Wes Roberts can tell you:

"THERE'S NO CEILING FOR A SELF-STARTER IN THE TELEPHONE BUSINESS"

When Wes Roberts was nearing the end of his senior year at San Jose State College, he was looking for a job with a wide open future. He found it when he joined Pacific Telephone in San Francisco.

Here's how Wes tells it: "I remember one of my first jobs. The boss said, 'Wes, I want you to work out a plan showing where we'll need new field operating centers to keep up with Northern California's growth over the next 10 years.' I didn't know whether I was more happy or scared."

Wes didn't tell us (but his boss did) that he handled the report like a pro. And today, as a

division supervisor, he's holding down a key telephone job.

Wes Roberts' story is not unique in the Bell Telephone Companies. The telephone business is growing fast—and men are needed who can grow just as fast.

Wes can tell you: "We get good training. But no one nurses you along. We hire managers—not errand boys. So far as I can see, there's no ceiling for a self-starter in this business."

If you're a guy like Wes Roberts—if you like to bite off more than you can chew and then chew it—you'll want to visit your Placement Office for literature and additional information.

"Our number one aim is to have in all management jobs the most vital, intelligent, positive and imaginative men we can possibly find."

FREDERICK R. KAPPEL, President American Telephone & Telegraph Co.
