

# Points Will Determine Greek Week Winners

The Interfraternity-Panhellenic Sing Contest will carry the most points toward the over-all Greek Week trophy according to the point schedule released last night by Jack Anthony, Greek Week co-chairman.

Greek Week will begin Sunday and last through Oct. 25.

Both a first and a second place over-all Greek Week trophy will be awarded to the

## Dean's Talk To Concern Near East

Frederick R. Matson, archaeologist and assistant dean for research in the College of the Liberal Arts, has just returned from 4 months in the Near East and will speak at the weekly forestry convocation at 11 a.m. Wednesday in 121 Sparks.

Matson's topic will be "The Present Is the Past." His lecture will center around the idea that an understanding of current village life in the Near East is helpful in studying village life in ancient times. His recent work in the Near East included archaeological excavations in Iran and visits to excavation sites in Afghanistan.

Familiar with the Near East, Matson previously excavated a temple and theatre at Seleucia-on-the-Tigris in Iraq. He has also worked at one of the earliest village sites known in Iraq, the area of Kurdistan, near the oil fields of Jarmo.

Radiocarbon dating field work has taken Dr. Matson to Turkey, Syria, Lebanon, Jordan, Egypt and Iraq to collect samples. He has visited major archaeological sites in Egypt, Greece, Italy, France and England.

### Language Examinations To Be Given Nov. 7-8

The regular written foreign examinations are scheduled for Monday, Nov. 7. The German examination will be held in 100 Weaver, French and Spanish in 112 Buckhout and English in 205 Sparks.

The conflict examination in French or Spanish will be held at 7 p.m. Tuesday, Nov. 8, in 121 Sparks.

groups which accumulate the greatest number of points for the various events. The over-all trophies will be presented at the IFC-Panhel Banquet Oct. 25.

In the Sing Contest, 40 points will be awarded for a first place, 30 for second and 20 for third in both the sorority and fraternity divisions. The Quartet Contest will carry 20, 15 and 10 points for the winners.

Bridge Tournament winners will receive 20, 15 and 10 points for their groups, and the Poster Contest will award 20, 15 and 10 points for winners of this event.

The winners of the Outstanding Pledge Award will receive five more points for their respective groups.

Ten points will be given to each group entering the Sing Contest and five points will be given to each group entering the quartet, bridge and poster contests.

Five points will be given for having representation at the Outstanding Pledge Banquet.

Five points will be given to each group having full representation (chapter president and alumni advisor) at the IFC-Panhellenic Banquet.

Twenty points will be given to those groups with 25 per cent of their total membership (not including those student-teaching) taking part in the work projects. Ten points will be given to those groups with less than 25 per cent of their membership participating in the projects.

This year, five points will be given to those groups with 50 per cent of their total membership (again excluding student-teachers) taking part in the exchange dinners. An additional five points will be given those groups entering the window displaying event.

All sororities and fraternities have been reminded that no one on academic probation may participate in any part of Greek Week except exchange dinners, or their group will be ineligible for prizes or points, said Anthony.

Two changes in the previously (Continued on page twelve)

## Shorts, Slacks Create Problem In Dining Halls

Did you see the girl that came to dinner last night and was sent out of the dining hall? Did you see what she wore? Yes, bermuda shorts!

Certain dress patterns have been set for dining halls and have recently been abused, according to Mrs. Jewell C. Field, residence community coordinator for the West Halls area.

Women are to wear skirts or similar attire for the evening meal Monday through Saturday and for the noon meal on Sunday, she said. At other times bermuda shorts, slacks and kilts are acceptable.

At no time are gym suits, sweat shirts or pin curls to be worn in the dining area.

Line hopping is another dining hall problem which has arisen. No one, with the exception of a staff member, is permitted to cut into a line. Students who do this are subject to disciplinary action, Mrs. Field said.

All rules for residence and dining hall dress and conduct are to be found in "The Penn State Woman," she said.

### Proske Granted Award

Joseph Proske, a candidate for a master of science degree in metallurgy from DuBois, holds the Stackpole Fellowship in metallurgy for the current academic year.

The \$400 fellowship is provided annually by the Stackpole Carbon Co., St. Mary's. Proske received a bachelor's and a master's degree from the University.

# Automatic Packer Helps Poultrymen

Do you like fresh, really fresh eggs in the morning?

A fast way to get those fresh eggs to you untouched by human hands has just been developed on campus.

The agricultural engineers have designed an egg packer to do packing processes automatically which formerly had to

be done by hand. Large-scale egg packers have been on the market for several years, but the new packer is designed for the small poultry farmer, operating a farrm of about 10,000 birds.

It will pack approximately 2500 eggs per hour, putting them in shipping-case flats or in one-dozen egg cartons, thus saving time and labor for the poultrymen.

The packer consists of three parts — an orienter which turns the eggs so the small ends face downward, a metering element that lets eggs out of a channel one at a time and deposits them in packing compartments, and a flat indexing mechanism which moves the egg-case flat forward when it has been filled.

In addition to the packer, the agricultural engineers have developed an elevator used to convey eggs mechanically from one level to another in a multi-storied poultry house. Both devices were demonstrated for the first time

at the North Eastern Poultry Producers' Council Exposition recently held in Syracuse, N.Y.

Development of the new equipment was made possible by a three-year grant-in-aid of \$3600 per year from the Co-operative Grange League Federation, Inc.

Howard D. Barrett, associate professor of agricultural engineering, was in charge of the project. He was aided by David Beppler, instructor in agricultural engineering, and William B. Crawford, graduate student in agricultural engineering from Athens, Ga.

### Rindone to Chair Meeting

Dr. Guy Rindone, assistant professor of ceramic technology, is serving as chairman of the annual fall meeting of the Glass Division of the American Ceramic Society in Bedford Springs.
