

Weston Featured In Photo Exhibit

An exhibition of 100 black and white photographs by Edward Weston opens today in the gallery of the Hetzel Union building. The exhibit, entitled "The World of Edward Weston," will continue until Oct. 12.

Edward Weston's work has influenced a generation of photographers. His photographs have been widely published both here and abroad and have been the subject of six books and many articles. Weston was the first photographer to be awarded a Guggenheim Fellowship, and the only one about whom the U.S. State Department has made a film which is circulated abroad.

The photographs in the exhibition include both the early and recent work of his 50-year career. They range from his angular experiments of the early 20's to the powerful portrait heads done in Mexico. Included also are his close-ups of shells, rocks and vegetables and his studies of the American scene.

Weston's photographs reflect his desire to present "the stark beauty that a lens can so exactly render, presented without interference of 'artistic effect.'" In his journal he states his wish to show "honesty unembellished — first conceptions coming straight through unadulterated — no suggestion, no allegiance to any other medium."

To Weston, the "thing itself" was most important. His many photographs of nature reflect his opinion that "through the lens one is prone to approach nature with a desire to learn from, rather than impose upon, so that a photograph done in this spirit is not an interpretation, a biased opinion of what nature should be, but a revelation . . ."

Camera enthusiasts will be interested to know that Weston used very simple equipment — an 8"x10" view camera and a 4"x5" Graflex for portraits.

The HUB exhibition is sponsored by the School of the Arts and is circulated by the Smithsonian Institution Traveling Exhibition Service.

Debate Meetings Set

All women students who are interested in intercollegiate debate may attend informal meetings next week.

Upperclassmen will meet at 7 p.m. Monday in 2 Sparks. Freshmen will meet at 7 p.m. Wednesday in 2 Sparks.

FROTH APOLOGIZES..

We sold out and left some subscription holders holding their tickets.

Please accept our apologies and a twenty-five cent piece at the HUB desk instead of your mag.

Next month we'll print more, insuring everyone of a copy of Penn State's most sought after Lemon-substitute.

To all of our readers we smile out a great big thank-you for the terrific reception you've given us.

Stu Barmen,
FROTH
business manager

Smith Named Prof Of Naval Science

Col. Robert E. Smith, Jr., a Marine Corps officer, has been named professor of naval science at the University, succeeding Capt. John P. Roach, who has been named chief of staff of the Fourth Naval District in Philadelphia.

A native of Atlanta, Ga., Colonel Smith attended Boys' High School there and received his bachelor of science degree at the University of Georgia.

Immediately following his graduation in 1941, he received a reserve commission in the U.S. Army and was assigned to the 3d Cavalry Brigade at Ft. Riley, Kans. Shortly thereafter, he received an appointment as a regular officer in the U.S. Marine Corps and in 1946 was designated a Naval aviator.

He completed the basic school at the Marine Barracks, Philadelphia Navy Yard, and reported for two years of sea duty aboard the battleship, New Mexico, serving in the South Pacific during World War II.

Greek Groups To Enter Sing By 7 Tonight

Groups wishing to enter the annual IFC-Panhellenic Sing will have until 7 p.m. today to submit their names, Polly Berge, IFC Sing committee co-chairman said last night.

So far only nine sororities and eight fraternities have entered the sing, she said. Five sororities and five fraternities have entered the quartet division.

Both fraternity and sorority groups will sing one required number and a selected number. The required song for the fraternities is "Shenandoah" and must be sung without accompaniment. The sorority required number, also to be sung unaccompanied, is "Green Cathedral."

Contest preliminaries will be held at 8:30 p.m. Oct. 16 and 17. Four fraternity and four sorority finalists will be selected to compete in the sing finals at 8 p.m. Friday, Oct. 21.

The quartet preliminaries will also be held on Oct. 16 and 17. Male quartet entries will compete on the night of the sorority preliminaries and vice versa. Entrants may sing any one song as long as it is in good taste, is in barber shop harmony and adheres to a 3-minute time limit. The quartet finals will also be Oct. 21.

TOWN HOUSE

You are invited to our house, the TOWN HOUSE, for a TGIF session from 4 to 6 p.m. 9:30 to 12:30 p.m.

Dairy Scientists Study New Type of Silage

Dairy scientists at the University have announced that they are investigating the feasibility of using a new type of silage, designated "haylage".

Recent research has indicated that the partially dried silage, when stored in gas-tight silos, may keep better and be more nutritious than high moisture silage.

Incorrect Book Refunds

The Used Book Agency will give refunds for incorrect books purchased during the past week from 9 a.m. to 5 p.m. today in the card room of the Hetzel Union building. Refunds will continue from 9 a.m. to 11 a.m. tomorrow.

Hosler Presents Paper At Bristol University

Dr. Charles L. Hosler, professor of meteorology, presented an invited paper at the discussions of the Faraday Society on Sept. 13 at Bristol University, Bristol, England.

The topic for the meetings was "The Physical Chemistry of Atmospheric Aerosols."

Hosler's paper was titled "The Aggregation of Small Ice Crystals."

WDFM to Hold Auditions

All students interested in announcing for WDFM, the campus radio station, may audition at 1 p.m. tomorrow in 304 Sparks.
