

Nittany Housing Plan Reported Artist Series--

In a specially called meeting of the Nittany Area Council last night, Otto E. Mueller, director of housing, and William B. Crafts, assistant to the dean of men, announced the policy for Nittany occupancy next year.

Mueller said Nittany will be used as a staging point from which men will move into vacated rooms in other residence areas. However, students will not be moved out of the area against their wishes.

All upperclass applicants for Nittany will be honored for next fall and will be assigned single rooms. At present, Mueller said, 13 upperclass men have been assigned to Nittany and there are about 15 others awaiting assign-

ment. Entering freshmen will fill the remainder of the area and will also occupy single rooms if the number allows.

As it stands now, Mueller said, the rooms will be billed at a rate which will be the same as the double room rate charged in other halls.

—Tests conducted by the Interior Department indicate that hard-shelled clams can be encouraged to grow 17 per cent faster through selective breeding methods.

The orchestra will open tonight's concert with "Prelude to Lereley" by Max Bruch, then will continue with "Syphony No 3 in F Major, Opus 76" by Anton Dvorak.

Following the intermission, Kuerti will play "Fantasia in G Minor, Opus 77" by Ludwig von Beethoven and "Sonata, Opus 1" by Alan Berg.

The program will conclude with Beethoven's "Concerto No. 4 in G Major, Opus 58."
