

Peace Corps Official Explains Plans for Training Programs

By PAT DYER

Neither Penn State nor any other institution has been given special consideration for participation in the initial projects of the Peace Corps training program, Sally Bowles, executive assistant in the program, said last week.

In a special interview with The Daily Collegian, Miss Bowles, daughter of Chester A. Bowles, Undersecretary of State, said that no training centers will be selected until after

specific projects for the Peace Corps are decided upon.

The Peace Corps staff is now "just gathering information," Miss Bowles said. After the projects are cleared the staff will probably "move in and check on facilities of the nation's colleges and universities in order to find those which are best equipped to train personnel for these projects," she continued.

The total number of institutions to be selected will depend entirely on the number of projects cleared for Peace Corps participation, she said. She added that the centers will have to be selected by early summer if the training programs are to be effective by next fall when 500 to 1000 volunteers are expected to be sent abroad.

Speaking to the national convention of the Intercollegiate Association of Women Students in Madison, Wis., last Tuesday Miss Bowles said that the training program for volunteers will probably last about three months.

"During this period the trainees will live as closely as possible to conditions prevalent in the areas to which they will be assigned. After training, volunteers will be sent to work on specific projects in areas requested by the foreign government."

In commenting on probable living conditions abroad, Miss Bowles said volunteers would live under the same circumstances that most of the natives do, but "not necessarily at the lowest level of living standards." Volunteers will live at levels similar to those of natives engaged in the same type of work or project.

It is expected that the greatest number of requests for volunteers will come for teachers, Miss Bowles said. "It is unlikely that countries with a surplus of labor are going to ask for more ditchdiggers," she commented.

39 Paintings Exhibited By Zygler

Thirty-nine oil paintings by Eleanor Zygler, assistant professor of art, are on exhibition in the Gallery of the Hetzel Union Building.

The paintings are on various subjects and include Mexican, New England and Pennsylvanian scenes. Several were done along Benner Pike and Branch Road here in Centre County, Miss Zygler said. Eight of the paintings, including "Wharves of Gloucester," were done while she was studying at Brandeis last summer.

Although all the paintings are done in oils, Miss Zygler said her style varies from picture to picture. "When I decide to paint something, I have a definite reaction to the subject, and I try to find the right way to express it," she explained. "Each idea must be handled in a different way," she said.

Miss Zygler has exhibited her paintings at such places as Smithsonian Institute, Carnegie Museum of Art, Stanford University and the Battell Foundation.

Her education in art has included study at the Institute of Design in Chicago, Yale University, Ohio University and the Instituto Bellas Artes in Mexico, under such men as Moholy-Nagy, world leader in design and Haus Hofmann, internationally known painter.

The paintings will be on exhibit until April 22.

DOC Honors Top Students With Banquet

To be able to make the dean's list even once at Penn State is something to be proud of for the rest of one's college career, Dr. Donald Ford, director of the Division of Counseling, told DOC students Sunday evening.

Ford spoke at a dinner sponsored by the DOC student council and staff in honor of their dean's list students.

The guest speaker, Dr. Paul M. Althouse, spoke on "Education: The Pendulum of Society." Althouse said that education is the regulator of society, just as the pendulum in a clock regulates time.

As the pendulum of a clock must swing freely, so must education swing freely from society, he said, but there are always frictions in the pendulum that must be compensated for by changes and advances.

In concluding, Althouse said that the four-term system is an example of an attempt to compensate for friction in society.

Anthropology Prof To Talk on Iceland

Dr. Laura Thompson, distinguished visiting professor of anthropology, will speak on "Explorations in Iceland" at 8 p.m. tomorrow in 121 Sparks.

She has spent two summers in Iceland, which she describes as "a typical island culture," and in her lecture Thursday night will show slides that she took in Iceland.

Adams to Serve As 'Pivot' Editor

David Adams, junior in arts and letters from Havertown, has been chosen editor of Pivot, the campus poetry magazine, for this year.

Other editors chosen were David Kipp, first assistant editor; and Elizabeth Schoonover, second assistant editor.

Serving on the board of editors are Mike Corato, Paige Butolett, Robert Cordover, Trudy Gerlach, Roger Lowenthal and Barbara Serr.

Ransom to Speak At Alumni College

John Crowe Ransom, one of the greatest living American poets, will be the keynote speaker for the 1961 Spring Alumni College to be held Thursday through Saturday.

His subject will be: "The Creative Artist in America," which is the theme for the three-day program that will include a series of talks by University faculty members.

The program is sponsored by the Penn State Alumni Association and the Center for Continuing Liberal Education and will enroll about 40 graduates.

Lao villagers believe sickness is caused by the departure of one of the 32 souls inhabiting their bodies.

WHAT'S GOING ON, ON CAMPUS? PANTI-LEGS THAT'S WHAT!

What's going on girls in every college in the country? PANTI-LEGS by GLEN RAVEN... the fabulous new fashion that's making girdles, garters and garter belts old fashion! A canny combination of sheerest stretch stockings and non-transparent stretch panty brief, PANTI-LEGS are ecstatically comfortable with campus togs, date frocks, all your round-the-clock clothes — especially the new culottes and under-slacks. No sag, wrinkle or bulge. L-o-n-g wearing. Of sleek Enka Nylon. Available in three shades of beige plus black tint. Seamless or with seams. Petite, Medium, Medium Tall, Tall. Seamless, \$3.00. 2 for \$5.90. With seams (non-run), \$2.50. 2 for \$4.90.
