

Castro Fights Ike's Sugar Quota Action

HAVANA (AP) — Prime Minister Fidel Castro rallied his supporters yesterday for a continuing battle against what he called the insane and stupid action of President Eisenhower in slicing Cuba's sugar quota.

He delayed, at least for the time being, his threat to seize all property of U.S. holders "down to the nails in their shoes."

Two-Day Revolt Ends In Congo

LEOPOLDVILLE, Congo (AP) — Mutinous Negro soldiers yesterday ended a two-day army revolt marked by charges of white women that they had been raped by mutineers.

A railroad official said women brought here on a special train from Kisantu, between the capital and Thysville, told him they had been raped by Congolese soldiers who invaded their homes looking for weapons.

At one point in the uprising in this week-old African nation, white residents of Leopoldville patrolled the road leading from the mutineers' camp because of reports the disaffected army men were marching on the capital.

A government spokesman said the mutinous soldiers held the road between Leopoldville and Thysville Wednesday and turned back a group of officials on their way to Thysville.

Tanks sent from Leopoldville, in turn, forced back a detachment of the mutineers heading for the capital.

Uncertainty verging on panic has seized many Europeans in Leopoldville, the Belgian radio in Brussels reported last night.

It said groups of Portuguese and Belgians in the new Congo republic were preparing to cross the Angola border last night to take refuge in that Portuguese colony and others were thinking of seeking safety across the River Congo in Brazzaville, capital of the former French Congo, now also a republic.

Information Minister Anicet Kashamura confirmed the army mutineers at Thysville, about 75 miles southwest of Leopoldville, had restored to command the white Belgian officers they had held in confinement. In Leopoldville, most mutineers returned to barracks.

Red Riots Break Out In N. Italy

ROME (AP) — Police and Communist-led demonstrators clashed in the Red stronghold city of Reggio Emilia in northern Italy yesterday. At least four persons were killed there and 21 wounded as machine-gun fire raked the streets.

Word of the new rioting and death in the north set off fresh tumult and fist fights here in Parliament, where the leftist leadership threatened to plunge Italy into civil war.

Premier Fernando Tambroni put full blame for the disorders on the Communists. He charged in a sharply worded statement to the Chamber of Deputies the Reds are "conducting a pre-planned action—both in the national and international fields aimed at subverting order and democracy."

The Communist-led Confederation of Italian Labor called a 10-hour general strike, beginning at 2 p.m. today, to protest the Reggio Emilia killings.

The rioting at industrial Reggio Emilia appeared to be the worst in two weeks of Red-led disturbances that have taken a toll of at least five dead throughout Italy. In addition 500 demonstrators and more than 200 police have been injured.

The leftists said their target was the Fascists, but Italian newspapers charged they were acting on orders from Moscow with the avowed aim of bringing down Italy's pro-Western government.

The disorders broke out as Communist-led unions pushed a general strike to protest police intervention in street clashes in Rome Wednesday night.

At a tumultuous early morning Senate session pro-Communist Socialist Sen. Emilio Lussu bluntly warned: "The Christian Democrat government must go. And if you do not go your government will be a government of civil war."

Pa. Delegation Heads for Split

PHILADELPHIA (AP) — Keystone State; Keystone delegation—that's the watchword of Pennsylvania's huge contingent to the Democratic National Convention in Los Angeles.

The delegates, each with a half-vote, are building plans on their being the key bloc in selection of the party's presidential candidate. Gov. Lawrence, delegation chairman, spearheaded the air exodus yesterday of 162 delegates and 81 alternates.

U.S. Rep. William Green Jr., Philadelphia city chairman and an important power in the delegation, is already at the convention site. He is a member of the Platform Committee.

But the majority of the delegation enplanes from Philadelphia or Pittsburgh today.

The Pennsylvania delegation appears set for a split decision on the first ballot for a presidential nominee.

Lawrence, emphatically neutral himself, has predicted votes for all of the candidates on the first count.

This is a consensus of first ballot predictions by a dozen top delegates: Sen. John F. Kennedy, (Mass.), 20; Sen. Lyndon B. Johnson, (Texas), 20; Adlai Stevenson, two-time Democratic candidate for president, 25; Sen. Stuart Symington, (Mo.), 10; miscellaneous, 6.

Polaris Loses Control

CAPE CANAVERAL, Fla. (AP) — A Polaris submarine missile went out of control and made a fiery plunge into the Atlantic yesterday, seconds after it was launched from a ship at sea.

The 28-foot rocket shot from a vertical tube in the deck of the ship, the Observation Island. There was no immediate word on the cause.
