

# JFK to Host Prime Minister

WASHINGTON (AP) — President Kennedy yesterday announced his first use of big-time personal diplomacy. He will play host to Britain's Prime Minister Harold Macmillan during the week of April 2.

Macmillan will not be the first foreign government chief

## Treasury Will Sell Securities

WASHINGTON (AP) — The Treasury announced plans yesterday to borrow \$6.9 billion next week in an operation it said takes into account the current business situation and the gold problem.

The borrowing is being handled through sale of new securities which, it said, will assure its getting all the money it needs and help prevent the flow of corporation funds to investment overseas.

For one thing, the department strayed from tradition in deciding to pay off the maturing certificates and replace them through a new issue to be offered for cash. With one exception, last August, the department normally has merely refinanced maturing issues by offering new securities in exchange for those coming due.

Under the refinancing system, some security owners invariably prefer to be paid off in cash rather than accept new securities for old.

The terms of the new security issue also take into account the balance of payments problem. One cause of the recent gold drain has been a heavy flow of American capital to Europe where interest rates are higher.

to stop off to see the new President. But he will be the first Kennedy visitor who leads a major world power.

The first foreign chief to stop by, the State Department said, will be Denmark's Prime Minister Viggo Kampmann. Kampmann, on a Feb. 11-19 visit to this country, is ticketed for a White House stop Feb. 14.

And late in February Australia's Prime Minister Robert Menzies is expected to drop in at the Pennsylvania Avenue mansion on his way to a British Commonwealth prime ministers' meeting in London.

The visits of Menzies and Kampmann are described as getting acquainted affairs.

Macmillan's visit will cover "a general discussion of world problems" according to the White House announcement.

## Mazeroski, Face Sign Contracts With Bucs

PITTSBURGH (AP) — Second baseman Billy Mazeroski and bullpen king Elroy Face, heroes of the 1960 World Series, yesterday signed what they call the "best contracts ever" with the Pittsburgh Pirates.

Mazeroski reached agreement after a 45-minute talk with general manager Joe L. Brown. "We didn't haggle a bit," said the shy 24-year-old infielder.

Asked if he got a 20, 30 or 40 per cent hike in salary, Mazeroski quipped: "Somewhere about there."

# Zorin Issues Challenge To Kennedy

UNITED NATIONS, N.Y. (AP) — The Soviet Union challenged the new United States administration yesterday to follow "a new road" toward peace in the Congo.

But Soviet Deputy Foreign Minister Valerian A. Zorin, in issuing this challenge in the U.N. Security Council, maintained a harsh attack on Secretary-General Dag Hammarskjold, and made clear the new approach must be based on previous Soviet demands.

Addressing his remarks directly to U.S. chief of state Adlai E. Stevenson, Zorin said: "We await an answer from the new representative of the United States whether he is ready to join us in following the new road."

Stevenson made no immediate reply in the council, but in a statement issued to newsmen said:

"I regret that Mr. Zorin did not address himself to the secretary-general's proposal for taking all of the Congolese armed forces out of politics.

"I also regret his renewed and unjustified attacks on the secretary-general.

Aides said he probably would not speak on the Congo question until late next week.

## 7 Persons Killed In Train Wreck

BOWIE, Md. (AP) — A passenger train en route to Bowie race course derailed yesterday and state police said seven persons were killed and at least 50 injured.

Four cars of the 10-car Pennsylvania railroad special overturned, trapping many of the passengers inside or under the cars. Rescue workers cut through the roof with blow torches to reach some of them.

An estimated 300 race-bound passengers were aboard the train, which was wrecked at the Jericho Park Junction where the train turns from the Pennsylvania's main line into the course.

The train left Philadelphia about 11 a.m.

## Ike Receives Visitors; First as Private Citizen

GETTYSBURG, Pa. (AP) — Former President Eisenhower began the routine of civilian life yesterday by going to his office on the Gettysburg College campus.

Today Eisenhower is scheduled to receive his first official visitors since leaving the White House last month. They are Dr. Alejandro P. Ponce, ambassador from Ecuador, and Eduardo Arosemena, Equadorian minister.

# Rebel Captain Frees Captives in Brazil

RECIFE, Brazil (AP) — The rebel captain of the seized liner Santa Maria freed his passengers yesterday from 12 days of captivity at sea. He vowed a war to the end against Portugal's premier but his future as a freebooting rebel was in doubt.

Passengers cried or laughed and sang as they waited their turns to come ashore, 2800 miles from where the luxury liner was seized in the Caribbean Jan. 22. Thousands of cheering Brazilians greeted them from the dock area.

Rebel Capt. Henrique Galvao was given permission to sail his ship back beyond the three-mile limit but port officials said nearly all of his 70 followers who seized the liner want asylum in Brazil.

The rebels apparently fear what might happen should the liner put out to sea without the passengers, who had been held as virtual hostages. There are reports Portugal's newest and fastest frigate, the Pero Lobo with a battery of three-inch guns is waiting over the horizon.

Galvao evidently failed in his demand for food, water and fuel, all badly depleted in the long cruise. If he cannot get away, the Brazilian government will take over the Santa Maria in the name of its Portuguese owners and grant Galvao asylum.

Galvao swore to wage war until strongman Premier Antonio de Oliveira Salazar is overthrown and Portugal and her colonies liberated. And he said the movement also aims at Generalissimo Franco of Spain, Salazar's friend and ally.

## Nixon Charts Center Course

WASHINGTON (AP) — Richard M. Nixon pointed yesterday to a middle road course for the Republican party, from which he intimated he might seek the GOP presidential nomination again in 1964.

Nixon, who leaves office as vice president today, announced at a goodby gathering of reporters that he is negotiating to join a Los Angeles law firm. He did not name the firm.

He and his wife, Pat, take off Saturday for Nassau for a month's vacation. They will go to California shortly after their return to seek a new home.

Questioned as to whether he plans to seek a second presidential nomination four years from now, Nixon replied:

"I have no plans at the present time to run for any office in 1962 or 1964. I have no organization for 1964, but that doesn't mean I am ruling out any possibility of being a candidate."

# Kennedy Will Establish Labor-Management Group

WASHINGTON (AP) — President Kennedy announced yesterday he will establish a top labor-management policy group to seek wage-price stability and smooth American industry's adjustment to technological change.

Kennedy said in his economic message to Congress he will issue an executive order creating a 21-member presidential advisory committee on labor-management policy made up of labor, management and public members.

The group would be in effect a continuing labor-management "summit" body with the government sitting in as a full partner.

Chairmanship of the panel, which would have a mission far broader than run-of-the-mill labor disputes, would be rotated annually between the secretary of commerce and the secretary of labor.

Kennedy outlined the group's role as one to "promote free and responsible collective bargaining, industrial peace, sound wage policies, sound price policies and stability, a higher standard of living, increased productivity, and America's competitive position in world markets."

Success of the advisory committee will depend, of course, on the willingness of traditional employer and labor union protagonists to find common ground to solve mutual problems. Until now, except under the compelling pressures of world wars, the labor-management consultative process hasn't worked out very well.

But Kennedy plainly wants to give the idea another try with his new committee.

"It will consider national manpower needs and the special benefits and problems created by automation and other technological advances," Kennedy said.

"I look to the committee to make an important contribution to labor-management relations and an understanding of their importance to the stability of prices and the health of the economy."
