## Senate Hears Ideas **For Final Exams**

By LYNNE CEREFICE and POLLY DRANOV Two proposals for a final-exam system under the fourterm plan were discussed by the University Senate yesterday The first came from the Committee on Academic Standards which proposed that exams be given during the regular class hours, at the option of the instructor.

The report by the committee explained that the scheduling of fi-nal exams during the regular Walker Appoints the stature of the final exam.

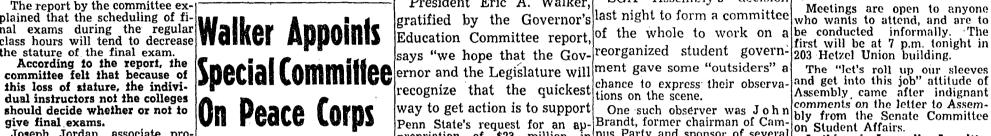

give final exams. Joseph Jordan, associate pro-fesor of chemistry, introduced an amendment to the committee's proposal suggesting that all ref-erence to final exams by elimin-ated from the Senate regulations. sia's proposal for a nuclear test ban control system under a three-man directorate with a built-in Soviet veto was totally unacceptable.

The directorate would be composed of one Western, one Soviet and one neutral official and the big power representatives would have to agree on any action taken. In the Western view, that would mean a Soviet veto over inspection to prevent cheating on the test ban treaty.

Kennedy and Macmillan were said to feel that three steps should n of that problem. On nuclear tests Kennedy and date and place should be fixed

U.S. officials who reported the agreement on Berlin said Kennedy and Macmillan were also in general agreement that in any new negotiations v n Russia on Berlin the concessions previously offered by the West would not provide a starfing point. On the contrary, it was agreed that negotiations would begin without such concessions.

The President and prime min-be taken simultaneously - the ister recognized, officials report-cease-fire should be agreed on in
