

# Workshop Suggests Activities Booklet

This is the first article in a series on recommendations from the second annual Panhellenic workshop held this fall. The Panhellenic Activities Workshop recommended in a report by Margaret McPherson, chairman, that the Panhellenic Council set up a committee to publish an activities booklet.

It was suggested by the workshop that the committee include members from IFC, ISA, SGA and other student groups. The completed booklet would be made available to all students on campus.

# Men Place Twelfth In Pitt Debate

Penn State Men's Debate Team brought home a twelfth place, a fifth place and a fourth place "best speaker's award" from the Men's Pitt Cross Exam Debate tournament held recently at the University of Pittsburgh.

The tournament, which is one of the largest held in this country, drew 55 entrants, including a number of debaters from foreign countries. The debate topic for this year is "Resolved: That the United States Should Adopt a Program of Compulsory Health Insurance for all Citizens."

The team as a whole captured twelfth place.

The negative team composed of William Stout, junior in electrical science from Pittsburgh and David Goodhart, junior in division of counseling from Rutherford, N.J., placed fifth in the tournament. Goodhart achieved 107 points out of a possible 125 points and was presented with the fourth place "best speaker's award."

The first affirmative speaker was Ronald Watzman, senior in arts and letters from Carnegie and the second affirmative was William Swisshelm, junior in arts and letters from Pittsburgh.

Included in the booklet should be a listing of all campus activities including honoraries and professional societies. The purpose, yearly events, membership requirements, financial obligations and the list of all officers and advisors for each campus activity would be listed.

The workshop, according to Miss McPherson, defined the main function of the activities chairman of each sorority to be developing each member by helping her find the activities that will benefit her.

Especially emphasized was participation in activities within the members own curricula to provide a close student-teacher relationship and contacts for future job recommendations.

The workshop also suggested that Panhellenic Council sponsor a separate workshop where the officers of each sorority could meet and exchange problems and ideas. This workshop should be held soon after sorority elections, Miss McPherson reported.

The final recommendation of the workshop was that the Panhellenic Committee on Social Affairs provide more opportunity for non-competitive intersorority activities. Suggestions for this type of affair by the workshop included a bridge-tea and fashion-show, informal recreation to include teams composed of two or more sororities and intersorority cultural programs.

# DARE To Join Survey On Housing

The Committee on Direct Action for Racial Equality is making preparations to participate in a survey of available town housing for students regardless of race, color or religion.

The survey, sponsored by the State College Chamber of Commerce, will be conducted by members of the Student Government Association Committee on Interracial Relations, DARE representatives, members of Gamma Sigma Sigma, service sorority, and Alpha Phi Omega, men's service fraternity.

These groups are members of an unofficial town group studying equality of opportunities in State College.

Aaron Konstam, president of DARE, said that to get ideas, his committee will write to various state commissions and universities which have conducted interracial programs.

He said that the committee has contacted the New York State Commission Against Discrimination. SCAD has achieved integration of all fraternities in New York state colleges. Konstam said that his committee hopes to be influential in securing a similar commission for Pennsylvania.

The University is located in the geographical center of Pennsylvania.

# Art Ed Grad Club To Hold Art Sale

The annual sale of art objects sponsored by the Art Education Graduate Club will be held from 9 a.m. to 10 p.m. Friday and Saturday, in 105 Temporary Building. The University will increase its collection of art work with the funds provided by this sale.

The sale will feature oil paintings, water colors, graphics, drawings, pottery, silver work and sculpture, in addition to handicrafts contributed by graduate and undergraduate students and faculty members of the Departments of Art Education.

# Phone Receivers Ripped From Thompson Walls

Five telephone receivers were ripped or cut from the walls in the corridors of Thompson of West Halls last weekend.

No one has yet been apprehended, but West Halls' coordinator, George Smith and the Thompson counselors said they have some clues as to the identity of the guilty parties. Smith said that when they are caught stiff disciplinary action will be taken.

Smith said that presently, everyone in Thompson is being held responsible, and the cost to replace the receivers will be paid equally by all the residents.
