

Hosterman Lauds Lions' Stiff Defense

Lion coach Ken Hosterman summed up his booters 1-0 upset of previously undefeated Navy Friday in one sentence: "I don't think their offense lost it, I think our defense won it."

After Lion center-forward Howie Farrer put Penn State in the lead late in the first period, the Middies threatened repeatedly throughout the remainder of the rain-drenched contest but the Lion defense remained goal-proof.

"Our defense was rugged," Hosterman said. "Wayne Rodgers played his best game of the year and Dave Grubbs was outstanding. Navy put the pressure on throughout the game and when they had the wind at their back they were rough."

The Lions were given little chance to upset the defense-minded Middies, who had allowed only four goals in five games. State's offense had been sputtering all year, producing only eight goals in five games.

To make matter's worse, Hosterman decided the day before the game that his two regular wings, Glenn Ream and Lou Van Rafelghem, would not make the trip due to leg injuries.

"We were definitely hurt by our lack of experience at wing," Hosterman said "I think we could have scored a few more goals if we'd have been able to use our regulars."

Although the Lions were outshot, 22-11, Hosterman said that many of Navy's attempts weren't of the dangerous variety.

The Lions face another tough team this Saturday when they travel to Philadelphia to meet a Temple squad that has lost only to West Chester in six outings.

Temple has downed Bucknell, 5-0; Wagner, 5-0; Hofstra, 10-2; LaSalle, 2-0; and Lafayette, 8-0.

Crash Victims Make Final Trip

TOLEDO, Ohio (AP) — Authorities took up the grim task yesterday of preparing the bodies of 22 victims of Saturday's airliner crash for return to their homes.

All but three of the dead lived in California. Two were from Elkton, Md., and one lived in Chicago.

They died when a twin-engine charter flight, attempting a take-off in a heavy fog, crashed and burned. The California-bound aircraft carried 48 persons, including the California Polytechnic College football team.

In Washington, the government suspended the flying certificate of Arctic Pacific, Inc., which operated the C46.

Circumstances of the accident "indicate a gross disregard for public safety and the regulations of the Federal Aviation Agency," said E. R. Quesada, federal aviation administrator.

The Oakland, Calif., firm operates three aircraft in addition to the one that crashed.

Harriers Driven to Top Effort

By BILL BARBER
The Navy cross country team may not be a powerhouse, but the effort it put out Friday pushed Penn State to its best performance of the year and brightened the Lions' chances for their first undefeated season since 1953.

Nine of Coach Chick Werner's 12 starters broke their best times in Friday's meet.

But the most surprising result of the day was the performance of Herm Weber, Gerry Norman and Steve Moorhead.

They swept home in a three-way tie (25:44) for first, marking the fourth time this year they've tied for the top position.

The Lion trio ran in a pack from the start and after the one-mile mark, they were never pressed for the lead.

Although Weber, Moorhead, and Norman have been winning for the Lions, the whole squad has shown a steady improvement since the Michigan State meet.

Sophomore Howie Deardorff and senior Ernie Noll have shown the most improvement. Deardorff started with a 27:13 against the Spartans, brought it down to a 26:31.4 in the West Virginia meet, and last Friday

romped home fourth with a time of 26:06.

Noll, who started the season after a year's layoff from running, has been a consistent performer.

Against Michigan State the Lion senior rambled home in 27:49, came down to 26:31.4 against West Virginia, and dropped still lower in the Navy meet with a 26:30.

Werner attributes this steady team improvement to several things: hard work, determination, and the proper attitude.

"All of the boys are out there trying all the time," Werner said.

"A lot of the credit must go to captain Herm Weber. He, along with Norman and Moorhead, have been encouraging the other boys

to get in there and get a good team," Werner said.

The harriers' bid for their first undefeated season in seven years will come to a climax Friday when they go against the always strong Jaspers from Manhattan.

It appears that some of the varsity confidence finally rubbed off on the Lion Cubs because they won their first meet Friday, topping Navy's undefeated plebes, 20-40.

Previously the Lion Cubs lost to Pitt and Cornell.

Frosh coach Norm Gordon was very pleased with his team's showing in their first victorious effort of the season.

Maryland Wins Third Straight

Maryland won its third straight game Saturday, downing fumbling South Carolina, 15-0. The victory gave the Terrapins a 4-3 record going into their game with Penn State at Beaver Stadium Saturday.

Pittsburgh, another future Lion opponent, pulled one of the biggest surprises of the year by stopping Syracuse, 10-0, to halt the Orangemen's 16 game winning streak.

In other games featuring Lion opponents, Army won easily over Miami of Ohio, 30-7; Boston University defeated Massachusetts, 20-7; Missouri shutout Nebraska, 28-0; Illinois edged Purdue, 14-12; and Holy Cross downed Marquette, 20-0.

STU'S EXPLAINING HOW MACHINES WILL SOME DAY "OUTTALK" PEOPLE

"Stu" Smith graduated from Southern Cal with a powerful yen for excitement. His kind of excitement—Engineering.

He got what he bargained for (and a little more) when he joined Pacific Telephone. One of Stu's early assignments was to find out how existing Long Distance networks could be used to pipeline high speed "conversations" between computers in distant cities.

The fact that he did a fine job did not go unnoticed.

Today, four years after starting his telephone career, Senior Engineer Stuart Smith heads a staff of people responsible for telegraph and data transmission engineering in the huge

Los Angeles area. As a pioneer in this new data transmission field Stu predicts data processing machines will some day do more Long Distance "talking" than people.

Stu contacted 12 other companies before joining Pacific Telephone. "I don't think there's any limit to where a man can go in the telephone business today. Of course, this isn't the place for a guy looking for a soft touch. A man gets all the opportunity he can handle right from the start. He's limited only by how well and how fast he can cut it."

If Stu's talking about the kind of opportunity you're looking for, just visit your Placement Office for literature and additional information.

"Our number one aim is to have in all management jobs the most vital, intelligent, positive and imaginative men we can possibly find."

FREDERICK R. KAPPEL, President American Telephone & Telegraph Co.
