Diem to Study Lot 53, Not 50-Fry

Student lot 53, an extension of faculty lot 50, is the parking area being considered by Albert E. Diem, vice president for business administration, for possible closing during early morning hours, Robert Fry said last night.

Fry, a Town Independent Men's Council member, was erroneously quoted in a Daily Collegian story

Thursday, as saying the lot under consideration was 50. The lots are parallel to the women's recreation field and 50 is entered from Shortlidge Rd.

—The first use of the practicum (laboratory) method of instruction on a wide scale was established at Penn State in 1866.

Be perspicacious!

Not this: a student who studies drowsily no matter how much sleep he gets.

This! Perspicacious... sharp! NoDoz keeps you awake and alert—safely!

If you find studying sometimes soporific (and who doesn't?) the word to remember is NoDoz®. NoDoz alerts you with a safe and accurate amount of caffeine—the same refreshing stimulant in coffee and tea. Yet non-habit-forming NoDoz is faster, handier, more reliable. So to keep perspicacious during study and exams—and while driving, too—always keep NoDoz in proximity.

The safe stay awake tablet—available everywhere. Another fine product of Grove Laboratories.
