

Congress Gets School Aid Bill

WASHINGTON (AP)—Legislation to carry out President Kennedy's \$2.3-billion school aid program went to Congress yesterday as Senate leaders announced plans to open up the legislative throttle.

The measure would provide \$2,298,000,000 over the next

Doctor Hits Kennedy's Aged Plan

CHICAGO (AP)—An American Medical Association executive said yesterday President Kennedy's proposals for hospitalization and nursing home care for the aged are "unrealistic, limited and coercive."

Dr. F. J. L. Blasingame, executive vice president of the AMA, said the association "finds much to applaud in the over-all program."

He added, "We support the broad principles and the general goals of the President's program, but we cannot support his proposal for hospitalization and nursing home care for persons over 65 under Social Security."

Blasingame said that after studying the Kennedy plan, the AMA "more strongly than ever reaffirms its support of the Kerr-Mills law" passed by Congress last summer.

He said: "The Kerr-Mills law, when properly implemented by all the states, will do far more for deserving elderly citizens of our country at far less cost than the unrealistic, limited and coercive proposal to graft hospital and nursing home services onto the Social Security System."

He said the Kerr-Mills law authorizes states — with federal funds as well as their own — to furnish full medical care to all needy and near-needy citizens over 65.

The King and Anderson bills, introduced a few days ago, would, however, restrict benefits to hospitalization, nursing home and home-nursing care and could be available only to those over 65 who would qualify for other Social Security benefits," Blasingame said.

Oscar Nominees Named For 1960 Movie Performances

HOLLYWOOD (AP) — Elizabeth Taylor won her fourth Oscar nomination in four years yesterday as the Motion Picture Academy announced nominees for the 33rd annual awards.

Miss Taylor, not yet a winner, was named for her performance in "Butterfield 8." She faces strong competition from three foreign born actresses and one American — Shirley MacLaine, the elevator girl in "The Apartment."

Also nominated for best performance by an actress in 1960 were Greer Garson, as Mrs. Franklin D. Roosevelt in "Sunrise at Campobello"; Deborah Kerr, the shepherd's wife in "The Sundowners," and Melina Mercouri, the Greek actress who portrayed a prostitute in "Never on Sunday."

It shaped up as a hot race among the astors, too. Laurence Olivier was nominated as the music hall performer in "The Entertainer," and Spencer Tracy as the Darrow-like lawyer of "Inherit the Wind."

The other nominees were: Jack Lemmon, the organization man of "The Apartment"; Burt Lancaster, the Bible-pounding "Elmer Gantry," and Trevor Howard, the drunken father of "Sons and Lovers."

"The Apartment" took top honors among films, scoring 10 nominations. It was nominated for best picture, along with "The Alamo," seven nominations; "Sons and Lovers," seven; "Elmer Gantry," five; and "The Sundowners," five.

Cuban Plea Rejected By U.S. Heads

WASHINGTON (AP)—U. S. officials yesterday viewed Cuba's please-don't-punish-me appeal to other hemisphere republics as an act of desperation and deception by the Fidel Castro regime.

They said the facts simply do not give any credence whatever to the bearded rebel's promise last weekend that Cuba will not try to spread Castro's revolution to other Latin American republics.

He has been trying his best for many months to do just that and has been detected in half a dozen cases, officials said.

The Castro government delivered in Havana during the weekend a 22-page document promising not to intervene in internal affairs of other American republics and attacking the United States, the United Nations and the Organization of American States.

It acted after the government of Guatemala had circulated a suggestion among hemisphere nations that the time had come to talk about specific measures to solve the Cuban problem.

Latin American circles report that the Castro regime has obtained a promise from the new government of President Janio Quadros in Brazil that it will oppose any plan for hemisphere nations to sanction or isolate the Castro regime.

French-Arabs Seek Algerian Settlement

PARIS (AP)—President Charles de Gaulle and President Habib Bourguiba of Tunisia yesterday declared themselves satisfied there is hope for a rapid settlement of the bloody Algerian rebellion now dragging through its seventh year.

After daylong talks alone in the secluded presidential chateau at Rambouillet, the two leaders issued a guarded communique saying they were agreed there is a possibility "from this moment for a rapid and positive" settlement of the Algerian war.

They said they had examined the Algerian problem in a spirit of "frankness and mutual understanding."

Bourguiba, acting primarily as a middleman between De Gaulle and the Algerian nationalists, joined the French president in declaring that the two men had found their views almost in accord on international problems.

The optimistic tone of the pronouncement appeared to indicate that direct peace talks between the French and Algerian rebels were in the offing, although the communique did not say specifically that such negotiations would be opened.

It has been generally accepted that the main purpose of the De Gaulle-Bourguiba conference was to seek the basis for such talks.

Demonstrations on the Champs Elysees in Paris, 30 miles from the scene of yesterday's talks, by embittered foes of negotiations with the rebels somewhat marred the Bourguiba visit.

It was the first time the two had ever met. When De Gaulle last held power, Bourguiba, then considered by the French a dangerous political agitator, was in jail or virtual exile.

Improved Radar Developed

PITTSBURGH (AP) — Westinghouse Electric Corp. said yesterday it has developed three-dimensional radar that will better track missiles and aircraft.

Miss Bunny Mainwaring

A faculty member friend of ours, upon finding that plasterers in California receive \$4.25 p. hr. was inspired to compute his hourly wage. His conclusion gives rise to an imminent danger which will confront the University if Mr. Kennedy's \$1.25 p. hr. minimum wage law is passed. Computing his teaching load, research and preparation hours, his obligatory tea hours, the figure came to \$1.21 per hour plus prestige. With baited breath he awaits the passage of Mr. Kennedy's proposal. Though aware that the increase is only slight, it gives him an inner glow of "belonging" now that he'll have to pay income tax.

Actually, income tax is highly unfair when based on your weekly income. Some find it necessary to work 60 to 70 hours a week compared to the loafers who quit at 40. It should be based on hourly income.

Will the fraternities who plan to have us do their composites this spring please contact us immediately. Better yet, have your reps visit us today and tomorrow that they may gaze at the lively ADPi's whose composite we start today.

Give yourself a lift, have your portrait made . . . preferably here.
