

# Million Crowd London Streets To Witness Royal Wedding

LONDON (AP) — Beautiful Princess Margaret murmured "I will" in Westminster Abbey yesterday and then, as Mrs. Antony Armstrong-Jones, sailed away for a \$100,000 honeymoon in the Caribbean.

Choruses of "good luck" and "God bless you," followed the couple as the royal yacht Britannia carried them down the Thames.

A million or more persons crowded London's streets for the pageantry, the most spectacular in Britain since the coronation.

## Meg Weds Jones In Regal White

LONDON (AP) — From bridal white to cool Caribbean yellow, Princess Margaret stole the fashion show at her dazzling wedding and going-away excitement yesterday.

And that went for her hairdo, too.

Her famous dressmakers and hairdressers must have been happy with the results.

She stunned the crowds with her surprisingly simple, virgin white wedding gown for the Westminster Abbey ceremony as they retired.

Then, when Mrs. Antony Armstrong-Jones with her husband to the royal yacht Britannia for the honeymoon cruise in the Caribbean she did it again.

This time she wore a slim draped dress of cool yellow chiffon.

Comment on her Norman Hartnell costume for the ceremony was ecstatic. The classic white organza gown and full-length veil were a triumph of simplicity. They were also a break with the royal tradition of state dresses elaborately encrusted with jeweled embroidery.

The bride's going-away costume was made for her by Victor Stiebel. Almost sleeveless, with bias bodice, high neckline and cross-draped skirt.

PRINCESS MARGARET

Tears flowed. Surging crowds stormed through police cordons. Well-wishers showered the bridal pair with rose petals. Applause volleyed through the streets.

Crowning it all was the solemn Anglican service of marriage—and the romance of a princess with a commoner.

Margaret is the first British princess in nearly 500 years to marry a man without a title.

Margaret and Antony are expected to spend six weeks on their Caribbean honeymoon aboard the yacht, the Britannia, which it estimated costs about \$2800 a day to operate. The expense, with other items, is expected to bring up the value of the honeymoon to well over \$100,000.

The palace has commented in response to criticism that the Britannia's costs go on no matter whether honeymooners are aboard.

For the wedding day, police counted 1125 casualties, 35 requiring hospitalization. Most were fainting cases.

The wedding began shortly before noon in the 13th century abbey.

Through the streets, passing moving, cheering spectators, came a steady procession of gleaming limousines. Marching troops in many uniforms swept past, then mounted guardsmen with plumes and silver helmets and breastplates, flashing in the sun.

Winston Churchill, heavy with years, drew storms of applause. Nearby, India's Prime Minister Nehru donned gold-rimmed spectacles and intently studied the order of service.

## '60 Rights Bill Will Protect Negro Voting

WASHINGTON (AP) — The new 1960 civil rights bill with provisions to protect the voting rights of Negroes and other minorities became law yesterday without fanfare.

Congress struggled over the measure for months, and it tied up the Senate for a week of around-the-clock sessions before it went to the White House over two weeks ago.

Signing it, President Eisenhower called the new law "an historical step forward in the field of civil rights."

"With continuing help from all persons, the new law will play an important role in the days ahead in attaining our goal of equality under law in all areas of our country for all Americans," the President said.

The law contains provisions against bombings, against interference with federal court orders, and for federally authorized school facilities for children of servicemen if the public schools in their areas are closed to avoid desegregation orders.

Its heart, however, is aimed at helping Negroes and other minorities overcome discrimination against them at the ballot box.

It sets up a new procedure under which the attorney general could file suit asking courts to find there is a pattern of discrimination against the exercise of voting rights.

If such a finding is made, court-appointed referees could hear complaints from those discriminated against. If the referee found such persons qualified under state law, he could order that they be permitted to register and vote.

# Rocket Shot Used As Red Propaganda

MOSCOW (AP)—Soviet leaders yesterday launched an intense presummit propaganda campaign keyed to the assertion that a "remarkable rocket" on its first shot brought down an American airplane over Soviet territory.

The shot was fired Sunday, the nation was told, on direct orders of Premier Nikita Khrushchev.

Deputies in the Supreme Soviet broke into wild applause when Marshal Andrei A. Grechko described the rocket shot. They reacted similarly earlier when Khrushchev told them the American plane had been shot down.

While the Soviet press blossomed with pictures and accounts of the incident, Parliament heard that popular indignation meetings were being staged all over the nation to protest the presence of a U.S. plane in Soviet air space.

U.S. officials say the plane was apparently an unarmed weather research craft, manned only by its pilot, which strayed off course after a takeoff in Turkey.

Grechko said Khrushchev issued the orders for the rocket shot at the U.S. plane, which he said was trying to "prove our defenses and test our readiness to give a devastating repulse to an aggressor."

He said the rocket has "become the main component of our armed forces" and separate rocket units have been established with their own commands. There is speculation that the marshal commands the rocket units. His current job is identified only as a high post.

Foreign Minister Andrei A. Gromyko renewed the Soviet stand on the Berlin issue facing heads of government at the summit meeting opening in Paris 10 days hence.

The U.S.S.R., Gromyko said will sign a separate peace treaty with Communist East Germany if the summit reaches no agreement on the twin issues of West Berlin and divided Germany. "This is not a threat of an ultimatum. This is an act to make the position in West Berlin normal," he said.

— A yellow-fever epidemic wiped out half the population of Norfolk, Va., in 1855.

## Ike Receives Area Aid Bill

WASHINGTON (AP) — The Senate sent President Eisenhower a 251-million-dollar depressed areas aid bill yesterday but the 45-53 vote fell short of two-thirds needed to override an expected veto.

The Democratic-backed measure would authorize federal loans and grants to try to create new jobs in areas long suffering from unemployment.

Only last Tuesday the President urged Congress not to pass such a broad measure, but instead to send him the administration's 53-million-dollar bill.

Democrats are confident, however, that they have created a potent political issue for the fall campaign, even if the legislation falls before a veto.

Eisenhower killed a similar program with a pocket veto in 1958. Democrats have credited this with helping greatly their sweep in the congressional elections this fall.

The Senate accepted House changes cutting down the original Senate bill which totaled 389½ million dollars. The margin was seven less than needed to override a veto.

# Medical Aid Bill Brought to Senate

WASHINGTON (AP) — A group of Democratic senators, including four presidential hopefuls, introduced yesterday a broad medical care program for the aged using the Social Security system as a base.

Sen. Pat McNamara (D-Mich.), chief sponsor of the new bill, estimated its cost at \$1,578,000,000 annually when it takes full effect.

Meanwhile, an aide said Vice President Richard M. Nixon was still opposed to a Social Security approach to the problem.

And Secretary of Welfare Ar-

thur S. Flemming said that Nixon was vigorously supporting the administration plan.

Flemming said Nixon took active part in working out the plan which calls for federal-state outlays of \$1,200,000,000 a year to help insure persons over 65 against major medical costs. The federal share would come from general revenues, not Social Security taxes.

In its hospitalization and drug provisions, it exceeds in the House bill introduced by Rep. Aime J. Forand (D-R.I.) and supported by many Democrats. But it does not provide for surgical expenses as the Forand bill does.

The McNamara bill would cover 11,300,000 persons over 65 under social security, 1,700,000 old persons on the public assistance rolls and 1,800,000 other aged.
