work during the summer term. The average number of hours these students expected to work was 14 hours.

Part-time jobs with the University will be reserved for students as much as is possible, Dr. Robert G. Bernreuter, special assistant to the president, said. A survey of the possible jobs will be conducted by Ray T. Fortunato, director of employee relations, Bernreuter said.

The extension of the results of the survey by college revealed that the Colleges of Education and Engineering and Architecture would have the most students enrolled with 608 expected for each.

The College of the Liberal Arts would be next with 491, followed by the College of Business Administration, 281, and the College of Agriculture, 209. Each of the remaining five colleges averaged below 100 students with the high number being 94 and the low 69.

An earlier survey was conducted of 100 students to determine the feasibility of the telephone method. From this survey 17 people indicated that they definitely or probably would attend the summer term, 2 were undecided and 81 said they definitely or probably would not attend.

**Be perspicacious!**

Not this: a student who studies drowsily no matter how much sleep he gets.

This! Perspicacious... sharp! NoDoz keeps you awake and alert—safely!

If you find studying sometimes soporific (and who doesn't?) the word to remember is NoDoz®. NoDoz alerts you with a safe and accurate amount of caffeine—the same refreshing stimulant in coffee and tea. Yet non-habit-forming NoDoz is faster, handier, more reliable. So to keep perspicacious during study and exams—and while driving, too—always keep NoDoz in proximity.

The safe stay awake tablet—available everywhere. Another fine product of Grove Laboratories.
