

Committee to Probe TV Tape Education

If a professor in California could teach a course in Pennsylvania, Texas and London at the same time he would not only be defying several physical laws, he would be on video tape!

Leslie P. Greenhill, associate director of the division of academic research and services, was recently named to a committee which will be investigating just this idea.

The University of Nebraska, operating with a grant from the United States Office of Education and the National Defense Education Act, has set up this committee to determine the possibilities of using video tape for educational television.

The main function of the committee, according to Greenhill, is to coordinate the existing knowledge in this very new and challenging field. He will be making contact with the major universities in the north-eastern part of the nation to get opinions and suggestions on the possibilities of taping and circulating courses.

Some of the existing possibilities include an exchange among universities of courses given by outstanding professors. A university concentrating effort on a particular course could make that course widely available.

All is not clear sailing, or viewing, however as there are several problems attached to such exchanges. The cost of equipment necessary to the filming and showing of video tape can run to \$60,000, Greenhill said. The question also arises as to how much an institution would be willing to pay for tapes from other schools. Greenhill suggested that circuit system including several schools might lower the cost.

Among the possibilities for one single school would be the taping of a course given in the morning for showing that evening in another section of the course.

Henisch to Speak in MI

"Electroluminescence" will be the subject for the joint Mineral Industries and Chemistry and Physics colloquium to be held at 4:15 p.m. tomorrow in 26 Mineral Sciences.

The speaker will be Dr. Heinz K. Henisch, lecturer at Reading University.

Group to Hold Folk Dance

"Fun with Vyts," an evening of folk dancing, will be sponsored by the Interlandia Folk Dancers from 7 to 11 p.m. tomorrow in the ballroom of the Hetzel Union building.

Vyts Beliajus, a noted folk dancer, will lead the group.

In addition to the Friday evening session, a workshop of advanced dancing is planned for Saturday morning. Further details will be announced tomorrow night.

Interlandia Folk Dancers provide regularly folk dancing sessions for students and faculty members.

Wood Utilization Prof

Wayne K. Murphey has been named assistant professor of wood utilization to fill the vacancy created by the resignation of Dr. William T. Nearn. Nearn has joined the research and development division of Weyhaeuser Co., Seattle, Wash.

Murphey graduated from the University in 1952. He has since worked at Koppers Co. Inc. and the Ohio Agricultural Experiment Station.

Radio Operators

All new students holding an amateur radio operator license may join the Penn State Amateur Radio Club and work with the University radio station W3YA.

Interested students may contact Gilbert L. Crossley, assistant professor of electrical engineering, in 102 Sackett at the Department of Engineering.

Joining the club or staff is not limited to students in the College of Engineering and Architecture, but is open to any student, faculty member or employee of the University holding an amateur operator license.

SGA Committee Forms Now Available at HUB

Applications for Student Government Association committees may be picked up at the Hetzel Union desk.

The committees are secretariat, evaluation, academic affairs, encampment, election commission, public relations, dean of men's coffee hours, university development, junior year abroad, commonwealth campus integration, library expansion, traffic code investigation, high school speakers, insurance, charter flight and transportation commission.

Glennland Pool Weekday Schedules Announced

The Glennland Pool will be open for men Monday through Friday from 4:15 to 5:15 p.m.

On Monday evenings from 7:00 to 9:30 there will be a mixed swim for faculty, staff and student couples.

A free swim will be held for men students on Friday evenings from 7:00 to 9:30.

—Because of its strength, durability and corrosion resistance, nickel silver, an alloy of nickel, copper and zinc, is used for the keys of better grade clarinets and other wind musical instruments.

NITANY
BEGINS FRIDAY
THE CRITICS GO WILDE!

"WE RECOMMEND IT... It is a taut and tempestuous performance that Mr. Morley and Sir Ralph put on, estimating the terrible shock of extinction that came with the courtroom humiliation of Wilde!"
—Crowther, N.Y. Times

OSCAR WILDE
"A MOST DISTINGUISHED MOTION PICTURE!"

Some of the most scintillating writing in the English language, a superbly integrated dramatic script, skilled and tasteful direction, and a magnificent performance by Robert Morley!"
—Zunser, Cue Magazine

OSCAR WILDE
"MIRACULOUSLY RIGHT PERFORMANCE OF ROBERT MORLEY
Sir Ralph Richardson is masterful. There has never been any doubt that Morley represents the happiest incarnation of Oscar Wilde in modern times — the resemblance is almost uncanny."
—Archer Winsten, New York Post
