TO THE EDITOR: On October

16-18 the 11 student fellowships

affiliated with the U.C.A. are

sponsoring a series on "Chris-tianity and Politics." It is the

purpose of this series to have

the entire student body share

with the fellowships in our

search for the relationships be-

tween our Christian faith and

Objections have been raised

to our programs on the grounds

that our principal speakers are

both members of the Demo-

eratic party and that our pro-

gram will be conducted in such

a way that the Democratic

views and issues will be the

main content of the program.

Rev. Herhold and Rev. Cox are theologians representing

differing traditions. The pro-

gram will be conducted on a theological level with their

party feelings not being

brought into the addresses they

will give. On Tuesday evening when we may give examples of de-cisions officeholders have had

to make, we are attempting to

have representatives of both parties on the panel. We hope

that this program can bring to

the student's some new under-

standing of the problems met

in relating two seemingly di-

politics.

Editorial Opinion

Convenient Opportunity

Students who are eligible to vote in this year's crucial national elections should take advantage of the absentee ballot provided for the first time for college students in Pennsylvania.

Only two weeks remain for students to exercise their voting right through this convenient means. Applications must be filed with the home county elections board by Nov. 1. But to receive this application in the first place a student must send a request to the Chief Clerk of his county board.

The time is drawing short for this double exchange of mail.

Registered students of voting age cannot afford to let this opportunity slip past. In the presidential race the accent is on youth. At the polls the accent should also be on youth.

The leaders elected next month will be called upon to make grave decisions on both foreign and domestic policy in the next four years. But the consequences of these decisions, good or bad, will have to be born by the citizens.

The students who are of voting age, for the most part, are seniors or graduates, which means that sometime within this 4-year period they will be assuming the full responsibility of citizenship.

College students are some of the best informed citizens in the country, and if they are going to have to bear the effects of November's election, they should certainly add their voice to determining their fate.

This is one time when college students must shake off their most noted characteristic-apathy-and take advantage of this convenient opportunity to share in shaping their country's destiny.

'It Matters Not That ...'

We wonder where all the enthusiastic Penn State football fans were on Saturday night when the football team arrived at Rec Hall.

Enough of them made enough noise the day that we beat Army. But it took frantic calls and urgings by a few interested student fans to get even a small welcoming committee there Saturday.

Was the team's great play in vain just because it is recorded in the lost column rather than the won?

Another View of Spirit

TO THE EDITOR: I have New York State license plates on my car; I also have Penn State parking stickers adjacent to the license plates.

Friday at 12:45 a.m. while returning my date to her dorm I was accosted by a group of stick bearing juvenile delinquents on the road near McKee Hall. Luckily I escaped unscathed as did these children who were playing in the street.

If these children are immature enough to play their rahrah games under the administration's auspices, let the latter also give them a safe place to play. We can tolerate this "school spirit" and its juvenile noises, dirt, and other minor implications as long as it endangers neither persons nor property.

Don't worry, boys, the team will do just as well if you don't "help" them by making asses of yourselves.

old enough to know what to do with their free time. This school spirit junk is complete idiotic nonsense.

Why doesn't Dean Simes or-

ganize his little boys into nice

safe lynch mobs, if they aren't

What are they trying to prove by their obnoxious display? Aren't college students mature enough to be quietly proud of their school without being clowns and buffoons?

Can't Penn State be put on the map by its athletic, intellectual, social and cultural achievements without flying paper, honking horns, and screaming juveniles?

If students are to be ad-mitted to this institution of higher learning, let them show that they belong here by being somewhat adult, by using their time to advantage, and by controlling their emotions.

-Robert Cordover, '62

Extra \$2 Fee Protested

TO THE EDITOR: On September 11, 1960, I entered Penn State. During the following week, · Orientation Week, I went to all of my scheduled meetings and fulfilled all ob-

ligations. The next few weeks passed rapidly with no incident; however, on Thursday, October 6, I received a little yellow post card which implied that I had failed to complete my TB test in the dispensary.

I immediately checked into the situation and found that they had no record of my test. I know that I met all obligations concerning this test.

When the nurse asked me to repeat the test, I was willing to sacrifice my time for the sake of their poorly kept records; however, when she demanded two dollars for this so called service, I felt put out. In my opinion and in the opinion

of many others this is unfair. I agreed to take the second test, but I did not pay the two dollars. When I returned two days later for the reading, I was given the CHOICE of paying or having my name sent to the Dean of Men's office for disciplinary action.

Because I did not have the time to waste here or at the Dean's office, I was forced to part with this small but large sum

Why are such forceful methods used to cover up this type of mistake? Is there any reason why I should be FORCED to pay for their mistakes? Is the dispensary using some new method to extract money from the student population, or was it simply an honest mistake on the part of the nurse?

If the latter case is correct, I think I deserve an apology and the return of my two dollars. David Wetzel '64

Beware Fake Froth Photogs

TO THE EDITOR: Two known incidents in two years make this warning necessary for the benefit of coeds who have hid-

den Froth girl desires. At least two shutterbugs have used FROTH as their means of approach in order to take pictures of some of our campus queens and their connection with FROTH went no further than the transfer of a

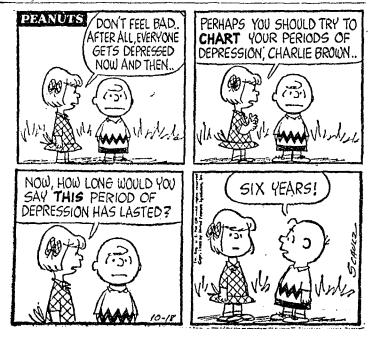

quarter for a magazine. They were NOT our photographers. Their intentions were NOT necessarily honorable (as FROTH'S always are). The solution for this bit of delusion is a simple one.

We have only two photographers, at present, who do Froth girl work for us. They are Bill Jackson and Carl Bodek and their matriculation cards will prove this to any girl approached for the purpose of becoming a Frothgirl.

If this is not sufficient, then a call to the editor will clear up any further doubts, I would earnestly suggest that any girl spoken to, be a mite bit cau-tious about accepting the first photog who comes along. FROTH respects its girls . . . don't be taken in more ways. Dale Peters, Froth editor, '61

TO THE EDITOR: Tonight (Saturday) a great football team returned from a well fought battle with Syracuse to a dismal reception from those who have the unmitigated crust to call themselves students of

Get Behind That Team

this institution. The 2.5% of the student body who appeared could have used the support of the other 97.5% to welcome OUR TEAM home.

"Everybody likes a winner

but who likes a loser," seems to be the attitude of our team's "SUPPORTERS(?)". After all, THEY did not hammer their guts out against a tough Syracuse team only to be robbed of victory by lady luck.

This Saturday we will play Illinois, so let's stay true to form and cheer them before, cheer if they win, and forget them if they lose.
