

ROTC UNIFORMS waiting to be issued to some lucky freshman to care for it lovingly as a mascot this fall.

## TV's Power Rejected By Manning

"I am a little fed up with the idea that a few tubes and a loud speaker have more power over a growing youngster than his father and mother, his ethical and/or religious advisors and his teachers at school," said David Manning White of Boston University at the journalism convention on campus Tuesday.

"To admit that the mass media are stronger than these basic units of society is to admit that there is something very wrong and lacking in parental roles and in our educational system," White said.

"Educators, parents, clergy and social scientists should sit with leaders of the media industries to plan research programs testing the effects of the mass media on American cultural patterns," he said.

"We are not going to descend like Carry Nation with axes and smash television set and juke boxes. But we are going to use the technical advancements in communications to enrich the cultural life of the majority of our people.

"It is high time to confront some of the Pontius Pilates of the media who would not be caught dead listening to the drivel their TV and radio stations emit, who would not soil their fingers on the semi-smut they publish, and who yawn so sincerely when they tell us that they are giving the public what it wants," he said.

## Myers Receives Public Health Grant

Even the presence of Prince the first graduate student in the College of Home Economics at the University to receive a U.S. Public Health Service study grant. The grant, which provides \$3000 plus tuition, will enable her to complete work on her master's degree in nutrition in public health, a program conducted jointly by the University and the Graduate School of Public Health at the University of Pittsburgh.

## Mass Media Guided--

(Continued from page one) ess of redefinition, advertising is using what used to be vices to sell. Faced with the competition of the news magazines, newspapers increased their departmental fields and began reporting in depth, giving past background, present action and future implication, she said.

Education reporting which has recently been called "the biggest boom in U.S. newspapers" requires that the new education writer have a strong liberal arts background and the ability to spot and evaluate news as a junior city editor, she said.

## Graham Gets Fellowship

Arthur H. Graham, a candidate for a doctor of philosophy degree in metallurgy from Jenkintown, has been awarded the General Electric Foundation fellowship in the department for the coming academic year.

## Faculty News

### Rosen Gets Grant To Study In Paris

Dr. Stanley H. Rosen, assistant professor of philosophy, has received a Fulbright research award which he will spend in Paris studying Hegelian and Marxist philosophies.

Dr. Rosen has been granted a leave of absence from the University from Sept. 1 to June 30, 1961.

In Paris he will study the nature of these two 19th century German philosophers with special attention to the differences between these and Western democratic political theory.

He will also travel to Rome to analyze the effects of Hegel and Marx on Western political theory. Italy was chosen because of its unique mixture of political theories and their current conflict.

### Teaching Grant Given To Faculty Members

A three-year grant to provide assistance to faculty members preparing for teaching careers in accounting has been awarded to the University by Haskins and Sells Foundation, Inc.

The University was one of a limited number of higher educational institutions in the country to receive the \$1,000 per year stipend.

A. Jay Hirsh, lecturer in accounting at the University, received the stipend for the first year.

### Prof Resumes Duties After Extended Leave

Arthur T. Thompson, professor of engineering research, has resumed his duties as associate director of the Ordinance Research Laboratory at the University after a two-year leave of absence.

During this period, he participated in the University of Chicago's Executive Program while serving in an administrative capacity in the Engineering and Research Division of Crane Company.

### Starr Accepts New Post

Muriel E. Starr, associate professor of home management in the College of Home Economics, has resigned to accept a position on the faculty at Kent State University, Kent, Ohio.

She has served on the Penn State faculty since 1948.

—The cabin of the bathyscaph "Trieste," which recently set a world's record by descending almost seven miles below the ocean's surface, is made of a high-strength nickel-chromium-molybdenum steel three and a half inches thick to protect it from the crushing effect of underwater pressures.

### Magazine Uses Jacobson's Article

Albert H. Jacobson, associate dean of the College of Engineering and Architecture, is the author of an article published in the May issue of The Pennsylvania Society of Professional Engineers.

Titled, "Engineering Education at the Pennsylvania State University," the article outlines briefly the history of the University and the College of Engineering and Architecture and the program currently offered in the field of engineering.

### Professor Retires After 33 Years

Edwin W. Zoller has retired from the faculty after 33 years of service and has been named professor emeritus of art.

He joined the faculty in 1956 and has been teaching painting. In 1958, he was named assistant director for the arts of the Center for Continuing Liberal Education. As such, he has helped plan study-discussion groups in the arts for adults throughout the state.

He is listed in "Who's Who in American Art," and "Who's Who in the East."

### Bortree Awarded Grant By Science Foundation

Dr. Alfred L. Bortree, professor and head of the department of veterinary science, has been awarded a National Science Foundation science faculty fellowship for twelve months of study and observation of teaching methods of physiology.

He will work at the University of California's College of Veterinary Medicine, Davis, Calif., and will conduct research on mastitis, a disease in dairy cattle affecting the mammary glands.

### \$51,762 Grant Provided For Materials Research

The Atomic Energy Commission has provided a grant of \$51,762 for high temperature materials research to be conducted at the University.

Of this amount, \$19,416 will be used for the development of a research program on the electrical properties of non-metallic materials at high temperatures.

The work will be under the direction of Dr. G. W. Brindley, head of the department of ceramic technology.

### Kinney Receives Grant

Dr. C. R. Kinney, professor of fuel technology, has received a grant of \$16,900 from the American Chemical Society's Petroleum Research Fund Advisory Board to conduct research on diacetylene polymers.

## Olympic Records Fall--

(Continued from page one) the old Olympic mark first set by Eddie Tolan in 1932 and equalled by Jesse Owens in 1936. Harrison Dillard in 1948 and Bobby Morrow and Ira Murchison in 1956.

The first three in each second round heat qualified for the semifinals and all three Americans came through. Sime was clocked in :10.3 behind Hary, Ray Norton of Oakland, Calif., finished third in his heat in :10.6 which was won by Horacio Esteves of Venezuela in :10.5. Frank Budd of Asbury Park, N.J., won his heat in :10.4.

This was the first day of track and field competition.

The hopes of Lt. Bob Beck of San Diego, Calif., of winning the individual modern pentathlon title were dashed when he faltered in the cross-country run and Ferenc Nementh of Hungary took the

crown with 5,024 points.

Erme Nagy, another Hungarian, was second with 4,988, followed by Beck with 4,981—a bronze medal the United States never expected to win.

Hungary took the pentathlon team title with 14,863 points followed by Russia with 14,309 and the United States with 14,174 for another bronze medal.

In the second round of the 800, with the first three in each heat qualifying for the semifinals, Tom Murphy of Brooklyn, N.Y., won his heat in a neat 1:48. Jerry Siebert of Willits, Calif., finished third in his heat in 1:51.3—it was won by P. Schmidt of Germany in 1:51.2, and Ernie Cunliffe of Claremont, Calif., did 1:49.7 to take second behind George Kerr of the British West Indies who did 1:49.4.

In the 400-meter hurdles, Dick Howard of Albuquerque, N.M., qualified with a second place in :51.2. Glenn Davis, of Columbus, Ohio, the defending champion, advanced with a second place in :52.2, and Cliff Cushman of Grand Forks, N.D., won his heat in :51.8.

The American girl hurdlers never had a chance against the swift Europeans. Irene Robertson of Inglewood, Calif., was fifth and last in her heat :11.6, won by Russia's famed Irina Press in :10.7, which equalled the Olympic record.

JoAnn Terry of Indianapolis, Ind., was fourth (:11.4) in the heat won by R. Kosheleva of Russia in :11.1. Shirley Growder of Atlanta, Ga., was fourth (:12.3) in the heat won by Germany's Z. Kepp in :10.9.

Even the presence of Prince Ranier of Monaco and Princess Grace could not spark the princess' brother to victory. In the double sculls, Jack Kelly of Philadelphia and Bill Knecht of Westmont, N.J., finished well back. Princess Grace once was just plain Grace Kelly.

Navy's highly regarded eight oared shell went down to defeat in its heat.

### Hurlburt Wins Award In Ag Society Contest

Joseph C. Hurlburt, senior in agriculture engineering from Ashley Falls, Mass., placed second in a national student paper competition sponsored by the American Society of Agricultural Engineers.

The subject of his paper was "Telescopic Wagon Tongues."

The award consists of an all-expense paid trip to the national meeting of the American Society of Agricultural Engineers in Columbus, Ohio, plus \$50 in cash.

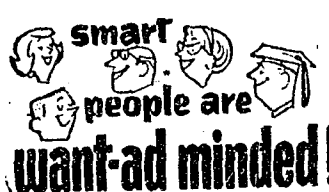

### Congress Yields--

(Continued from page three) money bill covering a variety of federal functions.

But the House's conferees flatly refused Tuesday to accept any of the 191 million, and appealed to the House to back them up.

Both Democratic and Republican House leaders urged a partial restoration of the funds, and by a 203-193 vote the House agreed to accept another 65 million dollars for defense support. This is economic aid to enable allies to maintain a military effort.
