FIVE CENTS

Two Students Die In Crash

—Photo Courtesy of Joe Lippincott
THIS IS THE SMALL SEDAN IN WHICH two students, William R. Poyak, graduate student in political science from Lancaster and Robert L. Dockety, senior in business administration from Narberth, were killed. The accident occurred at 6:25 p.m. Saturday near Boalsburg.

IFC Changes Rushing Date To Early in Fall Semester

By KAY MILLS

Fraternity rushing for first-semester freshmen will start six weeks after the beginning of the fall semester instead of during the second semester, the Inter-Fraternity Council decided last night.

The change, as approved by a 34-14 vote, includes the following points:

No first-semester freshmen will be permitted to be on fraternity premises during the first six weeks of classes of the fall semester unless designated by IFC, such as approved open houses.

First-semester freshmen will not be permitted inside or outside the fraternity premises until the end of the six-week period.

Fraternity men will be permitted in men's residence halls only between the hours of 7 a.m. and 8 p.m. during the six-week period.

The pledging date would be set for three weeks after the beginning of the spring semester.

No first-semester freshmen will be permitted to stay at a fraternity house after 1 a.m. except on big weekends when they may remain until 2 a.m. These hours would be in effect until the beginning of the pledging period.

An amendment to delete the last section of the proposal was defeated by a 30-19 roll call vote. The original proposal, presented at the May 10 IFC meeting by Tilman Segal, former president of Beta Sigma Rho, allowed rushing to start four weeks after the beginning of the fall semester.

This date was changed last night to permit Greek Week to kick off the rushing program, Ben Bronstein, secretary-treasurer, said.

Members of the 1960-61 IFC Board of Control were announced. They are Gary Robinson, chairman; Ed Kohler, Jon Lang, Gary Kaplan, John Craft, Ephe Olliver and Richard Aten.

Howard Mears, IFC encampment chairman, reported that the encampment will be held Sept. 13 at the Hetzel Union building. The eight workshop chairmen will be Bob McLean, IFC Purchasing Agency; Herbert Goldstein, rushing; Howard Mears Jr., IFC; Ben Bronstein, special areas; Richard Moyer, public relations; Gary Robinson, IFC rules and policies; Chester Lucido, IFC activities; and Jerry Logue, scholarship.

Investigations Fail to Find Rocket Men

Investigation of the four-foot, homemade rocket found in the Nittany area Friday night has disclosed no evidence as to the rocket's owner or the method by which it was launched, Jerry Whalen, Nittany coordinator, said last night.

Whalen displayed the missile before the last meeting of the semester of the counselors from Nittany, West and North Halls. He asked them to be on the alert for any scrap pieces of metal in their respective units which may be used in the construction of such rockets.

All that is presently known about the rocket is that it was probably fired from the area of the cow barns, Whalen said.

Three Auto Accidents

Hostess Hurt in Wreck

Two accidents at the corner of Shortlidge Road and College Avenue and an accident involving a University residence hall hostess were among the automobile mishaps concerning the University over the weekend.

Mrs. Long, the hostess in Stephens Hall, was returning to the University Sunday night when her auto was demolished in an accident on Cresson Mountain. Mrs. Long was driving alone up the mountain when she noticed a car coming toward her without a driver. The driverless car hit

Mrs. Long's auto head-on. The auto evidently had been parked along the berm and drifted down the mountain, Mrs. Long said.

Mrs. Long was treated by a physician in Cresson for a broken blood vessel in her leg and an injured knee cap. She also has stitches in her mouth where her teeth went through her jaw.

In another accident, an auto driven by Charles Caprio, 15, of Bellefonte, turned left onto Shortlidge Road from College Avenue Sunday afternoon and struck the curb, deflecting into two other cars, one of which struck a fourth car. Young Caprio was operating a car owned by his brother, Frank D. Ca-

prio, according to police. The older Caprio had loaned the car to Ronald J. Askey, a cousin. Askey had allowed young Caprio to sit behind the wheel and told him to move the car if it was necessary since it was parked in an illegal parking zone, the police report said.

Young Caprio was, "driving around the block," as he expressed it, when the accident occurred, the report stated.

In another accident, yesterday afternoon, at the same location, \$80 damage was incurred when a auto operated by Lee Roy Turner of Louisville, Ky, proceeded in the wrong lane and hit the right rear of a car operated by G. Stroba of Philadelphia. There were no injuries, police said.

Two Others Injured In Three-car Collision

By JO ANNE MARK

Two University students were killed and two others injured in an automobile accident near Boalsburg Saturday night.

Robert Dockety, senior in business administration, and the son of Mr. and Mrs. Robert E. Dockety of Narberth was one of those killed. Dockety, a member of Delta Tau Delta fraternity, would have graduated from the University in two weeks.

Also killed was William Poyck, a graduate student in political science and the son of Mr. and Mrs. Arthur Poyck of Lancaster. Poyck was a 1959 graduate of Franklin and Marshall College.

Frederick Meyer, a junior in dairy science from Elkins Park, is listed in fair condition in the Centre County Hospital. Meyer is believed to be suffering from a possible fractured skull and internal injuries.

Gilbert Bair, senior in business administration from Manheim, suffered contusions of the back and chest. He is reported in fair condition in the Centre County Hospital.

State police who investigated the accident, said, Poyck, who was driving, was traveling toward State College when he attempted to pass a car driven by Mrs. Ruth Young of Boalsburg. He apparently tried to pull in front of the Young car when he saw another vehicle approaching in the opposite lane, but failed to make it and was hit broad side, they said.

The other car was driven by Ronald Zadrozny, 19, a sophomore in horticulture from Coraopolis, Zadrozny and a companion Miss Darlene Coligure of Oakdale escaped without injury.

A third car, driven by Lawrence Arch, of Irwin, which carried University students, plowed into the Zadrozny auto. William Wonders, a junior in electrical engineering from Leechburg, and George Reele, a junior in electrical engineering from Merrittstown, escaped uninjured.

Poyck lived at Tussey Farms, Centre Hall RD, and apparently was driving from there to State College when the accident occurred near the entrance of the drive-in theatre at Brookside.

The injured were taken to the hospital in the Alpha Fire Co. ambulance.

Dr. James Reichard of Morrisdale, a passing motorist, administered emergency treatment at the scene of the accident.

Poyck's engagement to Daphne Wolcott Parker, senior in secondary education from Sewickley, was to have been announced yesterday.

Earthquake's Tidal Waves Hit Hawaii

HONOLULU (AP) — Four tidal waves, spawned in the vast Pacific by Chile's destructive earthquakes, shattered downtown Hilo yesterday.

Twenty-six persons were reported killed and police said dozens were missing in Hawaii's second largest city.

Damage in the wrecked waterfront business sections was expected to exceed \$25 million in the port city on the Island of Hawaii.

Hospitals reported 51 injured.

All the island state's population was alerted by siren warnings more than three hours before the first wave hit at 5:25 a.m. EST.

The warning system, installed after a disastrous 1946 seismic wave killed 159 persons in Hilo and other Hawaii areas, warned thousands to move out of low lying areas.

These included hundreds of guests in Waikiki Beach hotels in Honolulu. Water surged through the main floors of the plush Waikiki hotels and briefly flooded Kalakaua avenue, the Honolulu resort district's main street.

The Coast Guard rescued six persons from a cabin cruiser that broke up on the rocky coast of Kauai Island, northernmost in the island chain.

The massive wave force, generated by continuing earthquake shocks in Chile which killed an officially counted 252 in that South American country, ranged across the world's largest ocean from New Zealand to the California coast.

William F. Quinn, Hawaii's governor, declared a state of emergency and flew from Honolulu to Hilo to take personal charge in the disaster area.

Residents Complain Of ZBT Party

Zeta Beta Tau fraternity has been charged with disorderly conduct for holding a "rowdy and wild beer party" Saturday night, it was reported by the State College police.

The group will have a hearing before Justice of the Peace William P. Bell at 7 p.m. tomorrow.

The party, which began early Saturday night and continued until about 3:30 a.m. Sunday, was brought to the attention of the police by complaints of local residents. When the group failed to cooperate after repeated warnings from the police, Le Roy Austin, associate dean of men, was summoned to the house premises.

Austin termed the group's behavior as "irresponsible and childish." He said that the dean of men's office will press charges against the house and the case will be referred to the Senate Sub-committee on Group Discipline.

Jr. Injured in Fall From 20-ft. Tree

Kenneth Coles, junior in horticultural from Furlong, received two broken vertebrae when he fell out of a 20-foot tree near Whipple's Dam Friday night.

According to hospital sources, Coles landed on a rock.

Following the accident, Coles was first taken to the Ritenour Health Center and from there he was taken to the Geysinger Memorial Hospital in Danville where he is listed as resting in very good condition today.
