

Walker Will Address Chambers of Commerce

President Eric A. Walker will address the annual meeting of the Pennsylvania State Chamber of Commerce Oct. 5 in Harrisburg. He will join with Dr. Walter C. Langsam, president of the University of Cincinnati, in a discussion of how our colleges can meet the new manpower requirements and also cope with the enrollment upsurge.

Skipping Fresh--

(Continued from page one) are responsible only for the actions enumerated in those sacred pages—anything else is considered hazing and should be brought to the notice of the Freshman Customs Board.

Violators can be reported to the Board by means of an official form available at the Hetzel Union main desk.

Car Accident--

(Continued from page one) right rear of the Edens vehicle and knocked it over onto the center of the highway into the Folino car, state police reported.

The total damages, including personal injuries, was estimated at \$4775.

The Folino car and the Edens car were damaged beyond repair. Loss to the Bumbarger car was estimated at \$75.

Nephew Seen Nominated

(Continued from page five) tempt to make them more acceptable to edibility "so we'll eat them not just because they're good for us."

The candidate's mother, he said, is proud but, "motherly-like," fearful as well. She appreciates what her son has to go through. "It's like a mother sending her son to the moon—he might not get back."

Collegian Open House

An open house will be held from 7 to 9 p.m. tomorrow in the basement of Carnegie for all new students interested in joining the news staff of The Daily Collegian.

WDFM Meeting Tonight

A meeting for all students interested in working on the WDFM staffs will be held at 8 tonight in 121 Sparks. A tour of the station will follow the meeting.

**RCA, builder of Tiros Satellite,
needs young engineers today
for spectacular achievements tomorrow**

Tiros has broadened man's scope of the heavens and earth. From an orbiting observation post high in the sky, it transmits a new wealth of meteorological information to earth-bound stations below.

Tiros is only one of many RCA successes in the wide, wide world of electronics. And as the horizons of electronics steadily expand, the need for more and more competent and creative engineers increases in direct ratio. That's why RCA, now in the forefront of electronic progress, offers such tremendous opportunities for Electrical Engineers, Mechanical Engineers, and Physicists.

If you already know what you want to do in engineering . . . and are qualified, RCA can offer you direct assignments in your chosen field, and back you up with training and guidance by experienced engineers.

If you're not quite sure which direction you want to go . . . RCA's Design and Development Specialized Training will help to point the way. You'll receive full engineering salary while you progress

through engineering assignments that give you a clear picture of various fields you might choose.

Or, if you'd like to continue your graduate study . . . RCA will pay full cost—tuition, fees and approved text—while you go to school or study two days a week, and work at RCA three days.

These are only a few of the many reasons for getting all the facts about a career with RCA. See your placement officer now about getting together with an RCA representative, for an interview on:

OCTOBER 18

Or, send your résumé to:
