UN Asked to Act On Cuba

Reds Demand Action

UNITED NATIONS, N. Y. (AP) — Communist countries pressed for quick U. N. action yesterday on Soviet Premier Khrushchev's demand that President Kennedy call a halt to the fighting in Cuba.

The 99-nation committee also had a proposal from Mexico that the United Nations appeal to all countries to bar use of their territories or resources "to promote civil war."

Reflecting Latin American concern over intervention in Cuba's

internal affairs, the resolution would urge all nations to "put an immediate end to any activity that might result in further bloodshed."

Valerian A. Zorin, Soviet deputy foreign minister, put before the committee also an official Soviet government statement demanding that the U. N. General Assembly "consider at once the question of aggressive actions of the United States which prepared and started the armed intervention against Cuba."

The resolution called for efforts to seek a peaceful solution of the Cuban problem "in keeping with the spirit of the U. N. Charter."

Crowd Attacks U.S. Embassy

MOSCOW (AP)—Thousands of demonstrators, hurling stones to a chorus of "Hands off Cuba!" smashed U.S. Embassy windows yesterday.

Some of the crowd then battled Soviet soldiers and policemen guarding the building.

Embassy personnel estimated 10,000 demonstrators marched past the building in waves during the day. They shouted and plastered signs on the high iron fence in front of the building.

Castro Uses Soviet Jets

By The Associated Press
Prime Minister Fidel Castro

has thrown Soviet-supplied tanks and jet planes against an invasion force battling to maintain a foothold in central Cuba, Cuban exiles reported yesterday.

Castro radio stations exultantly broadcast a Khrushchev pledge to send Castro all the necessary aid needed to hurl the invaders into the sea.

The Cuban Revolutionary Council in New York said "Cuban freedom fighters" were attacked and

large amounts of their equipment and medical supplies destroyed.

The Cuban News Agency reported late last night that Havana has been raided by rebel planes. The Agency said the bombers were flown by what it termed "foreign mercenaries."

The planes were described as MIGs. Other Soviet and Czech equipment has been pouring into Cuba since Castro began lining up with the Communist bloc.

Soviet Premier Khrushchev charged the United States with backing the invaders and demanded President Kennedy to halt the invasion.

President Creates Committee to Handle Evaluation Program

President Eric A. Walker has created a new committee to handle a series of departmental evaluations, Wilmer E. Kenworthy, executive assistant to Walker, announced yesterday.

Kenworthy said the new committee will carry out a program of evaluations which will serve as the groundwork for an institutional self-study in 1965.

This self-study is scheduled as a prelude to the Middle States evaluation of the University in 1966.

The new committee will arrange for outside evaluations for all departments. Dr. M. Nelson McGeary, committee secretary explained yesterday.

Evaluating teams of two or three members will be nominated by the head of the department and the dean of the college concerned. Final selections will be made by the committee.

The evaluations will begin next fall and proceed department by department, McGeary said, but it has not been decided which department will come first.

The president, assistant to the president for academic affairs, vice president for research and the dean of the graduate school will make up the committee. The dean of the college in which a department or division is being evaluated will serve as an ad hoc member.

The whole accreditation process is conducted about every 10 years. It begins with a self-evaluation, Kenworthy explained. The institution prepares a report and submits it to the Middle State Association.

After the report is evaluated, a team of evaluators is sent to the institution for several days. This team asks questions and "looks into things," Kenworthy said.

Kenworthy said the institution is finally accredited as a whole; however, the association may make recommendations for any one department or college.

Glee Club to Sing For Legislators

The Penn State Glee Club, directed by Frank Gullo, will sing this afternoon in the chamber of the House of Representatives and of the Senate in Harrisburg.

The group is composed of 70 men, all underclassmen, and the concerts before the State legislators will mark the beginning of a tour that will include programs in Lansford, Bethlehem, Yardley and Pittsburgh.

Warm-Up Predicted For Today

Long-awaited spring weather will finally arrive in this area.

An upward trend in temperature will begin today boosting afternoon readings into the low 50's. Considerably warmer weather is seen for tomorrow and readings may reach the low 60's.

Northwest winds, which have been feeding cold Canadian air into this area for the past several weeks will be switching into the southwest tomorrow with a resultant increase in temperature.

Today should be partly cloudy and milder with abundant afternoon sunshine. Temperatures will be chilly this morning, but they should rise to about 52 during the afternoon.

Partly cloudy and cool weather is seen for tonight and a low temperature of 36 is expected.

Sunny and warmer weather is forecast for tomorrow and afternoon temperature reading should climb to an easy-to-take 62 degrees.

Orders Due Thursday For Caps and Gowns

Tomorrow is the last day for June graduates to order announcements and invitations from the Hetzel Union desk and caps and gowns from the Athletic Store.

Graduate students who will be graduating in June may place orders for caps, gowns and hoods no later than May 20 at the Athletic Store.

Conflicts Due Today

Today is the last day for filing conflicts for final examinations. A \$10 fine will be charged for requesting a conflict examination after today.

Party Drops Harrisburg March Plan

University party will not support a march to Harrisburg to support the budget appropriation, Robert Harrison, the party candidate for SGA president said last night.

"We have talked the idea over with party leaders and contacted administrators and it will definitely not be included as a campaign plank," Harrison said.

Harrison was presented with the idea Monday after Richard Goldberg, a classmate, brought it to the attention of Michael Dzvonic, University party chairman.

"It may have done some good, but we don't know how it would affect the legislature," Harrison said.

He added that Goldberg plans to continue checking into the possible capital trek.

Among the persons who did comment was Ronald Sheetz, chairman of the SGA "Back the Budget" Committee.

"Anyone going to Harrisburg will not represent the SGA committee," Sheetz said.

Sheetz said that none of his committee members will go to Harrisburg since SGA vetoed the idea of sending a lobby to Harrisburg last month.

Also commenting were Duane Alexander, independent candidate for SGA president, and Dennis Foianini, Campus party candidate for the post.

"It's not practical and it won't accomplish the purpose of our committee," Alexander said. "If we can't get the budget by normal means such as personal contact and writing letters, we shouldn't try anything like this."

If President Walker and University officials would back the march on Harrisburg proposal, Alexander said that he would go along with it.

Foianini called the idea a "tremendous challenge," but clarified his statement by saying the idea is just a proposal and has not been backed up or investigated.

"If Harrison walks to Harrisburg, I'll go along with him," Foianini said, "but not if he drives in a 1960 car."

Androcles Cards Available

Tapping cards for Androcles, junior men's hat society, are available in 109 Old Main through April 29. All fourth semester men with a minimum all-University average of 2.20 are eligible for membership.

Congress Asked To Create Post Of Urban Affairs

WASHINGTON (AP)—President Kennedy formally asked Congress yesterday to create a Cabinet-rank Department of Urban Affairs and Housing to help cities deal with their growing problems.

The new department would simply take over the functions now assigned to the federal Housing and Home Finance Agency and its satellite offices.

Panhel Gets 1st Proposal For '61 Rush

Panhellenic Council last night heard a proposal that 1961-62 formal sorority rush be held from Dec. 8, the day following the close of final exams, through Dec. 13.

According to the proposal, fire-side chats to acquaint freshmen with sorority life will be held the first two Mondays in October. Rush registration will be Oct. 23 and open houses will be held the first two weekends in November.

Each sorority woman would pay approximately \$14 to stay on campus for rush. Mrs. Nancy M. Vanderpool, assistant to the dean of women, said. This would cover room and board and Panhel expenses for the period, she said.

To cut rush expenses and compensate for the short preparation period before rush, Janet Carlisle, Panhel rush chairman, suggested that party favors be eliminated and parties be less elaborate.

Sandy Baker, Chi Omega, opposed the proposal. She said there would be no transportation home for women staying to rush, and 10 weeks is too short a period to prepare for rush.

Having to rush after a 10-week semester with no vacation would produce bad psychological effect, she continued, and it would produce a bad psychological Christmas jobs.

Joan Gerstl, Phi Sigma Sigma, said there would still be a three and a half week vacation in which to work and she did not think the psychological effect would be too great.

The rush committee will present alternative rush dates next week. The council will vote on these proposals at the following meeting.

Sen. Joseph S. Clark, D-Pa., who introduced Kennedy's legislation in the Senate, said it would add no new programs or operations to the housing agency's present role.

He added that others may be tackled on in the future by legislation or reorganization plans.

Kennedy thus left open the controversial questions of which federal agency should take over the problems of helping cities with mass transportation and preservation of open spaces for parks.

Large numbers of mayors have urged creation of a Cabinet-rank federal agency to deal with their problems on the same status as that given business, labor, farmers and other major segments of American life.

They want help not only with housing but also with slum clearance, transit problems, and recreation.

But there has been some dispute as to which agency should handle the problems outside housing. Many say transit problems should be assigned to the Commerce Department and the recreational area question to the Department of Interior.

Pierre Salinger, White House news secretary, said Kennedy will send a message to Congress later which will touch on mass transit. But he did not indicate where the President would ask that the problem be assigned.

South Halls To Hold Vote

The AWS South Halls council will hold an election today for all residents to determine their feelings on whether or not to allow fathers in the dormitory rooms on Sunday afternoons.

According to Nancy Williams, president of the council, the referendum is being held because it is a matter which affects each girl in the area.

Voting will be held from 11 a.m. to 1 p.m. and 5 to 6 p.m. at the sign-in desks in the lobbies of the individual residence halls.

If the referendum is passed, the council will determine the hours during which fathers will be admitted.
