

# Kennedy Asks Increase In Department Budgets

WASHINGTON (AP)—President Kennedy asked Congress yesterday to increase next year's Agriculture Department budget by \$442,429,000.

He also asked Congress for a \$41-million boost in the Interior Department budget, an \$11-million increase in the budget of the U.S. Information Agency and a re-shuffling of items in the State Department budget.

His requests were part of a series of amendments he is proposing to former President Dwight D. Eisenhower's budget for the 1962 fiscal year.

These amendments affect particular departments. His general budget revisions are expected to reach Congress within the next few days. It has been reported he plans to submit a balanced budget and then call for \$1 billion in deficit defense spending.

The White House said the in-

crease in the Agriculture Department budget would be used mainly to strengthen programs in research, watershed, forestry and conservation and to bolster the loan programs of the Rural Electrification Administration and the Farmers Home Administration.

In addition, some funds would repay the Commodity Credit Corporation for costs and losses.

The USIA budget increase would be used to expand the agency's projects in Africa and Latin America.

The reshuffling of State Department items resulted in a \$130,000 decrease in the department's budget.

The President asked for increases of \$1,305,000 for African programs, policy planning, the U.S. delegation to the United Nations and diplomatic and consular service emergencies.

This was more than offset by proposed decreases of \$1,435,000 for contributions to the United Nations and other international bodies.

# Integration Delays Rejected by Court

WASHINGTON (AP)—The Supreme Court yesterday rejected all efforts to balk or delay public school integration in Louisiana.

It agreed also to hear the appeals of 17 Negro students convicted in connection with sit-in demonstrations at lunch counters in Baton Rouge, La. Arguments will not be heard until next fall.

These will be the first appeals to be heard by the high court growing out of a wave of demonstrations and arrests during lunch counter sit-ins in the South.

The court's present actions in Louisiana school cases actually were foretold Dec. 12.

# Mrs. Gable Has Son

HOLLYWOOD (AP)—The first-born son of the late Clark Gable wanted so much was born yesterday, an 8-pound carbon copy—except for the ears—of his handsome dad.

The infant is Gable's only offspring in five marriages.

# EVERY COLLEGE STUDENT needs this book

to increase his ability to learn

An understanding of the truth contained in Science and Health with Key to the Scriptures by Mary Baker Eddy can remove the pressure which concerns today's college student upon whom increasing demands are being made for academic excellence.

Christian Science calms fear and gives to the student the full assurance he needs in order to learn easily and to evaluate what he has learned. It teaches that God is man's Mind—his only Mind—from which emanates all the intelligence he needs, when and as he needs it.

Science and Health, the textbook of Christian Science, may be read or examined, together with the Bible, in an atmosphere of quiet and peace, at any Christian Science Reading Room. Information about Science and Health may also be obtained on campus through the

Miss Priscilla Gabay

Alpha Phi

From N. Plainfield, N. J., Miss Gabay is a 4th semester El. Ed. — and most important, gentlemen, she's not pinned.

Well, in a few days we hope to announce the winner of our Easter in Puerto Rico contest (or would you rather Fort Lauderdale?). The eligibles will include all whose names have been bantered around in said column, this and the past semester and certainly all whose portrait has appeared above. Daughter Nina will poke her pudgy little hand in a cigar box of names and the first time she comes up with one name in her hand — that's it. We'd blindfold her but she pleaded on her word of honor that it wasn't necessary — at 19 months she's not too deadly on cheating anyway. The winner will be called and if her previous plans preclude the possibility of her making the trip, Nina will make another dip.

Saturday nites parties in color were made infinitely easier to photograph thru the efforts of chairmen Carol Goehring of Alpha Xi Delta, Jackie Johnston of ADPi and Marie Meyer of Alpha Gamma Delta. To you we tip our cap.

Had the usual rough time at SAM. Always the same — little house, biggest parties. So crowded, the IFC checker was all but ushered out when he couldn't get his hand in his shirt pocket to prove himself at this closed party.

Couldn't help but notice the very beautiful Miss Tomi Tomlinson while photographing the new Theta pledge class in their suite at Pollock 4.

Actually, Gentlemen — the only advantage in having us do your fraternity composite this spring is not necessarily the fact that it will be the best composite you ever had — no indeed, it will be the opportunity for mingling with the most beautiful girls on campus. We've seen more engagements get their start up here etc., etc.

Ah, yes, the Theta Phi Alphas have the Misses Warrington, Dugan and Staniek.

— bill coleman
