

Tickets to Be Sold For Gym Telecast

Tickets for the Eidophor broadcast of the U.S.-Soviet gymnastics meet will go on sale at 6 p.m. Saturday, a spokesman for the athletic ticket sales office said yesterday.

The tickets, which will cost \$1, will be sold starting 6 p.m. Saturday at Schwab on a "first-come, first-served" basis, the spokesman said. Schwab has a seating capacity of 1200 people.

Eidophor will broadcast the entire meet, which begins at 7 p.m.

Leslie P. Greenhill, director of academic research, said that Eidophor is the only media carrying the entire meet. WFBG-TV, Altoona, will carry the meet from 7 to 7:30 p.m., again from 8:30 to 9:30 p.m. and from 10:30 p.m. to the meet's conclusion.

According to Henry L. Yeagly, director of maintenance and utilities, students damaged upholstery and hymnal racks in Schwab during the Eidophor broadcast of the Liberty Bowl game, Dec. 17. They also violated the no-smoking rule and were reprimanded by patrolmen for putting their feet on the backs of seats.

Commenting on student behavior during the last Eidophor broadcast, which was the Lehigh-Penn State wrestling match Saturday night, Yeagly said that his department was pleased with student conduct during the showing.

He said both the campus patrol and the janitors in Schwab were complimentary regarding student conduct.

"As long as they do as well as last week, we're happy," Yeagly said.

Regular tickets for the unprecedented event, to be held in Recreation Hall, went on sale at 8 a.m. Monday morning and were sold out at 10 a.m. Lines were formed by students outside Rec Hall as early 3 p.m. Sunday. By Monday morning, the lines circled the corridors inside the building.

About 2000 general admission and 1000 reserved seats were sold.

The gym meet is the only time the Soviet team will be competing while on tour in this country. Last night, final tryouts for the U.S. team, which will compete against them, were held in Rec Hall.

The Soviet women also competed last night at West Chester in their only scheduled meet. Like the men, the remainder of their tour will consist of exhibition.

Eng Prof Authors Book

Ernest R. Weidhaas, associate professor of engineering drawing, is the author of the book, "Applied Descriptive Geometry Problems," published by McGraw-Hill Book Co., Inc.

New Officers Selected By Ed Student Council

The Education Student Council Tuesday night elected its new officers, who will serve until next December.

The outgoing vice president, Barbara Johnson, junior from Pottstown, was elected president.

Prof Speaks at Convention

Kelly Yeaton, associate professor of theatre arts, presented a paper on "Aesthetics of the Arena Theatre" at the Speech Association Convention held in December in St. Louis, Mo.

For a Study Break Snack

Try a Barbecued Chicken from Herlochers for a change. Here's a way to make that finals period endurable — enjoy food at its best delivered to your dorm when you want it.

Menu

- Home style Baked Beans 45c pt. or 25c 1/2 pt.
- Potato Salad 49c pt. or 25c 1/2 pt.
- Macaroni Salad 39c pt. or 20c 1/2 pt.
- Peppered Cabbage 49c pt. or 25c 1/2 pt.

Special! Deliveries during finals—5 p.m. to 1 a.m.

"IT'S HERE—IF YOU WANT TO WORK FOR IT"

Even before Ron Spetrino received his engineering degree from Case he had good job offers from six companies.

He joined The Ohio Bell Telephone Company —his reason: "I was convinced an engineer could go further here—if he was willing to work for it."

As soon as Ron got his feet on the ground in telephone engineering, he was tapped for a tough assignment. The job—to engineer switching equipment modifications needed to prepare Cleveland for nationwide customer dialing of long distance calls.

Ron wrapped it up in five months, and found he had earned a shot at another tough assignment. In this job Ron helped engineer a completely new long distance switching center for Cleveland. This switching center connected Cleveland with the nationwide customer dialing network. It was about a year later that Ron put the finishing

touches on the specs for this \$1,600,000 project.

Today, as a Supervising Engineer, Ron heads a staff of five engineers and is responsible for telephone switching in much of the greater Cleveland area.

He supervises the design and purchase of \$3 million worth of equipment a year. And even more important, he is charged with developing the technical and managerial skills of his staff.

Ron knows what he's talking about when he says, "In this business you have to do more than a good job. We expect a man to be a self-developer. We expect him to take responsibility from his first day on the job and think for himself. You don't get ahead around here by just doing time."

If you want a job in which you're given every chance to prove yourself, and real responsibility right from the start—you'll want to see your Placement Office for further information.

"Our number one aim is to have in all management jobs the most vital, intelligent, positive and imaginative men we can possibly find."

FREDERICK R. KAPPEL, President
American Telephone & Telegraph Co.
