

Soviet Union Discourages Arms Talk

UNITED NATIONS, N.Y. (AP) — The Soviet Union has virtually written off U.N. disarmament debate at this time as useless. It said yesterday the only way to resolve the East-West deadlock is to hold a special General Assembly session next spring at the summit level.

Soviet Deputy Foreign Minister Valerian A. Zorin told the 99-nation Political Committee that unless the United States and its allies accept Soviet Premier Khrushchev's approach on disarmament, "we shall have no other choice" than to terminate Soviet participation in committee debate.

His words foreshadowed an imminent boycott of the entire Soviet bloc of the committee at least on that phase of the debate dealing with Khrushchev's call for an international treaty on complete and total disarmament.

Zorin accused the United States and the Western powers of using the committee as a smokescreen for a policy of continuing the arms race "and brinkmanship."

He said that refusal to take part in the committee's discussion would destroy the illusion that serious work is being done "when the Western powers are doing their utmost to sidetrack" the committee from solving the disarmament problem.

Kennedy Hits U.S. Prestige; Nixon Delivers TV Address

ILLINOIS (AP) — Sen. John F. Kennedy charged yesterday that the Eisenhower administration concealed the findings of a survey of 10 nations — showing that American prestige has declined — in order to protect Vice President Richard M. Nixon.

He referred to a survey made by the United States Information Agency.

Kennedy said the administration "refused to release it. And the reason is that they, the findings, show Mr. Nixon is misinformed."

The Democratic presidential candidate hammered his attack as he motored through cities and towns around Chicago.

The question of prestige of the United States has been argued by Kennedy and Nixon since their first television debate. Nixon said it is "at an all-time high" whereas Kennedy said it has been "declining."

CINCINNATI, Ohio (AP) — Vice President Richard M. Nixon declared yesterday that Sen. John F. Kennedy was completely wrong in stating that the Eisenhower administration had tried to get the Chinese Nationalists to withdraw from Quemoy and Matsu.

Kennedy challenged Nixon in last Friday's television-radio debate to deny that several missions were sent to Formosa to try to persuade Chiang Kai-Shek to remove his troops from the two offshore islands.

Nixon, in his first nationally televised speech from a Republican rally in the campaign, took up this challenge, asserting, "I do flatly, categorically and emphatically deny," his opponent's statement.

The Republican presidential nominee said his answer was given after he had talked by telephone with military and diplomatic leaders who had been in the Far East for the administration.

UN Congo Action Cost Estimated at \$62 Million

UNITED NATIONS, N. Y. (AP) — Secretary-General Dag Hammarskjold yesterday handed the United Nations a cost estimate of \$66,625,000 for this year's U.N. Congo operation.

The Soviet Union quickly announced it would refuse to pay a share of the Congo costs, and accused Hammarskjold of violating General Assembly directives in his conduct of the Congo operation.

Soviet Delegate A. A. Roschin asserted that the Congo operation is leading to "a very serious financial crisis which may have very serious political consequences."

HAVING A HALLOWEEN PARTY?

SERVE DELICIOUS Spudnuts
