

# UN Employs African Troops To Stop Anarchy In Congo

UNITED NATIONS, N.Y. (AP)—Volunteered African troops were being lined up quickly yesterday under the blue and white UN banner to try to stop the Congo's lunge toward anarchy. A force of 2,500 to 3,000 is expected

Within hours after the Security Council gave him the go-ahead, Secretary-General Dag Hammarskjold received offers of contingents from Ghana and Tunisia. Both were

reported ready to move immediately and become the vanguard of a unique peace task force.

Hammarskjold was reported to have asked the United States, Britain, the Soviet Union, Italy and India to supply food and transport.

In Newport, R.I. yesterday, President Eisenhower authorized the immediate shipment of 300 tons of flour to the strife-ridden Congo.

The President said the shipments will be flown to Leopoldville and assigned from stocks available in Europe.

Hammarskjold also named a commander for the new Congo U.N. emergency force and ordered him to take up his duties Sunday. He is Maj. Gen. Carl von Horn of Sweden, now commander of the U.N. truce supervision organization in Palestine.

These developments came amid reports that the situation in the Congo was worsening. The central issue was the continued presence of Belgian troops in the country. The Security Council voted early yesterday morning to call for withdrawal of the Belgian troops but Belgian officials insist they intend to pull out only the metropolitan troops flown in after the current crisis began.

## Alessandro, Bixby Lead Latin American Tour

Dr. Joseph Alessandro, associate professor of elementary education, is taking 15 teachers on a 6-week tour through 10 Central and South American countries from Guatemala to Argentina.

Latin American schools are in session now and the teachers will study and compare the education system of these countries.

Dr. Paul W. Bixby, assistant dean of the College of Education, will accompany the 13,000 mile educational study tour.

# Capt. Saves Passengers Of Airline

By MARIO ROXAS

MANILA (AP) — "All I know is we reacted the way we were trained," said Capt. Dave Rall, whose speedy action was credited with saving the lives of all but one of 58 persons aboard an American airliner that ditched in pre-dawn darkness in the Philippine Sea yesterday.

Three minutes after the burning Northwest Orient Airlines DC7C hit the water 85 miles northeast of Manila, everyone was out of the plane. Four minutes later it sank.

This crash occurred eight minutes after a Philippine Airlines DC3 ditched in shallow water off Negros Island at the opposite end of the Philippine island chain. Its 27 passengers and 3 crewmen all reached shore safely. The plane ran out of gas when weather prevented its scheduled landing at Zamboanga City on a flight from Manila.

The plane developed trouble about 3:45 a.m. when a racing engine on the left wing failed to respond. The propeller tore loose and ripped into the side of the plane. Rall ordered the passengers into the rear compartments and prepared to ditch.

"The left wing was burning all the way from 9,000 feet down," Rall said. "It took about five to seven minutes for the plane to get down to the water. The plane hit in a more or less landing position. It took not more than three minutes to evacuate everyone.

# Ike, Macmillan Will Review Air Base Pact

NEWPORT, R.I. (AP) — President Eisenhower and Britain's Prime Minister Harold Macmillan have agreed to review the Anglo-American agreement on U.S. air bases in Britain, the White House announced yesterday.

The review is being made with a view toward making "any possible improvements in coordination," presidential press secretary James C. Hagerty said.

The announcement came against the background of the bitter dispute between the United States and Soviet Union over the Soviets' shooting down of an American reconnaissance plane in the Arctic July 1. But Hagerty said he wanted to point out that Eisenhower and Macmillan brought up the matter of Anglo-American review before that plane incident occurred.

Hagerty announced that the review is being handled by the State Department and the British Embassy in Washington.

## 'Doomsday' Fails To Arrive on Schedule

COURMAYEUR, Italy (AP) — Dr. Elio Bianca's predicted world-shattering cataclysmic blast fizzled yesterday and doomsday failed to arrive as he had forecast.

But the bearded Milan pediatrician took the reversal philosophically. "Anybody," he said, "can make a mistake."

# Ikeda Takes Over Leadership Of Japan's Liberal-Democrats

TOKYO (AP) — Hayato Ikeda, an able and respected administrator but a question mark as a diplomat, yesterday took over from Nobusuke Kishi leadership of a bitterly divided liberal-Democratic party and prepared to step in as premier too.

The transfer of command from Kishi to Ikeda, remembered for the tough anti-inflation program which laid the foundation of Japan's postwar industrial boom, assured continuation of the basically pro-Western policies of the Japanese government.

An attack on Kishi by a knife-wielding ultranationalist at a victory celebration for Ikeda shocked the nation and marred the relief with which most of the country, tired of the anti-Kishi violent riots, welcomed the changeover.

Kishi was stabbed six times in the left thigh by Taisuka Aramaki, 65, who told police he only wanted to injure Kishi, not kill

him. The Premier was rushed to a hospital, where doctors took 30 stitches and predicted he would recover in 10 days.

Kishi, carrying out the first step of a promise made after seeing the new U.S.-Japan security pact come into force last month, resigned as president of the Liberal-Democratic party Thursday morning. In a party convention which followed, Ikeda, 60, defeated Mit-sujiro Ishii, candidate of an anti-Ikeda coalition, on the second ballot, 302-194.

—Food consumption studies show that families spend more money for meat and meat substitutes than any other major group of foods.
