

Faculty Leaves

Stannard to Study At Medical School

Dr. Jerry W. Stannard, instructor in philosophy, has been granted a leave of absence from Sept. 15 to June 30, 1961.

Dr. Stannard has received an appointment to The Johns Hopkins Medical School for research in medical history.

He plans to study the history of early science, particularly Greek and Renaissance medical history.

Lindstrom to Research In Photosynthesis Field

Dr. Eugene S. Lindstrom, associate professor of bacteriology, has been granted a six-month leave of absence from Feb. 1 to July 31, 1961.

He plans to do research and study in the field of photosynthesis at the University of Minnesota, working with Dr. Albert Frankel and Dr. A. H. Brown.

Siegenthaler to Write On Speech and Hearing

Dr. Bruce M. Siegenthaler, associate professor of clinical speech, has been granted a leave of absence from Feb. 1 to June 30, 1961.

During this time he plans to do some professional writing on speech and hearing and to observe clinical audiology programs to compile material to incorporate into seminar course work.

Mourant Plans Research

Dr. John A. Mourant, professor of philosophy, has been granted a leave of absence from Feb. 1 to June 30, 1961.

He plans to do research on medieval philosophy and some writing on a text in logic.

Johnstone to Talk At Dublin Seminars

Dr. Henry W. Johnstone, Jr., associate professor of philosophy, has been granted a leave of absence from July 1 to June 30, 1961, to accept a Fulbright Award in Ireland.

Dr. Johnstone will lecture and conduct seminars in philosophy at Trinity College in Dublin.

Dr. Johnstone, who holds a bachelor's degree from Haverford College and a doctorate from Harvard University, has been a member of the University faculty since 1952.

Frink to Accompany Husband to Ireland

Dr. Aline H. Frink, associate professor of mathematics, has been granted a leave of absence from Sept. 1 to June 30, 1961.

Dr. Frink will accompany her husband, Dr. Orrin Frink, head of the department of mathematics, who has a grant for teaching and study in Ireland.

While there Mrs. Frink plans to continue translating a Russian book in mathematics and do some research in calculus of variations.

Mont Alto Instructor Awarded Scholarship

John Muench, Jr., instructor in forestry at the Mont Alto campus, has been awarded a scholarship to Duke University to work on his doctoral degree in forest economics.

Muench has been granted a leave of absence from Sept. 1 to June 30, 1961.

Griess Plans Research On Coal Mining Industry

Dr. Phyllis R. Griess, associate professor of geography, has been granted a leave of absence from Aug. 1, 1961, to Jan. 31, 1962.

She plans to continue her research on the Commonwealth's anthracite coal mining industry, collecting data on the physical, cultural and economic facets of the industry for construction of maps and geographic analysis.

She also plans to add to her list of publications on the mineral geography of Pennsylvania.

BREWER

New Professor Named Head Of El Ed Dept.

Dr. A. Madison Brewer, chairman of the department of elementary education at the University of Nebraska, has been named professor and head of the department of elementary education at the University.

He succeeds Dr. Charles M. Long who resigned as head of the department to accept a post as specialist in elementary education in the Education Division of the International Cooperation Administration in Washington, D.C.

Dr. Brewer, a native of Rosalia, Wash., is a graduate of Eastern Washington College and received his master of arts and doctor of education degrees, both in elementary education, at Colorado State College.

From 1946 until 1951, he was principal of the elementary school in Eastern Washington College, Cheyney, Wash., and for the past nine years has been on the faculty of the University of Nebraska.

He has done research in the area of language in the elementary school.

HUB Cardroom Displays Art From Ecuador

An exhibition of Ecuadorian school art, arranged by participants in the Latin America Education project at the University in commemoration of Ecuadorian Independence Day, Aug. 10, is on display in the cardroom of the Hetzel Union Building and will continue until Sept. 1.

Sponsors of the exhibition are professor Dora Canelos, director and teacher at the Manuela Garai-coa de Calderon Secondary School, Cuenca, Ecuador; Galo Chaves, inspector and teacher trainer in Imbabura Province.

Also Blanca Andrade, demonstration teacher at the Experimental Demonstration Center in Quito; and Eduardo Ordenez, provincial inspector of education in the Province of Guayas, Guayaquil. All are Ecuadorian participants in the Latin America Project on campus.

The brightly colored temperas represent religious themes and the everyday life of the Ecuadorian rural population as seen by girls attending the Colegio National Secondary School.

Louisiana was admitted to the union as a state in 1812. In this same year the first steamboat, coming down the Ohio and Mississippi Rivers from Pittsburgh reached New Orleans.

Grants Aid Mueller In Field Ion Study

The Office of Naval Research of the Department of the Navy has awarded a grant of \$25,000 to Dr. Erwin W. Mueller, research professor of physics, for research and improvement of design of the field ion microscope.

This is a continuation of support by this office of Dr. Mueller's research with the microscope which he invented.

The research is a more detailed investigation of the working principles of the microscope, which is used to study the atomic structures of materials.

Recent successful experiments at the University, he said, have increased the image intensity of the microscope by a factor of 50, and eventually he hopes to be able to observe and follow motion of dislocations in metal crystals on the atomic scale.

"Who owns the Electric Company?"

Did you know that some of our customers think we're owned by the city, or by the state? That just isn't so.

This is an independent business, owned by thousands of people. Men and women—farmers, bankers, housewives, people in all kinds of jobs. They invest their savings in the company. This helps it grow and serve you better.

That means you can be sure of plenty of electricity at a bargain price!

WEST PENN POWER
owned by people, not by government
