

Soviet Bloc Walks Out On Disarmament Talks

GENEVA (AP)—The Soviet bloc walked out of the 10-nation Disarmament conference yesterday ending with a single stroke all present hopes of slowing the nuclear arms race.

Soviet Deputy Foreign Minister Valerian Zorin and his four allies accused the Western powers of using the talks to camouflage a buildup of modern arms, and strode from the meeting room over Western protests. The U.S. State Department accused the Soviet bloc of shattering the hopes of all peoples for progress toward peace and appealed to them to resume the negotiations. A statement issued in Washington described the walk-out as "both deplorable and disappointing."

Att'y General Claims Misuse Of Polio Funds

ST. PAUL, Minn. (AP) — Money donated for polio victims was misused by improper administration of the Sister Elizabeth Kenny Foundation, Minnesota's attorney general charged yesterday.

He threatened to take the foundation into court to recover the funds unless the board of directors acts on its own.

Among the figures named in the report are Marvin Kline, 57, executive director of the Minneapolis-based foundation for 14 years, who the attorney general said drew \$604,500 in salaries and other benefits in his 14 years in the post; Fred Fadell & Associates, Minneapolis public relations firm; and a Chicago direct-mail concern.

Alleging that money raised in the foundation's national fund campaigns had been improperly diverted, Atty. Gen. Walter Mondale reported:

1. Only 1 1/2 per cent of the \$1,542,639 raised in a 1956 fall campaign was used for medical purposes, the rest going for promotion, mailing and other expenses listed as part of the campaign.
2. Only 47 per cent of some 30 million dollars raised from 1952 to 1959 was used for hospitalization, treatment, research and training facilities.

Olive Rages Over Luzon; 2 Governors Balk On Kennedy Stand

MANILA (AP) — Typhoon Olive hacked across the island of Luzon yesterday with 80-mile winds and slashing rain, leaving at least 100 reported dead and hundreds missing. It was the Philippines second major weather disaster in a month.

Valuable coconut trees, crops, homes and schools were blown down and washed away throughout southern Luzon. Bridges and roads were out. Tens of thousands of persons were homeless. Property damage soared.

The typhoon boiled off across the China Sea.

Manila, a metropolis of two million, was partly paralyzed. Its water supply was cut sharply. The typhoon slashed within a dozen miles of Manila early yesterday, almost exactly a month after flash floods roared through the city last May 28, leaving nearly 200 dead and extensive damage.

Ample warning held the casualty toll down in the Manila area. The picturesque resort and port city of Legaspi, 150 miles to the southeast, was hit hard.

Legaspi lies in the shadow of cone-shaped Mt. Mayon, known as the "tropical Fujiyama." Sixty persons were reported dead in Legaspi and the surrounding province of Albay.

Another 21 were reported dead in the nearby provinces of Camarines Sur and Camarines Norte.

A rain-loosened landslide buried a family of six in Balangas province. Seven were reported dead in Rizal province.

Communications were out to two other island provinces in the area.

GLACIER NATIONAL PARK, Mont. (AP) — The governors of California and New Jersey balked yesterday at giving Sen. John F. Kennedy of Massachusetts a hand in sewing up the presidential nomination in advance of the Democratic National Convention.

Kennedy still may reach his goal of blitzing the convention on the first ballot at Los Angeles next month. And he still could get a sizable assist from the California and New Jersey delegations in doing it.

But at least at the annual Governors' Conference here Kennedy forces are going to get no solid commitments from Govs. Edmund G. Brown of California or Robert B. Meyner of New Jersey.

The country's governors were busy talking politics on the side and discussing the whole field of education in their formal business session.

Prime Minister John G. Diefenbaker of Canada was given the

honors of addressing the governors' black-tie dinner last night. Brown has had friendly words for Kennedy. But he told a reporter that he certainly isn't going to use the Governors' Conference as a backdrop for announcing a preference for anybody.

And Meyner told a news conference he expects his name to be put in nomination as a favorite son at Los Angeles. That would give him New Jersey's 41 votes on the first ballot.

The 61 California votes are an even bigger prize.

"What I do will depend on the California delegation," Brown said. "It will meet July 10, the day before the convention opens."

The Brown and Meyner stands obviously were a setback to Kennedy's hopes of nailing down the nomination before the voting actually gets under way.

Steel Slump Hits Workers

NEW YORK (AP) — About 25,000 steelworkers have been laid off by a slump in orders in the industry, an Associated Press survey disclosed yesterday. Thousands more are reported on short work weeks.

Pay checks of still more workers will be trimmed by extended shutdowns because of the Fourth of July weekend. A further decline in the industry's operating rate is expected to add to the totals.

The situation brought a call for action from David J. McDonald, president of the United Steel Workers.

"Steadily mounting unemployment in the steel industry, together with the creeping paralysis of other segments of our economy, emphasize the necessity for swift and positive action to reverse the trend before we slid into a disastrous depression," he said.

The American Iron and Steel Institute, in its regular weekly forecast of industry activity, estimated production this week would amount to 1,560,000 tons, equal to 54.8 per cent of capacity.

The Pittsburgh area appeared to be the hardest hit. Although exact figures were not available, best information was that 18,000 of 141,500 workers in the area are idle.

1st Congo President Sworn In

LEOPOLDVILLE, Belgian Congo (AP)—Joseph Kasavubu was sworn in as first President of the Republic of Congo yesterday and was quickly faced with a threat of secession by angrily rallying Bangala tribesmen.

The Republic does not actually become independent of Belgian colonial rule until Thursday.

The Bangala, angry because Jean Bolikango of the Puna party was not made president or even a member of the government, held a stormy meeting last night on a sandy sidewalk outside party headquarters in a suburb.

About 5,000 Africans crowded about the dilapidated palm-shaded house and on its roof. They shouted and gesticulated, and some carried rocks and long knives. About 50 police with

long bayonets surrounded the meeting.

When Bolikango drove up in his car, some of his supporters went wild with excitement and carried him shoulder-high to a table where he made a speech.

With tears rolling down his cheeks, Bolikango said he was so fed up with the way his people had been treated that he proposed setting up an auton-

omous state in the northwest Congo so that the Bangala could rule themselves without interference from the central government.

The announcement was cheered lustily. The crowd then dispersed without using its rocks and knives.

There are about 40,000 Bangala in Leopoldville.
