

New Rebel Force To Land in Cuba

By The Associated Press

Although acknowledging a grave reverse, the leader of Cuba's rebels declared yesterday new landing forces will strike Cuba in the struggle to unseat Fidel Castro.

As the Cuban exile high command vowed to fight until the end, Castro was reported by Havana radio as directing a mop up of the invasion that was shattered on the southern beaches of Cuba.

X15 Records 3,140 MPH Speed Mark

EDWARDS AIR FORCE BASE, Calif. (AP)—Maj. Bob White flew the X15 rocket plane to a new controlled flight speed record of 3,140 miles an hour yesterday, despite engine trouble and a leak in his pressurized cabin.

The new mark is 235 m.p.h. faster than White's previous record of 2,905 m.p.h. last March 7, but the Air Force officer said he felt no sensation of greater speed.

The engine trouble came a split second after the X15 dropped away from its B52 mother ship 140 miles east of here above Hidden Hills, Calif.

The engine ignited briefly, then cut out. For the next 30 seconds, while the X15 fell helplessly from 45,000 feet to 37,000 feet, White labored frantically to get the engine restarted.

Finally he succeeded. The engine's 57,000 pounds of thrust came on at full throttle, driving him back in his seat with a force three times that of normal gravity.

White zoomed to 80,000 feet, the altitude at which he reached the new speed record, then shut off his engine.

At 90,000 feet his pressurized cabin sprang a leak. Instantly and automatically, his space-type flying suit inflated to compensate for the loss of pressure in the cabin.

"I was still able to function normally," White said, so he continued the flight.

Momentum carried him on to 103,000 feet, close to the planned peak for the flight. Then came the long glide back to base.

Former Ogontz Student Convicted of Murder

NORRISTOWN, Pa. (AP)—A former college student was convicted of second degree murder last night for the slaying of a teenager last Memorial Day in a park.

The verdict, returned by a jury after nearly 10 hours of deliberation, came at the second trial of Arthur G. Nichol, 20, of Elkins Park, a Philadelphia suburb.

Nichol was a freshman at the Pennsylvania State University campus in Ogontz when the shooting took place.

Eichmann Trial Continues With Taped Testimony

JERUSALEM (AP)—Adolf Eichmann told an Israeli security agent he would kill his own father "without hesitation" if ordered to do so, according to tape recorded testimony replayed at his trial yesterday.

Israel Att. Gen. Gideon Hausner introduced the statement in an apparent effort to portray the mentality of the man he charges with masterminding Nazi Germany's "final solution to the Jewish problem."

In other transcripts from recorded statements made during eight months of interrogation by Israeli security agents, Eichmann continually described his role in Nazi anti-Jewish acts as "subordinate" — but he admitted full knowledge of the way Jews were marked for death.

Eichmann denied repeatedly he had anything to do with millions of murders committed in Nazi wartime extermination camps. But he acknowledged his efficient transport trains delivered victims to the gate camps.

By linking Eichmann repeatedly with high-level Nazi meetings dealing with extermination of Jews, the prosecutor sought to draw a picture of a man who not only took orders, but had an important part in drawing them up.

Hausner will introduce about 20 minutes more of tape Monday, a court authority said.

Phouma's Statement Indicates Cease-fire

MOSCOW (AP)—Former Laotian Premier Souvanna Phouma, a self-exiled neutralist, said yesterday he will return to his country Tuesday or Wednesday, "which will coincide with the start of a cease-fire" in Laos.

Britain and the Soviet Union were expected to issue a joint cease-fire appeal within 48 hours but Souvanna's statement was the strongest indication yet that East and West had decided on a date for calling a halt to fighting in the Southeast Asian kingdom.

Soviet Foreign Minister Andrei A. Gromyko told diplomats a compromise had been reached on the sequence of a cease-fire and a peace conference, which made it possible to publish a truce appeal.

Souvanna, though he has lived in Cambodia since fleeing Vietnam in December 1960, has been a central figure in moves to end the Laotian civil war.

He is recognized by the pro-Communist Pathet Lao rebels and the Communist bloc as Laos' legal head of government.

He said in an interview yesterday he will spend two or three days in Laos, adding: "During that time I believe an effective government can be created."

Souvanna said he did not know whether he would be premier in a government thus created and

declined to speculate on which parties would get which Cabinet posts.

He indicated he has in mind a coalition government, with Cabinet representation for all parties, including that of U.S.-backed Premier Boun Oum and the Communist-backed Pathet Lao.

Army Missile Passes Longest Distance Test

CAPE CANAVERAL, Fla. (AP)—The Army's Pershing missile passed its longest, most significant flight test yesterday and exceeded the range of the Redstone rocket it is slated to replace.

The missile is being developed as a mobile field weapon with a selective range of 50 to 700 miles. The Army plans to start stationing it in Europe next year, replacing the more cumbersome liquid-fuel Redstone.

Ed Committee Neglect Cited by Olympic Coach

PITTSBURGH (AP)—The manager of the U.S. Women's Olympic swimming team said yesterday that Gov. Lawrence's education committee has neglected health and physical education in its proposals for improving Pennsylvania's school facilities.
