

FRINK

## Frink To Study On Irish Grant

Dr. Orrin Frink, professor and head of the department of mathematics, has been awarded a grant for teaching and study in Ireland during the next academic year.

The grant has been made by An Bord Scolaireachtai Comhairle, which administers the Educational Exchange Program in Ireland. The program was inaugurated in 1958 and is similar to the Fulbright grants of the United States.

During his stay in Ireland from October 1960 to June 1961, Dr. Frink will give lectures and conduct seminars in mathematics for undergraduate and graduate students at University College, Dublin. He plans also to continue his research in lattice theory and topology.

A member of the faculty since 1928, Dr. Frink was named head of the mathematics department in 1949. He received three degrees from Columbia University, and before coming to Penn State taught at Princeton University, and was a National Research Fellow at Princeton and at the University of Chicago.

## Speedy Belgium Exit Asked; Matadi Taken

UNITED NATIONS, N.Y. (AP)—Ceylon and Tunisia asked the United Nations Security Council yesterday to call on Belgium to speed withdrawal of its military forces from the Congo.

The two nations representing the big Asian-African bloc at the U.N. made their request in a resolution introduced as the 11-nation Council resumed its debate on the crisis-gripped Congo.

The action was requested against a background of threats by the Soviet Union to send soldiers into the Congo, and a warning from the United States that it would take whatever steps necessary with other U.N. members to prevent Soviet intervention.

U.S. Secretary of State Christian A. Herter told reporters in Washington the Soviet Union was bluffing. He charged the Kremlin with deliberately trying to obstruct U.N. efforts to restore peace in the Congo.

The Soviet Union has introduced a resolution demanding that the Council put a three-day deadline on removal of Belgian forces. But most delegates believed the Soviet move would be defeated and the Tunisian-Ceylon resolution approved by at least eight votes.

The resolution asks all U.N. member states to refrain from any action that would impede restoration of law and order, or undermine the territorial integrity and political independence of the Congo.

It also called for speedy implementation of the resolution adopted by the Council a week ago demanding a Belgian troop exodus but setting no deadline, and authorizing Secretary General Dag Hammarskjold to send U.N. forces into the Congo.

MATADI, the Congo (AP) — A United Nations task force of Moroccan infantrymen took over control of this strategic port city from mutinous Congolese soldiers in a bloodless ceremony yesterday.

Tension persisted. Crowds of Congolese were still looting stores and villas in the European section, abandoned by its 2000 Belgian civilian residents. Armed deserters roved about.

But the American-trained Moroccans—only about 200 strong—won cooperation from many of the Congolese who had ousted their Belgian officers, fought off Belgian soldiers, paralyzed shipping, and frightened away all but a few of Matadi's white residents over the past 10 days.

A city of around 22,000 in normal times, Matadi is the Congo's chief port. It is on the lower Congo 180 miles down the river from Leopoldville, the capital, and 100 miles inland from the Atlantic.

The U.N. hope is to get supplies of food, oil and other necessities flowing again across its docks.

The light blue U.N. flag was hoisted next to the flag of the Congo over the abandoned European section.

## Quartet to Present 3rd Lecture-Recital

The Claremont String Quartet will compare the music of Arnold Schoenberg and Max Reger in their third lecture-recital of the summer at 8 tonight in the Hetzel Union assembly room.

Works of both these composers are scheduled to be played in later concerts by the Quartet.

Reger's Quartet No. 5 in F sharp minor, Opus 121 is part of the program for next Tuesday's concert. A string trio by Schoenberg is scheduled for the August 2 program.

The Quartet will also play excerpts from Schubert's Quartet in E flat major, Opus 125, No. 1 and Schumann's Quartet No. 1 in A minor, Opus 41, No. 1 in tonight's lecture-recital.

Strikes are illegal in Portugal.
