

Tito Tries to Play Role As East-West Bridge

UNITED NATIONS, N.Y. (AP)—President Tito of Yugoslavia seeking to act as a bridge between East and West, urged the so-called neutral nations to play a key role in keeping mankind from plunging into World War III.

Tito addressed the U.N. General Assembly yesterday in advance of private conferences with President Eisenhower and Soviet Premier Nikita Khrushchev.

Moon Rocket May Be Fired Within 4 Days

CAPE CANAVERAL, Fla. (AP)—The moon moved into a favorable position as a target yesterday and a powerful U.S. rocket is poised for an attempt to launch the first lunar satellite.

A towering Atlas-Able rocket stands on its pad here, awaiting the signal to blast off on the exacting task of propelling the satellite deep into space and guiding it into orbit about the moon, some 230,000 miles away.

The 388-pound payload, called Pioneer VI, is crammed with instruments designed to send back more information about the moon's environment than any previous space probe.

The most favorable launching time is a five-day period starting yesterday. The chance of success in this period is greater because the paths of the earth and moon will be most closely aligned as they orbit around the sun—and the sun therefore is not in a position to distort the course of the rocket by its pull of gravity.

U.S. Plane Crashes

NAHA, Okinawa (AP)—A four-engine U.S. Marine transport crashed into the Pacific yesterday with 29 persons aboard. Ships and planes in the crash area 180 miles south-southeast of Okinawa found no sign of survivors.

Terrorist's Stray Bullet Kills Girl

NEW YORK (AP)—A 9-year-old girl, a sightseer from Venezuela, yesterday became the first victim of political terrorists, who have scourged New York with the advent of the United Nations General Assembly. She died of a stray bullet's wound, inflicted during a restaurant brawl by pro-Castro Cuban hoodlums.

The child was Magdalena Urdaneto of Caracas, shot in the back as she lunched with her parents Wednesday in the El Prado Restaurant on Eighth Avenue in the 60s.

A gang of Castro sympathizers invaded the cafe to beat up a band of five demonstrators opposed to the Cuban regime of Prime Minister Fidel Castro, who is here for the U.N. meeting. A barroom brawl ensued and shots were fired by the pro-Castro group, who outnumbered their rivals three to one.

Despite this evidence of the lethal tension induced by the presence here of bitterly controversial heads of alien states, Soviet Prime Minister Nikita Khrushchev continued to complain about government limitation that confines him to Manhattan as a security measure.

State Rehires 10 Formerly Fired

HARRISBURG (AP)—The State Revenue Department has re-hired 10 employes dismissed from their civil service jobs because of political activity.

Revenue Secretary Charles M. Dougherty said yesterday the group was put on the non-civil service payroll in the department.

They were dismissed from their civil service posts as a result of a ruling by Atty. Gen. Anne X. Alpern last week that no civil service employe could take part in any type of political activity.

Macmillan to Fly To U.N. Assembly

UNITED NATIONS, N.Y. (AP)—The decision of Britain's Prime Minister Harold Macmillan to fly to New York Sunday will bring into the U.N. General Assembly arena three of the four principals of the mid-May summit fiasco in Paris. But chances of a big power summit conference were dim Thursday night.

"The prime minister has absolutely no intention of going in for a summitry on this occasion," a British delegation spokesman told reporters. Macmillan was prime promoter of the Paris session.

Tito met informally with Khrushchev before the Assembly opened, but the private huddles were arranged for later. Tito took the rostrum just after Eisenhower.

The leader of the Communist nation which has split with the rest of the Soviet bloc on Marxist doctrine, stated his case.

"We have not come here to heap more oil upon the fire, or to side with any of the extreme attitudes that may reflect present tense international relations," he said.

"We have come with a desire, above all to contribute as much as possible to the easing of world tensions and to express our belief that the eleventh hour has struck to embark upon a new, constructive course in international relations."

The leader of the Communist nation which has split with the rest of the Soviet bloc on Marxist doctrine, stated his case.
