pack of Tareytons. We believe the extra pleasure they bring will soon have you passing the good word to your friends.

HERE'S HOW THE DUAL FILTER DOES IT:

1. It combines a unique inner filter of ACTIVATED CHARCOAL . . . definitely proved to make the smoke of a cigarette mild and smooth . . .
2. with an efficient pure white outer filter. Together they bring you the real thing in mildness and fine tobacco taste!
