

18 Grad Students Receive Fellowships

The Graduate School announced that 18 University graduate students, one University of Pennsylvania Senior and one Senior from Smith College, have been awarded cooperative graduate fellowships by the National Science Foundation.

The fellowships were given for graduate study during the 1960-1961 academic year. Eleven fields of scientific study are represented by the recipients who will receive stipends of \$2200 per year and have their tuition paid by the Foundation.

Under this cooperative program, the students applied to the Graduate School here and were evaluated by a local committee. If considered of high rank among the list of 65 applicants they were recommended to the National Science Foundation where a national panel of scientists re-evaluated them and the rest of the 65 applicants. The awards were then given by the National Science Foundation.

The Fellows and their departments are:

Bacteriology: Manuel Ibanez from State College; **Ceramic Technology:** Frederick W. Perry from Holley, N.Y.; **Chemistry:** Francis A. Carey from Philadelphia; James R. Hoyland from Pittsburgh; Robert J. Petersen from Hillsboro, Oregon; Marcia J. Powidski from Reading, who will graduate from Smith College in June; Franklin P. Prosser from Atlanta, Georgia; and Anthony J. Silvestri from Glassboro, N.J.

Electrical Engineering: Gilbert H. Friedman from State College; George A. Ripson from Weatherly, who will graduate from Penn State in June; **Fuel Technology:** James J. Tietjen from State College; **Mathematics:** Barry F. Kramer from New York City; **Metallurgy:** William A. Nystrom from Emporium.

Mineralogy & Petrology: Gerald V. Gibbs from Windsor, Vermont; and Jerrold M. Packman from State College; **Nuclear Engineering:** Walter H. D'Ardenne from Jenkintown; **Physics:** Richard G. Seveler from DuBois; and Erasmus H. Strickland Jr., from Columbia, South Carolina; **Psychology:** Paul C. Harrison from Montrose.

Ten of these applicants are receiving Cooperative Fellowships for the second year based upon a re-evaluation. Two of the recipients, Barry F. Kramer in mathematics and Paul C. Harrison in psychology have also been awarded summer fellowships for former graduate teaching assistants.

Marin to Sit on Board Of Mechanical Journal

Dr. Joseph Marin, professor and head of the Department of Engineering Mechanics, is a member of the Honorary Editorial Advisory Board of a new publication, the International Journal of Mechanical Sciences.

The journal covers outstanding contributions in the field of mechanical sciences, including solid state mechanics.

Greeks Receive Project Assignments

Fraternity and sorority assignments for the Greek Week work projects were released Wednesday night by Greek Week projects co-chairman, Robert Harrison.

Members of 43 fraternities and 24 sororities will participate in 38 different projects Saturday, April 9. The groups were assigned in part according to Spring Week teams.

Alpha Omicron Pi, Phi Kappa Psi, Alpha Tau Omega and Chi Phi will work on the Stone Valley Project. Phi Sigma Delta, Alpha Epsilon Phi, Sigma Phi Epsilon, Sigma Tau Gamma and Alpha Chi Rho will work at Whipple's Dam.

The clothing drive will be conducted by Pi Beta Phi, Sigma Pi and Alpha Kappa Lambda. Sigma Delta Tau, Theta Xi and Lambda Chi Alpha will wash cars at several fraternity parking lots.

Alpha Gamma Delta, Kappa Delta Rho and Zeta Beta Tau will clean and paint the Mateer Playhouse and the Boal Barn Theatre.

Work on the Hetzel Union grounds will be done by Chi Lambda, Phi Epsilon Pi and Alpha Phi Delta.

Alpha Phi, Phi Kappa Tau and Delta Phi will work on the 28th Division Shrine at Boalsburg. Phi Mu, Theta Chi, and Kappa Sigma have been assigned to the United Christian Association cabin and Tussey Ridge.

The Panorama Village Playground and the Panorama School Playground will be projects for Kappa Kappa Gamma, Alpha Epsilon Phi and Acacia.

Triopus, Omega Psi Phi and Triangle will work at the Bella Schlow Library and the Junior Museum. The Little League Baseball Field and Legion Park have been assigned to Delta Delta Delta, Delta Sigma Phi and Pi Sigma Upsilon.

The Center County Hospital and Briarly Manor will be projects of Alpha Xi Delta, Pi Kappa Phi and Delta Theta Sigma. Beta Sigma Omicron and Tau Phi Delta will work at the State College Lions' Club and the Ferguson Township Lions' Club.

Delta Gamma, Sigma Alpha Epsilon, and Alpha Epsilon Pi will work at the Harris Town-

ship School Playground and the Lemon School Playground. Kappa Alpha Theta, Phi Gamma Delta, and Delta Chi will work at the Park Forest Village Playground and the Woodycrest Playground.

Theta Phi Alpha, Pi Lambda Phi and Phi Kappa Theta will aid the Blood Drive and work at the Church of Christ. Sigma Alpha Mu, Alpha Chi Sigma and Phi Sigma Sigma will work at Hillel and the Presbyterian Church.

The Community Swimming Pool and the Holmes Foster Playground have been assigned to Alpha Delta Pi and Phi Sigma Kappa. Kappa Delta, Phi Kappa Sigma and Beta Sigma Rho will work at the South Hills Playground and the East Fairmount Playground.

Zeta Tau Alpha and Tau Kappa Epsilon will work at Sunset Park. Delta Zeta and Pi Kappa Alpha will work at the High School Football Field. The Community Field will be a project for Gamma Phi Beta and Alpha Gamma Rho.

Sigma Sigma Sigma, Theta Delta Chi and Alpha Zeta will work at the Borough Refuse Forest and Delta Upsilon and Chi Omega will work at the State College Christian Church.

Polls Open--

Dean Wharton (U.).

Other candidates are:

Senior representatives— Walter Darran, Katherine Hughes, Jacqueline Leavitt, Judy Moore, Edgar Grubb and Arlene Rosipal (U.); Judith High, Mary Gombar, Robert Clapp, Richard Kitzinger, Richard King and Frederick Meckley (C.).

Junior representatives — Lynn Marvel, Cynthia Xanthopoulos, Theodore Simon, Neil Yarhouse and Suzanne Pohland (C.); Ruth Rilling, John Witmer, Robert H. Harrison, Jay Huffman and Judith Weiss (U.).

there's no opening in management now for a June graduate...

but there will be soon

Youth is no obstacle at IBM for outstanding people. The way up is always open. We've been expanding rapidly . . . and we promote from within.

Whether you're majoring in engineering, math, science, business administration, or liberal arts, I'd like to tell you about IBM and the field of data processing. More important, you should know about the varied and exciting career opportunities—in direct and indirect marketing, applied science, programming, systems, and others—for ambitious people with good scholastic records.

See your placement officer for more information. If we have already interviewed on this campus, and you did not get to see us, please write or call:
