

## 'Gestapo' Accusations Called 'Stupid' by Lipp

By BARB YUNK

Dean of Women Dorothy J. Lipp last night termed accusations that her plan for junior residence counselors will turn into a gestapo system "stupid."

"We will not have tattletales," she said to approximately 80 women at a meeting last night. Dean Lipp invited 160 women to the meeting to explain the new staff program more fully.

## Lipp May Examine Coed Cases

WSGA Judicial will submit to the dean of women's office for resolution, only cases that it feels unable to cope with in the future, Dean of Women, Dorothy J. Lipp announced last night.

Dean Lipp made the statement in clarification of a directive read to Judicial members yesterday afternoon by Miss Lois McCulloch, assistant to the dean of women.

The directive said that "Since the dean of women's office has the final responsibility for WSGA, it is necessary for the rest of the year to have any actions approved by the dean of women's office. Penalties should not be released until Wednesday evening so the staff can look over the recommended action."

Miss McCulloch told the Judicial members that this decision had been reached in staff meeting.

When questioned about the directive last night by Judicial chairman Joan Beidler, Dean Lipp said that her decision had been "misinterpreted."

Dean Lipp said that she did not mean that all penalties would have to be submitted for her recommendation, but rather only such cases as Judicial felt unable to cope with, Miss Beidler said.

Dean Lipp requested a list of penalties given by Judicial (to include name, offense and penalty) each week so that she would be aware of what the board was doing, Miss Beidler added. However, Miss Beidler explained, Dean Lipp said no penalty definitely decided upon by the board would be revoked.

The purpose of the new staff program, she said, is to maintain women as individuals.

The biggest problem facing her, she said, is pulling apart student groups. These groups split the students and cause distrust. "They cause Collegian editorials about gestapo systems," she continued.

Dean Lipp opened the meeting by saying she was glad to see how many women had come. "You're real brave people to show up," she said, adding that she felt the "breakdown in communications" would keep women from attending.

"The Collegian," she said, "has a right to jump to conclusions. This is a learning process for journalists and if they've lost their sense of humor, become confused and only gotten one side of the story it's part of the learning process."

"I frighten you a little," she said. "I don't fit what your picture is, or was, of a dean of women. New things get scary. The boat is bound to rock and people panic with new responsibilities," she added.

"One of the things we had to consider," Dean Lipp continued, "is that those who learn slowly would mess things up."

Dean Lipp described her topic as "Community Living in a World within a World." "Community living," she said, "is as old as people. Human beings are gregarious by nature and so they clump together."

Women, Dean Lipp said, are too separated from the men. They need more points of contact because "no segment of the world is ever an entity in itself."

"The women," she said, "will learn from the men and the men will learn from the women." Junior counselors will act as catalysts; to institute this new concept, she said.

Early plans, she said, called for only one coed community to serve as an example; the rest to remain at a status quo. "However," she said, "the dean of men and I thought the rest of you should not miss this experience. So, we built a basic (Continued on page three)

## DARE Begins 'Long Range' Investigations

A long range planning program for the investigation of possible areas of discrimination involving students will be undertaken by DARE, the anti-segregation group of State College.

Representatives of DARE will attend the SGA Cabinet meeting next Tuesday night to suggest a study of this problem with reference to planning SGA action for next year.

At a steering committee meeting last night, similar action by the student government of Ohio State University was cited as including investigation of assignment to residence halls, student teaching areas and student employment.

The fund drive to raise money for the legal defense of Southern students involved in direct, non-violent, anti-segregation demonstrations was extended through today.

Sponsored by the Student Christian Association, all money collected will be sent to the "Legal Aid and Scholarship Fund" of the National Student Christian Federation.

## Cloudiness, Rain To Continue Today

Another gloomy day is in prospect for today with plenty of cloudiness, a few sprinkles of rain and little sunshine.

Unseasonably cold air continues to keep temperatures near record levels as the main weather systems remain relatively stationary.

Today will be mostly cloudy and cool with a few light showers and a high temperature of 52 degrees.

Partly cloudy and cold weather is due tonight and there is a chance of scattered frost in the well-exposed areas. The overnight minimum will be about 34 degrees.

Some sunshine and slightly milder weather is due tomorrow with afternoon temperature readings reaching the middle or upper 50's.

## USSR May Try Pilot of Spy Plane

MOSCOW (AP)—The Soviet Union notified the United States yesterday that Francis G. Powers, pilot of the American spy plane downed deep inside Russia on May Day, "will be brought to account under the laws of the state."

This indication that the pilot may undergo a trial for espionage, probably not long after the end of the summit conference, was contained in a stiff protest delivered through the U.S. Embassy.

The Soviet government protested what it called the espionage reconnaissance flight of Powers' highflying Lockheed U2 jet.

The United States countered with a request for permission for an embassy officer to interview Powers, a 30-year-old Lockheed test pilot from Pound, Va., who is reported by the Russians to have confessed he was spying for the Central Intelligence Agency.

The flyer fell into Soviet hands in the region of Sverdlovsk, 900 miles east of Moscow. Soviet Premier Nikita Khrushchev said the pilot and the wreckage of his plane—felled, by Soviet account, by a single rocket—were transferred to Moscow last week. The guess here is that Powers is held somewhere in midtown.

The protest note was handed by Foreign Minister Andrei Gromyko to the U.S. charge d'affaires, Edward L. Frears, at the Foreign Ministry.

It declared that "hostile acts of American aviation which have taken place numerous times in relation to the Soviet Union are not simply the result of the activity of the military command of the U.S.A. in various areas but are an expression of a calculated U.S.A. policy."

"These violations are premeditated," it said. "... All this testifies that the government of the U.S.A., instead of taking measures to stop such action by American aviation, the danger of which has more than once been pointed out by the Soviet government, officially announces such action as its national policy."

It said that the United States, by sanctioning such action, aggravates international tension.

"Military intelligence activity of one nation," the note declared, "by means of intrusion of its aircraft into the area of another country can hardly be called a method for improving relations and strengthening such."

## Advisory Applications Due

All applications for the Junior Class Advisory Board must be turned in at the Hetzel Union desk by tonight.

## Absence Bill Supported By Cabinet

By JOANNE MARK

The SGA Cabinet last night moved to support enforcement of the rules committee recommendation concerning absences of assemblymen.

The recommendation is that the rules committee will determine the validity of all absences. Assemblymen will be responsible for submitting excuses to the committee for absences.

The names of all assemblymen with unexcused absences will be read at the next assembly meeting. Three unexcused absences make an assemblyman subject to impeachment.

The Cabinet also ruled to recommend that a bill submitted by Jacob Dentu of the World University Service concerning opposition to racial discrimination in housing be referred to the SGA Public Relations Committee. They further recommended that the committee conduct open meeting discussions on the problem.

A recommendation for the formation of a SGA Community Living Study Committee was also passed. The recommendation includes the proposal that two representatives for each of the following organizations be members of the committee: SGA, WSGA, IFC, Panhel, ICCB, AIM and Leonides.

The Cabinet moved for recommendation that the Organization Board of Control be commended for its work in contacting all organizations that failed to comply with a regulation requesting information about membership, officers, advisors, finances and constitution.

Included with this recommendation is a proposal that OBOC continue their program of contacting organizations and revoking the charters of those organizations that repeatedly fail to comply with the Board's regulation.

## Panhel Makes Changes in Structure

By ELLIE HUMMER

Panhellenic Council voted on several structural changes as recommended by the committee on structure at the council meeting last night.

The following recommendations were accepted by the council:

- The same two delegates from each sorority shall attend each meeting. These delegates shall be the president and the rush chairman or the panhel delegate.

- Panhellenic Council shall meet two times a month.

- Panhellenic Council shall appoint approximately two standing committees which will meet when the council does not have its meeting. It is recommended that these committees be a social

committee and a public relations committee.

- Panhellenic Council shall appoint special committees which will perform when the need arises, such as a workshop committee and a rush committee.

- The standing committees shall present recommendations to the council which will give the final vote on all issues. The recommendations will be placed on a Panhellenic agenda which will be picked up by each sorority delegate for the purpose of presenting it at her own sorority chapter meeting.

It was decided by the council that they would refer the decision on Greek Week in the fall to a joint committee with the Inter-Fraternity Council. The Council had formerly decided against having Greek Week in the fall.

By having Greek Week in the fall, the council hopes to introduce the Greek system to the freshmen.

The question on sophomore transfer rushing was discussed again by the council. It has been decided by the council that sophomore transfers would not be able to rush in the fall, but the question has now been opened for a revote at the next meeting.

The following sororities will not be rushing during the fall rush program: Alpha Xi Delta, Chi Omega, Delta Delta Delta, Delta Gamma, Kappa Alpha Theta and Pi Beta Phi. It was decided that the sororities not rushing in the fall will observe all the contact rules during the entire period.
