

Khrushchev Claims Reds Have Nuclear Submarines

MOSCOW (AP)—The Soviet Union, like the United States, has rocket-carrying nuclear submarines, Soviet Premier Khrushchev said yesterday.

Khrushchev made his first public challenge to U.S. claims of a monopoly in nuclear submarine construction near the end of a wide-ranging, two-hour and 20-minute speech before 15,000 cheering Moscovites.

Nixon, Kennedy End Debates On TV Tonight

NEW YORK (AP) — The fourth radio-television debate between the two major presidential candidates will be limited to one hour tonight.

The debate will go on the air at 9 p.m. Eastern Standard Time. It will be broadcast and televised by ABC, NBC and CBS, and broadcast by the Mutual network.

On the air, Nixon will stand on the left and Kennedy on the right of a foot-high stage, each provided with a podium and stool.

They will face a panel of four radio-television newscasters — John Edwards of ABC, Walter Cronkite of CBS, Frank Singiser of Mutual, and John Chancellor of NBC. Quincy Howe of ABC will serve as moderator.

There will be no live audience, except for three news photographers and three reporters.

Nixon will open the program with an eight-minute statement, after which Kennedy will be allowed a similar period.

The next half-hour will be devoted to questions and answers from the panel—with each candidate having 2½ minutes to reply, and 1½ minutes to comment on an opponent's answer.

The final 10 minutes will be divided equally between Kennedy and Nixon for closing statements.

Reds Press Disarm Plan Agreement

UNITED NATIONS, N.Y. (AP)—Communist nations kept up their fire in the United Nations yesterday by renewing charges that the United States and its allies are trying to stall progress toward East-West agreement on disarmament.

Foreign Ministers Adam Rapacki of Poland and Vaclav David of Czechoslovakia both accused the West of stepping up the arms race.

Rapacki proposed a special session of the UN General Assembly next spring if there is no agreement by then on a treaty to end tests of nuclear weapons.

This is the first time the Communists have suggested putting suspension of nuclear tests before a special session.

Both Rapacki and David appealed for unanimous support of a Soviet resolution on complete and general disarmament.
