

IFC Names Resh 'Man of the Month'

Ronald Resh, senior in business administration from Lancaster and a member of Phi Mu Delta social fraternity, has been named Fraternity Man of the Month by the Interfraternity Council.

IFC will continue to sponsor a monthly contest to determine the winner of this title next year.

Kappa Sigma Breaks Ground For New Home

Ground breaking ceremonies for the new Kappa Sigma fraternity house were held Sunday afternoon. President Eric A. Walker, using the traditional silver-plated shovel, turned over the first spadefull of dirt for the new \$350,000 house.

The L-shaped building is being constructed around the present structure passing in front of and to the left of the old house. The present structure will be torn down when the new building is completed and the area will be used as a courtyard.

The new all-steel building will be ready for the 60 members of Kappa Sigma to occupy by the end of November.

Gary Reynolds, sophomore in industrial engineering from Hummelstown, and Eugene Duhnoski, junior in chemical engineering from Levittown, were awarded \$240 scholarships from the Star and Crescent Foundation, a charitable foundation of the fraternity, at the ground breaking ceremonies.

About 100 alumni and other invited guests attended.

Fraternity men applying for this honor must complete "information sheets" which ask for a list of major and minor activities elected organization (both social and scholastic), offices, honors and awards, appointed positions, All-University average, semester average and curriculum.

Applicants were also asked to write a concise summary of all their attributes pertaining to the selection of the Fraternity Man of the Month.

The final requirement for application was to have someone write a brief essay about the entrant including reasons why he should be chosen for the title.

Resh's major activities included: vice president of IFC, rushing chairman and member of the IFC rushing evaluation committee, AFROTC Division Commander and general staff member.

Other activities were Arnold Air Society, Society of Military Engineers, Accounting, Management, Finance, Newman and Jazz Clubs.

Resh is vice president of the Parmi Nous hat society for senior men, secretary of his fraternity and operations officer for the Arnold Air Society.

He has received the AFROTC Award for being a distinguished military student.

In conjunction with appointed positions, Resh has been chairman of the IFC Lawn Display and the IFC-Panhellenic Ball.

Visiting Petrology Prof Will Lecture Tonight

Dr. A. F. Buddington, distinguished visiting professor of petrology, who is also professor emeritus of geology at Princeton University, will present a public lecture on "A Geologist's Model of the Crust and Subcrust of the Earth" in the Mineral Science auditorium at 8 tonight.

Spring Fever Affects Chimes In Old Main

Spring fever seems to have affected more than just people this year.

Take the Old Main chimes for instance—they're on vacation. Or maybe it should be called sick leave.

Several days ago it became apparent that something was seriously wrong with the mechanism which rings the chimes. For a while they were ringing one o'clock every fifteen minutes. Then they began to ring the quarter hour on the hour.

When time failed to cure whatever complaint the chimes have, the University Maintenance and Utility Department decided to investigate. It called in a service company which has taken care of the chimes mechanism in the past and began an examination.

The service men were mystified, according to Robert W. Knouse, head of the maintenance and utility service.

Finally the repairman came up with a possible solution and ordered a new part. When this piece of equipment will arrive and how soon the chimes will be functioning properly is still unsettled.

So now the chimes are on vacation. They were turned off yesterday and will have a much needed rest until somebody figures out just what is the matter with them.

Spectroscopist to Speak

Dr. Hertha Sporer, a spectroscopist in the Department of Physics at Duke University, will be the speaker at the 19th annual Marie Curie Lecture to be held at 8 tonight in the Hetzel Union auditorium. Sporer's topic will be "The Early History of Natural and Artificial Radioactivity."

No Action Taken On WSGA Rules

The Senate Committee for Student Affairs, at a meeting yesterday, postponed action on the proposed review of Women's Rules.

Helen L. Kinsloe, secretary of the committee, said that copies of the rules were distributed to members at the meeting but some of the members felt they were not familiar enough with the rules to take action on them at the present time.

"Copies of the rules will be given to committeemen not present at the meeting and if any action is necessary, it will be taken at a future meeting," Miss Kinsloe said.

The minstrel show, its format being Negro singing and jesting, was originated by a white man, Thomas D. Rice, in Louisville, Ky.

Be perspicacious!

Not this: a student who studies drowsily no matter how much sleep he gets.

This! Perspicacious... sharp! NoDoz keeps you awake and alert—safely!

If you find studying sometimes soporific (and who doesn't?) the word to remember is NoDoz. NoDoz alerts you with a safe and accurate amount of caffeine—the same refreshing stimulant in coffee and tea. Yet non-habit-forming NoDoz is faster, handier, more reliable. So to keep perspicacious during study and exams—and while driving, too—always keep NoDoz in proximity.

The safe stay awake tablet—available everywhere. Another fine product of Grove Laboratories.
