

Red Lava--

(Continued from page four)

This proposal may be distasteful to many Americans, but war has always been so. Despite recent setbacks, the United States still maintains the latent advantage in the international arena because it was the symbol of good in the past wars and has adhered to certain ideals in the intervening periods.

The United States is composed of people who take pride in looking ahead and planning their future, but its international policy often seems to have "a spur of the moment look."

We will sacrifice time and energy to provide our children with an education, we will buy billions of dollars in life insurance, but when it comes to preventing the obliteration of our children we shirk from the task.

We condone cheating and white

lies at home, at work and at play, but frown on international espionage.

We must delay no longer. We must again become identified with revolution and change. Where freedom is desired, it should be actively supported. Where Communist agitation is generated it should be actively opposed.

By doing this the red lava will turn and flow uphill, and the ultimate victory will be ours.

Players Season Tickets

A new season ticket plan to begin in the fall term was announced by the Department of Theatre Arts and the Penn State Players.

The plan will allow theater patrons to attend five Players' performances at either Schwab or Center Stage for \$4 or to use the five coupons of the booklet for any one performance.

Citizen Calls for Action in Education--

(Continued from page one) tell our kids they can't go to college."

He said that some bills have been tossed in the legislative hopper at Harrisburg, but little is being done on them. The legislature must get busy with committee hearings and other work on bills derived from the

proposals of the governor's committee.

Sinkler, Mrs. Albert M. Greenfield, finance subcommittee chairman, and Duane W. Wilder, Irvine Steel Co. executive, called on all the other citizen members (about 15 in all) of the governor's committee to meet in Harrisburg yesterday for the purpose of estab-

lishing a citizens' committee to work for enactment of the committee's recommendations by the legislature.

"It would be tragic if the legislature failed to act on the recommendations of the education study," Sinkler said.

CLASSIFIEDS
