A.F. Sees Missile-Type Projectile

BULLETIN
WASHINGTON (AP) — The Air Force announced last night its radio station at Shemya Island, Alaska, has just detected an object with missile characteristics coming out of the Soviet Union and passing in a southeasterly direction.

Whether this object is a missile programmed to land in the Pacific or a space vehicle is not known at this time. The Shemya Island radar is operated 24 hours a day and its purpose is to detect and report objects in its radar screen.

Earlier this week there were indications Russia might be getting ready for another missile or space launch firing into the Pacific area in the near future.

The Navy said that three Soviet missile instruments ships were sighted Tuesday, apparently heading southeast along a line from Kamchatka Peninsula to the impact area about 1000 miles southwest of Hawaii.

The three ships — the Sibir, Chukpta and Sakhalin — were a little over halfway along the route toward the impact area when observed Tuesday.

U.S. Jet Sets Speed Record

LOS ANGELES (AP) — A United States jet bomber, flashing high over the desert, has eclipsed by hundreds of miles an hour six world speed records. Five were held by the Soviet Union.

On one trip over a 621-mile closed course Thursday, the B58 Hustler averaged 1,200.194 miles per hour. The Soviet Union claimed the previous mark, 639 miles per hour, set in October 1959 by a plane it did not identify.

The Hustler, a \$10-million, four-jet, delta-wing bomber, went twice around the closed course between Edwards Air Force Base, Calif., and a point halfway between Yuma and Phoenix, Ariz.

Bootle Orders U. of Georgia To Readmit Negroes

MACON, Ga. (AP) — A federal court yesterday ordered readmittance to the University of Georgia of two suspended Negroes by 8 a.m. Monday.

Judge W. A. Bootle ruled that the university's "order of withdrawal or suspension is hereby terminated by 8 a.m. Jan. 16." By holding up the revocation until that hour, the school officials could delay the Negroes' return to class until Monday instead of Saturday.

The injunction against another suspension or expulsion provided that such action could not be taken "on the grounds that the same is necessary for their personal safety because of mob action or violence on the campus."

His order was handed down after a two-hour closed conference with attorneys for the state and the Negroes, who were suspended from the school after wild campus rioting Wednesday night.

Havana Charges U.S. with Spying

HAVANA (AP) — Cuban propaganda organs loosed a new attack on the U.S. Guantanamo Bay naval base yesterday as Prime Minister Fidel Castro's supporters rallied here to celebrate "victory over Yankee aggression."

All three Havana morning papers — the semi-official Revolution, El Mundo, and the Communist organ Hoy — accused U.S. naval officers in Guantanamo of torturing a Cuban worker, Manuel Prieto Gomez, 39, at the base to force him to confess he was a spy for Castro. The accusation could form the basis for a new Cuban demand that the United States abandon its largest and oldest naval base in Latin America.

In Washington, the U.S. Navy denied the accusation.

Soviet Team Invited To HUB Dance

The Soviet gymnastic team has been invited to a dance at the Hetzel Union ballroom after the meet Saturday.

The Soviet-American Gymnasts' Dance, which is sponsored by the Independent Student Association and the Pollock Council, is being held to give the Soviets an idea of our music and our style of dancing, Bruce DeWoolfson, dance chairman said last night.

The admission-free dance will begin at 9 p.m. with recorded music provided by disc jockey Donald Rees who has worked at the Pollock Halls Record Hops. At 11 p.m. after the gym meet the Stan Barton Combo will take over and provide music until 1.

Immediately after the final results of the meet are announced at Rec Hall, the members of the Soviet gym team will be given navy blue wool blazers with an emblem composed of Soviet and American flags crossing and giving the name and date of the meet. These blazers were provided by various student organizations as gifts from American students to Soviet students.

German Minister To Talk at Schwab

The Rev. Eberhard Bethge, former pastor of the German Evangelical Lutheran Church in London, will speak on the subject, "The Predicament of Established Christianity" at 10:55 a.m. Sunday at the Chapel Service in Schwab Auditorium.

The Rev. Bethge, together with Dietrich Bonhoeffer, was involved in the famous plot to assassinate Adolf Hitler on July 20, 1944. The failure of this plot resulted in the death of Bonhoeffer, former director of the Theological Seminary of the Anti-Nazi Confessing Church, and all of Mr. Bethge's family. He escaped execution only because of the arrival of the Russian Army in Berlin.

Rev. Bethge will speak at a University Christian Association dessert and forum, Sunday evening at 7:30 in the Eisenhower Chapel Lounge.

The Rev. Theodore Braun, United Church of Christ Chaplain to the University, will give the sermon at the Protestant worship service to be held in the Helen Eakin Eisenhower Chapel Sunday at 9:00 a.m.

The Emerson Society will meet Sunday in the Eisenhower Chapel

where Dr. Gerald M. Moser, assistant professor of Romance languages, will be the speaker.

Morning seminars at 9:30 and 10:30 will be held Sunday at the Presbyterian University Center. Discussion leaders will be James Halfaker on "Psychology and Religion" and Pat Smathers on "Biblical Studies in Basic Christian Beliefs."

The morning services are at 9:15 and 10:45. The sermon by Rev. William F. McClain is entitled "Stress on Behavior." The Sunday Evening Fellowship at 6:20 p.m. will have Mrs. Willa Taylor speak on "Corporate Worship, Music and Symbolism."

The Wesley Foundation Fireside Forum will meet at 6:30 tomorrow evening to discuss the "Works of Dylan Thomas."

Bus Service--

(Continued from page one)
were too many questions to solve in the short time before the scheduled departure of the first bus. Specifically, Bernreuter referred to the fact that the bus line would require a guaranteed number of people to fill the buses before they would grant a charter.

University policy requires that any group taking over a project like this one assure the availability of buses for the students who sign up for the trip, Bernreuter said.

Bernreuter has suggested to Weber that he present his plan to one of the area councils or to the Student Government Association, since they would have the necessary funds to back this type of venture.

Fun? Jimmy Smith thinks it is — sometimes.

But having fun is hard when you can't walk. You can't reach things. You can't climb good. You can't go where other kids go.

Oh, you can push yourself around the house if you're lucky enough to have a makeshift go-cart. But how far can you really GO when you're born with a defective body?

Jimmy's too young to think about that, yet. But grown-ups should. They should know that medical science is working harder than ever before to build new lives for thousands of children born with serious birth defects. They should know it is the goal of the NEW MARCH OF DIMES to discover why birth defects happen in 1 out of 10 births, and to keep them from happening.

That's a big job. It will take knowledge, trained hands, hard work and money — the same ingredients that produced the polio vaccines. It takes the kind of help you give, when you say "Yes" to the NEW MARCH OF DIMES.

PLEASE SAY YES TO THE NEW MARCH OF DIMES

BIRTH DEFECTS • ARTHRITIS • POLIO
