Kennedy Set To Make Appointment

WASHINGTON (AP)—President-elect John F. Kennedy pushed into the final stages of lining up his Cabinet yesterday, with key conferences and key appointments in the immediate offing.

A budget timetable or someone to handle labor in the budget for the time being is to be named by tomorrow. An announcement for some time past will be made Saturday. The windows came from Kennedy's press secretary, Pierre Salinger.

Kennedy will confer informally today with Gov. G. Mennen Williams of Michigan, former Secretary of Defense Robert A. Lovett, Gov. Abraham A. Ribicoff of Connecticut and Rep. Stephen L. Udall (D-Ariz.).

All four have figured in talk of Cabinet or sub-cabinet jobs and, for the first time, Salinger was not saying that Kennedy hasn't talked with possible appointees about possible appointments.

Williams has been the subject of speculation in connection with the position of secretary of health, education and welfare, as well as a sub-cabinet post in the State Department dealing with Asian and African affairs.

Lovett served as undersecretary of state as well as a secretary of defense under Presidents Harry S. Truman. His name has emerged as one in conjectures about a return to use in the office of the two departments.

Ribicoff has figured in talk for attorney general and for the next Supreme Court vacancy, but more prominently of late in speculation about secretary of welfare.
