

JFK Pleas For Support Of Ed. Bill

WASHINGTON (AP) — In a plea that religious and desegregation interests not kill his education bill, President Kennedy said yesterday federal loans to private secondary schools — just like grants — are unconstitutional.

At the same time, the President told his news conference that the question of loans — unlike the question of grants — is open to debate.

Asked whether he would veto such a separate bill, Kennedy replied: "I think it is always a mistake before we even have legislation to talk about what I am going to do, but I think it is very clear about what my view is of grants and loans across the board to non-public schools."

Kennedy's \$2.3-billion bill, under consideration by Congress, would provide federal grants to public schools, scholarships to college students, and loans to colleges.

Spokesmen for the country's Roman Catholic bishops have announced opposition to the bill unless it is revised to include a program of low-interest loans to private and parochial secondary schools.

At several points in the conference Kennedy turned to foreign affairs and commented on U.S. relations with Communist countries.

"They have been unflinching in their attacks upon the United States," the President said. "I would like to see a lessening of that tension. That is our hope from the beginning."

"But we are not prepared to surrender in order to get a relaxation of that."

Nuclear Sub Sets World Record

HOLY LOCH, Scotland (AP) — The U.S. nuclear submarine Patrick Henry proudly sailed into Holy Loch yesterday with a world underwater cruising record of 66 days and 22 hours.

Four British pacifists were unimpressed. By canoe and rowboat they moved out toward the great ship but were shoed off by British launches. One demonstrator's canoe sank. He was hauled

out of the water and arrested for disturbing the peace.

The Patrick Henry — with a full load of 16 Polaris missiles aboard — eclipsed the old mark of 66 days set by a sister submarine, the George Washington.
