

Parking Regulations Changed for Game

Changes will be made in the routing of traffic on campus before and after Saturday's football game with Missouri in an effort to eliminate congestion and speed cars to and from parking areas.

Walter W. Trainer, chairman of the University stadium traffic committee, said that one of the major revisions in the traffic pattern will be the direction of Park Ave. traffic east to reserved parking areas over the stone road known as "Farm Road" north of the stadium. Approach to red, yellow and green areas will be possible via this road.

After turning onto Park Ave. parking permit holders should stay in the left lane of the two-lane eastbound traffic in order to get into the proper parking area at the stadium.

The other route for reserved parking permit holders is the use of E. Foster Ave. and the new University Dr. This is for red and green parking permit holders. There is NO access to unreserved areas along this route.

Cars approaching the black or unreserved parking areas will use Shortlidge and Curtin Rds., except those on Park Ave. which will continue on University Dr. to the entrance from the drive.

Cars approaching from the west and wishing to go to unreserved parking lots are advised to remain on E. College Ave. until reaching Shortlidge Rd. at which point they should turn north to Curtin Rd. Those attempting to reach the yellow parking area will use the same route.

University officials remind fans that a charge is made for parking in all areas near the stadium, including the unreserved areas west of University Dr. The red and green areas east of University Dr. are spaces reserved in advance.

Collegian Retracts Report on AIM

The Collegian wishes to correct statements made in yesterday's paper concerning the meeting of the Association of Independent Men.

AIM is still operating under its constitution. The constitution was not suspended for 30 days as reported. The motion to suspend the constitution, proposed by Barry Rein, vice president of AIM, was defeated by a 10 to 6 vote with seven members abstaining.

Another motion proposed by Philip Haines, president of the Town Independent Men, for the establishment of an Independent Students Association with equal representation from AIM, TIM and Leonides was passed. It was not defeated as was reported.

Our sincere apologies go to Mr. Rein, Mr. Haines, AIM and TIM.

Dealers May Sign Up For Las Vegas Night

Dealers for Las Vegas Night, the night the Hetzel Union Building becomes a mock gambling casino, may sign up now in the Town Independent Men's office, 203-G HUB.

The first 70 to apply will be accepted, according to Frank Jankosky, TIM parliamentarian.

Las Vegas Night, sponsored by TIM and Leonides, will be held Oct. 15.

Monitor System Enforces Regulations in Library

A monitor system to encourage students to maintain quiet in the Pattee Library has been established, Ralph W. McComb, University librarian, announced today. Monitors will be present to enforce library regulations on weekday evenings from 7 to 9 p.m. and on weekend afternoons and evenings.

The monitor system will be on a trial basis for one month, in an effort to improve studying conditions. It will not be continued if students make a voluntary effort to lessen the noise themselves, McComb said.

"The monitor should not be necessary," he said, "and she will not be necessary if students get in the habit of recognizing the library as a place to study."

He said that absolute silence was not the goal, but instead that students should establish a tradition of reasonable quiet while in

the library. The problem of noise in the library has long been an issue. The acoustical tiles on the ceilings of the reading rooms cut down part of the noise, he said, but the sound of students' conversations especially those who congregated in lobby and on the stairs are disturbing to those interested in serious study.

The present monitors will try to remind students of regulations rather than act as disciplinarians. "I am sorry that the monitor system is necessary," said Mrs. Margaret K. Spangler, assistant librarian, "since the HUB and the lounges in the dorms are available for social activity."

In Effect Today Customs to Stay

Dinks and namecards will be in evidence today as freshmen continue to participate in Customs.

The rainy weather yesterday tended to deaden the spirit, but upperclassmen are urged by the Customs Board to keep the "frosh" on their toes and report all violators to the board.

Freshmen are reminded that they are required to wear their customs to the game tomorrow with Missouri. In this way the Class of '64 can show that they are behind the team.

The Customs Board will meet on Sunday.

—Cleaning nickel stainless steel is as easy as washing china or glassware—soap or detergent in warm water will wash it quickly without the need for subsequent polishing.
